Permuted Title Index

Volumes 60 and 61
January–December 1978

acatalasemic and normal catalase mice /Carcinogenic and antitumor effects of aminotriazole on 60:1113
N-2-acetylaminofluorene and benzo[*a*]pyrene /Induction of monooxygenases in rhesus monkeys by 3-methylcholanthrene: 60:365
4′-[(9-acridinyl)-amino]methanesulphon-*m*-anisidide-HCl /Cell-cycle-specific chromosome damage following treatment of.....60:1155
4′-[(9-acridinyl)-amino]methanesulphon-*m*-anisidide-HCl /Kinetic response of cultured Chinese hamster cells to treatment with...60:1147
actinomycin D /Resistance and cross-resistance of cultured leukemia P388 cells to vincristine, adriamycin, adriamycin analogs,.....61:1521
acute leukemia detected in the primed lymphocyte test /Antigens associated with 60:537
acute lymphoblastic leukemia antigen /Rabbit antiserum against a non-T, non-B leukemia cell line that carries the Ph^1 .....61:987
acute lymphoblastic leukemia in human leukemia–lymphoma cell lines /Expression of an antigen associated with 60:1269
Acute lymphocytic leukemia-associated cell membrane antigen 61:423
acute myeloblastic leukemias of man /Cytodifferentiation in the.....60:265
acute promyelocytic leukemia /Unusual configurations of endoplasmic reticulum in cells of.....61:341
adenocarcinoma patients /Quantitation of secretory component levels in cyst fluids, ascitic fluids, and sera from ovarian 61:57
adenocarcinoma 755. I. Protection with syngeneic immune serum or lymphoid cells /Immunologic control of the ascites form...60:131
adenocarcinomas induced by 7,12-dimethylbenz[*a*]anthracene /Expression of RNA of an endogenous replication-defective 61:1329
adenocarcinomas in rat colon /Ultrastructure of 1,2-dimethylhydrazine-induced 61:1291
adenocarcinomas of the small intestines of Wistar rats fed Panfuran-S containing 3-di(hydroxymethyl)amino-6- 60:1339
adenocarcinoma to ascites form with invasion and metastasis in nude mice /Conversion of a poorly differentiated human 60:925
adenocarcinoma 755. II. Tumor immunity associated with a Friend-Moloney-Rauscher-type virus /Immunologic control of 60:141
adenoma–cancer sequence in the development of familial polyposis coli /Ultrastructural study of the normal mucosa- 60:753
adenoma formation and metabolism of benzo[*a*]pyrene /Effects of administration to mice of butylated hydroxyanisole by oral....60:605
adrenalectomy in the treatment of advanced breast cancer /Prediction of response to 60:271
adriamycin, adriamycin analogs, and actinomycin D /Resistance and cross-resistance of cultured leukemia P388 cells to 61:1521
adriamycin on the reproductive integrity of cultured leukemia L1210 and P388 cells /Effect of 60:1117
adriamycin-resistant subline of P388 leukemia to emetine, an inhibitor of protein synthesis /Biochemical parameters of resistance.....60:1049
aflatoxin B_1 /Effect of dietary protein on the response of rainbow trout (*Salmo gairdneri*) to 60:317
Aflatoxin B_1 induction of hepatocellular carcinoma in the embryos of rainbow trout (*Salmo gairdneri*).....60:1133
African patients with Burkitt's lymphoma and American patients with and without lymphoma /Epstein-Barr virus-immune 60:941
agarose leukocyte migration inhibition assay and delayed cutaneous hypersensitivity response to purified protein derivative in 60:769
age as modified by growth in vivo or in vitro /Separation of cells from a murine fibrosarcoma on the basis of size. I.....61:209
age distribution of cancer in man /The multistage theory of carcinogenesis and the 61:49
age /Mammary gland hyperplastic alveolar noduligenesis in the LEW/Mai rat in relation to mitotic activity, estrous cycle 61:1339
age on lung retention and colony formation in normal and preconditioned mice /Separation of cells from a murine.....61:215
Age-related modification of 7,12-methylbenz[*a*]anthracene binding to rat mammary gland DNA 60:173
age, tumor immunogenicity, and neonatal thymectomy on tumor growth inhibition /Nonimmune and immune surveillance. 61:737
AKR/J mice /Alterations in bone marrow and thymus lymphocytes in virus-inoculated, inbred, preleukemic 60:905
AKR leukemia cells by thymidine in mice /In vivo enhancement of 5-fluorouracil cytotoxicity to.....61:843
Alberta, Canada, 1953–74 /Cancer incidence in a religious isolate of 60:1233
albumin levels in patients with large bowel cancer /Serum prealbumin, retinol-binding protein, transferrin, and.....61:687
alloantibody preparations /Enhancement of growth of allogeneic mouse tumor by the IgG_1 fraction of.....60:167
Alloantisera reacting with tumor cells of inappropriate haplotype. I. Characterization of target antigens 61:527
alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation with BCG activity in syngeneic tumor.....60:1069
alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of different BCG treatments on cytotoxicity 60:1059
allotransplantability in the TA3 tumor of the mouse: Studies on segregating TA3-Ha hybrids /Further studies on the.....60:811
alpha$_1$-antitrypsin in patients with cancer /Altered carbohydrate content of.....61:961
Alpha-fetoprotein /Guest Editorial: 60:19
alpha-fetoprotein in human breast cancer /Estrogen receptor and 60:289
alpha-fetoprotein in rats /Metabolism of concanavalin A-affinity molecular variants of 61:833
alpha-fetoprotein synthesis by monkey hepatocellular carcinoma /In vitro 60:643
alpha-galactosidase of the mouse and their use as a cell marker in tumorigenesis /Multiple forms of 61:1263
alveolar nodule outgrowth lines /Effect of chemical carcinogen treatment on the immunogenicity of mouse mammary tumors ...61:1165
alveolar noduligenesis in the LEW/Mai rat in relation to mitotic activity, estrous cycle status, and age /Mammary gland 61:1339
A mice /Effect of reovirus infection on pulmonary tumor response to urethan in strain 61:131
aminotriazole on acatalasemic and normal catalase mice /Carcinogenic antitumor effects of 60:1113
amnion cells of established lines /Simian virus 40 (SV40) production from SV40-transformed human.....60:895
amphotericin B and 1,3-bis(2-chloroethyl)-1-nitrosourea /Growth and rejection of leukemia cells in individual mice after 61:399
amphotericin B methyl ester /Synergistic cytotoxicity for L929 cells of polyriboinosinic-polyribocytidylic acid and 60:1309
anaplastic carcinoma of the lung /Cytogenetic diagnosis of cancer: Abnormalities of chromosomes and polyploid levels in the...61:1065
Androgenesis as a cause of hydatidiform mole.....60:51
androgen receptors in breast cancer in the Japanese /Estrogen, progesterone, and 60:291

anesthetic agent on lung tumor induction in hamsters given benzo[*a*]pyrene-ferric oxide /Effect of 61:1221
Angiogenesis and oncogenesis /Guest Editorial: 61:639
antibodies by tumor cells from C57BL/6 mice /Degradation of cell-bound 61:1135
antibodies during intense BCG administration to patients with Burkitt's lymphoma in remission /Epstein-Barr virus- 60:31
antibodies in feline leukemia virus contact cats. Correlation of lysis and antibodies to feline oncornavirus-associated cell 60:161
antibodies: Inhibition of DNA synthesis and colony formation /Suppression of myeloma growth in vitro by anti-idiotypic 60:225
antibodies in patients' sera, directed against nonspecific cross-reacting antigen /Demonstration of 61:1385
antibodies isolated from tumor tissues and pleural effusions of lung cancer patients /Lung carcinoma-reactive 61:319
antibodies to feline oncornavirus-associated cell membrane antigen /Lysis of feline lymphoma cells by complement-dependent ... 60:161
antibody and antigens in normal and tumor-bearing feral mice /Prevalence of murine mammary tumor virus 61:485
Antibody-dependent lysis of tumor cells in vivo. I. Early lysis of tumor cells 61:1143
Antibody-dependent lysis of tumor cells in vivo. II. Elimination of chromium-51 as a measurement of cytolysis 61:1149
antibody directed in patients' sera /Immune responses in human colon cancer. II. Cytotoxic 60:779
Antibody-linked cytotoxic agents in the treatment of cancer: Current status and future prospects 61:657
antibody on the cell surface /In vivo modulation of thymus-leukemia antigens on mouse leukemia cells and thymocytes: 61:819
antibody plus guinea pig complement /Correlation between the ability of tumor cells to incorporate specific fatty acids and 61:931
Antibody specific to a non-T, non-B acute lymphoblastic leukemia antigen /Rabbit antiserum against a non-T, non-B 61:987
antibody synthesis in vitro induced in mouse spleen cells by xenogeneic immune RNA /Antitumor 60:599
antibody to normal skin cells of mice /Stimulation of malignant skin cells by 60:1419
anticancer chemotherapeutic agents on immune reactions of mice. I. Comparison of two nitrosoureas: 1,3-Bis(2-chloroethyl)-1- 60:1483
anticarcinoembryonic antigen-reactive substance and immunoglobulin M in human pancreatic cancer /Identification of a 61:1199
antigen /Acute lymphocytic leukemia-associated cell membrane 61:423
antigen and purified protein derivative reactivity in guinea pigs sensitized to line 10 hepatocarcinoma and BCG /Leukocyte 60:693
antigen associated with acute lymphoblastic leukemia in human leukemia-lymphoma cell lines /Expression of an 60:1269
antigen by immunofluorescence. II. Immunofluorescence microscopy /Tissue localization of zinc glycinate marker and 60:1375
antigen by immunofluorescence. I. Preparation of antisera against the zinc glycinate marker /Tissue localization of zinc 60:1371
antigen (CEA) elevations following resection of colorectal cancer: A limitation in the use of serial CEA levels as an indicator for ... 61:315
antigen /Demonstration of antibodies in patients' sera, directed against nonspecific cross-reacting 61:1385
antigen distinct from H-2^k-like antigens on a BALB/c (*H-2*^{d}) fibrosarcoma /Tumor-associated transplantation 61:1229
antigen from cell cultures persistently infected with bovine leukemia virus /Isolation of a precipitating glycoprotein 60:213
antigen differences in human breast cancers and melanomas /Use of the leukocyte migration inhibition assay to evaluate 60:969
antigen in chickens infected with nononcogenic Marek's disease virus and herpesvirus of turkeys /Demonstration of Marek's 61:855
antigen induction by the envelope-defective Bryan strain of Rous sarcoma viruses /Tumor 60:1365
antigen in hollow fiber cell culture units /Continuous production of carcinoembryonic 60:303
antigen in human breast carcinoma cells and its absence from normal mammary epithelial cells /Presence of a mouse 61:1205
antigen in infected chickens /Pathogenesis of Marek's disease: Early appearance of Marek's disease tumor-associated surface 61:849
antigen: Isolation and partial characterization /Human thymus-leukemia-associated 60:69
antigen /Lysis of feline lymphoma cells by complement-dependent antibodies in feline leukemia virus contact cats. Correlation of 60:161
antigen-producing colon carcinoma cell line /Further biologic characteristics of a human carcinoembryonic 61:75
antigen /Purification and characterization of a human lung tumor-associated 61:1035
antigen /Rabbit antiserum against a non-T, non-B leukemia cell line that carries the Ph^1 chromosome (NALM-1): Antibody 61:987
antigen-reactive substance and immunoglobulin M in human pancreatic cancer /Identification of a macromolecule containing ... 61:1199
antigens act as rejection antigens? /Effect of embryonic tissue immunization on chemically induced gastrointestinal tumors in ... 61:189
antigens /Alloantisera reacting with tumor cells of inappropriate haplotype. I. Characterization of target 61:527
Antigens associated with acute leukemia detected in the primed lymphocyte test 60:537
antigens by natural killer cells /Expression of human T-lymphocyte 60:961
antigens from human breast tumor cells /Cell-surface 60:39
antigens in mammary neoplasia /Immunologic methods for the identification of cell types. II. Expression of normal mouse 61:747
antigens in normal and tumor-bearing feral mice /Prevalence of murine mammary tumor virus antibody and 61:485
antigens in pregnant women /Cell-mediated immune response to simian oncornavirus 60:527
Antigens of a human breast carcinoma cell line (BT 20). I. Synthesis of serum proteins, membrane-associated antigens, and 61:677
antigens of a syngeneic simian virus 40-induced sarcoma in mice /Specific immune response against tumor-associated 61:1351
antigens on cells with HeLa marker chromosomes /Letters to the Editor: Lung organ-specific 60:1205
antigens on mouse leukemia cells and thymocytes: Retention of modulating antibody on the cell surface /In vivo modulation ... 61:819
antigens on rat liver cells transformed in vitro by chemical carcinogens /*Propionibacterium acnes*-mediated humoral immune ... 61:1525
antigens on rat liver cells transformed in vitro by chemical carcinogens /Tumor-specific 60:125
antigens /Purification and immunologic evaluation of human melanoma-associated 60:773
antigens /Solubilization and partial isolation of human melanoma tumor-associated 61:61
antihypertensive and diuretic use by women with malignant and benign breast lesions detected in a mammography screening 61:327
anti-idiotypic antibodies: Inhibition of DNA synthesis and colony formation /Suppression of myeloma growth in vitro by 60:225
anti-inflammatory agents on skin of newborn mice in vivo and in vitro /Effects of tumor promoters and steroidal 60:425
antileukemia drug busulfan /Spontaneous regression of syngeneic transplanted tumor in rats pretreated with the 60:385

antilymphocyte serum and in congenitally athymic-asplenic (lasat) mice /Enhancement of heterotransplanted human tumor 61:245
Antiproliferative activity of highly purified mouse interferon 60:243
antisera against the zinc glycinate marker /Tissue localization of zinc glycinate marker and carcinoembryonic antigen by.....60:1371
antiserum against a non-T, non-B leukemia cell line that carries the Ph¹ chromosome (NALM-1): Antibody specific to a non-T.....61:987
antitumor activity and toxicity of 2,4-diamino-5-(1-adamantyl)-6-methylpyrimidine and 2,4-diamino-5-(1-adamantyl)- 60:1029
Antitumor activity of a boiled scallop extract 60:1499
Antitumor activity of interferon against murine osteogenic sarcoma cells in vitro 60:659
Antitumor activity of purified cell walls from *Corynebacterium parvum* 60:653
antitumor antibody. I. Immunoglobulin class determined by interaction with protein A or concanavalin A /Complement-.....60:411
Antitumor antibody synthesis in vitro induced in mouse spleen cells by xenogeneic immune RNA 60:599
antitumor effects of aminotriazole on acatalasemic and normal catalase mice /Carcinogenic and 60:1113
antitumor efficacy of daunomycin when linked to dextran: In vivo and in vitro studies /Higher.....60:379
antitumor immune responses mediated by immune RNA /Lymphocyte populations participating in cellular.....60:335
Antitumor immunity in strain 2 guinea pigs immunized with potassium chloride extracts of L_2C tumor cells 60:899
antiviral antibodies during intense BCG administration to patients with Burkitt's lymphoma in remission /Epstein-Barr 60:31
apes /Oncornavirus lytic activity in the serum of gibbon 60:677
aromatic amines /Chromosome banding patterns and breakpoints of three transplantable hepatomas induced in rats by 61:495
aromatic hydrocarbon: A possible role in cocarcinogenesis /Particle-enhanced membrane uptake of a polynuclear 61:1155
aryl hydrocarbon hydroxylase and 3-methylcholanthrene-induced skin tumorigenesis in rats and mice /Effects of diethyl.....60:321
ascites form of murine adenocarcinoma 755. I. Protection with syngeneic immune serum or lymphoid cells /Immunologic 60:131
ascites form of murine adenocarcinoma 755. II. Tumor immunity associated with a Friend-Moloney-Rauscher-type virus.....60:141
ascitic fluids, and sera from ovarian adenocarcinoma patients /Quantitation of secretory component levels in cyst fluids, ...61:57
athymic-asplenic (lasat) mice /Enhancement of heterotransplanted human tumor graft survival in nude mice treated with 61:245
athymic nude and normal inbred C3Hf/He mice /Survival and cause of death in aging germfree 61:1357
autoantibodies eluted from in vivo propagating sarcoma cells of mice /Lymphocytotoxic.....60:1509
autotransplantation of rat mammary tumors induced by 7,12-dimethylbenz[*a*]anthracene /Multiple 60:473

BALB/c (*H-2ᵈ*) fibrosarcoma /Tumor-associated transplantation antigen distinct from H-2ᵏ-like antigens on a 61:1229
BALB/c mice by concomitant administration of butylated hydroxytoluene /Selective sex-related modification of.....61:177
BALB/c mice /Rescue of a transforming virus from a spontaneous nonproducing osteosarcoma in.....60:401
BALB/c mouse mammary gland DNA in organ culture /Binding of 7,12-dimethylbenz[*a*]anthracene to 61:465
BALB/c mouse plasmacytoma 58-8 cells /Cell-surface major glycoprotein of.....61:203
banding pattern /Reproducible chromosome changes of polycyclic hydrocarbon-induced rat leukemia: Incidence and 60:153
banding patterns and breakpoints of three transplantable hepatomas induced in rats by aromatic amines /Chromosome 61:495
barbiturates /Increased risk of brain tumors in children exposed to 61:1031
B-cell, and null cell lines /Differences in purine metabolizing enzyme activities in human leukemia T-cell,.....60:1301
B-cell lines in mixed lymphocyte culture /Comparison of the stimulating capacity of human leukemia T-cell, null cell, and 60:793
B-cell lines: Light and electron microscopy /Morphologic and cytochemical comparison of human lymphoblastoid T-cell 60:59
BCG administration to patients with Burkitt's lymphoma in remission /Epstein-Barr virus-associated and other antiviral 60:31
BCG, and a nonviable aqueous ether extract of *Brucella abortus* preparation in treatment of mice with tumors /Further 60:391
(BCG) /Immunotherapy of bilateral lymph node metastases in guinea pigs by intralesional or paralesional injection of 60:1163
BCG /Leukocyte migration inhibition of tumor antigen and purified protein derivative reactivity in guinea pigs sensitized to ...60:693
BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation with BCG activity in syngeneic 60:1069
BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of different BCG treatments on.....60:1059
BCG on the generation of cytotoxic lymphocytes against leukemia /In vitro induction of cell-mediated immunity to murine 60:1097
BCG /Stimulation of tumor growth in mice by high doses of.....61:1393
BCG vaccination in prevention of cancer: An update /Efficacy of 60:785
beagle dogs administered investigational oral contraceptive steroids /Mammary nodules in 60:1351
bedding, and immunization with fetal liver or hepatoma cells /Spontaneous hepatomas in mice inbred from Ha:ICR Swiss 61:1531
beeswax pellets /Pulmonary carcinogenesis in rats given implants of cigarette smoke condensate in 61:905
beeswax:trioctanoin and trioctanoin vehicles on 3-methylcholanthrene, benzo[*a*]pyrene, and 7,12-dimethylbenz[*a*]anthracene.....61:1107
benign breast disease as detected by the leukocyte migration inhibition assay /Immunologic relationship between breast.....61:1181
benzo[*a*]pyrene, and 7,12-dimethylbenz[*a*]anthracene subcutaneous carcinogenesis in three strains of mice and one hybrid.....61:1107
benzo[*a*]pyrene-ferric oxide /Effect of anesthetic agent on lung tumor induction in hamsters given.....61:1221
benzo[*a*]pyrene-ferric oxide in the hamster /The respiratory epithelium. VI. Histogenesis of lung tumors induced by.....61:607
benzo[*a*]pyrene-induced pulmonary adenoma formation and metabolism of benzo[*a*]pyrene /Effects of administration to mice 60:605
benzo[*a*]pyrene-induced tumorigenesis in skin of mice /Effect of bile acids and neutral sterols on 60:1501
benzo[*a*]pyrene /Induction of monooxygenases in rhesus monkeys by 3-methylcholanthrene: Metabolism and mutagenic 60:365
benzo[*a*]pyrene in mice by immunization /Reduction of respiratory tract binding of 61:1347
benzo[*a*]pyrene /Radioimmunoassay for 61:221

benzo[*a*]pyrene skin tumor initiation in mice /Lack of involvement of 6-hydroxymethylation in 61:451
7,8-benzoflavone on skin tumor-initiating activities of various 7- and 12-substituted derivatives of 7,12-dimethylbenz[*a*]anthracene 61:135
bile acids and neutral sterols on benzo[*a*]pyrene-induced tumorigenesis in skin of mice /Effect of 60:1501
biosynthetic enzymes /Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. II. Alterations in 60:1329
1,3-Bis(2-chloroethyl)-1-nitrosourea and 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitrosourea /Effect of anticancer 60:1483
1,3-bis(2-chloroethyl)-1-nitrosourea /Chemotherapeutic activity of new 2-chloroethylnitrosoureas in rat L5222 leukemia: 60:345
1,3-bis(2-chloroethyl)-1-nitrosourea /Growth and rejection of leukemia cells in individual mice after combined treatment 61:399
(Bivalvia, Mollusca) /Cytology and quantitative cytochemistry of a proliferative atypical hemocytic condition in *Mytilus* 60:1455
BK virus, a human papovavirus /Ependymomas, malignant tumors of pancreatic islets, and osteosarcomas induced in 61:875
black and white cancer patients, 1960–73 /Contrasts in survival of 60:1209
bladder cancer in the United States /Geographic patterns of 61:1017
bladder carcinogens butyl(4-hydroxybutyl)nitrosamine and butyl(3-carboxypropyl)nitrosamine in organ-cultured rat bladder 60:219
bladder epithelium /Focal suppression and induction of hyperplasia by the bladder carcinogens butyl(4-hydroxybutyl)- 60:219
bladder mucosae of dogs given 2-naphthylamine /Histologic and histochemical preneoplastic changes in the 60:327
blastogenesis responses in breast carcinoma patients to mouse mammary tumor virus and to virion gp52 antigen and Rauscher 60:1259
Blocking plasma factors of migration inhibition factor production in patients with cervical carcinoma: A possible role in vivo 60:1279
blood and effusions of patients with cancer /Distribution of T-lymphocytes and B-lymphocytes in peripheral 61:295
blood flow in unanesthetized rats /Measurement of mammary tumor 60:881
blood from cancer patients /A reevaluation of B-lymphocyte levels in peripheral 61:715
blood lymphocytes in chronic lymphatic leukemia and malignant lymphoma /Surface charge characteristics of peripheral 60:741
blood of tumor-bearing mice /Tumor cell cytotoxicity by granulocytes from peripheral 60:687
blood supply or consumption of oxygen and glucose by rat mammary carcinomas /Relationship between temperature and 60:835
B-lymphocyte levels in peripheral blood from cancer patients /A reevaluation of 61:715
B-lymphocytes in culture /Differential chemotherapeutic susceptibility of human T-lymphocytes and 60:749
B-lymphocytes in peripheral blood and effusions of patients with cancer /Distribution of T-lymphocytes and 61:295
B16 melanoma cells /Isolation and metastatic properties of detachment variants of 60:1217
BN rat myeloid leukemia transferred to the (LEW × BN)F_1 rat 61:927
Bone cancer among female radium dial workers. Latency periods and incidence rates by time after exposure 60:77
bone marrow and thymus lymphocytes in virus-inoculated, inbred, preleukemic AKR/J mice /Alterations in 60:905
bone marrow /Dose-incidence variations of reticulum cell sarcoma in mice with irradiated 61:1131
bone marrow of patients with small cell anaplastic carcinoma of the lung /Cytogenetic diagnosis of cancer: Abnormalities of ... 61:1065
bone marrow of the Chinese hamster /Effect of lucanthone hydrochloride on the radiation response of intestine and 60:1023
Bone marrow studies /Multiple myeloma: An immunologic profile. II. 61:943
bovine leukemia virus /Isolation of a precipitating glycoprotein antigen from cell cultures persistently infected with 60:213
bowel cancer /Serum prealbumin, retinol-binding protein, transferrin, and albumin levels in patients with large 61:687
brain carcinogenesis by sequential culturing during the latent period. I. Morphology and tumorigenicity of the cultured cells 61:381
brain carcinogenesis by sequential culturing during the latent period. II. Morphology of the tumors induced by cell cultures 61:391
brain cells during neoplastic transformation in cell culture /Surface structure of fetal rat 61:1415
brain tumors: An in vivo and in vitro tumor model system /Nitrosourea-induced 61:365
brain tumors in children exposed to barbiturates /Increased risk of 61:1031
Brazil. II. Hodgkin's disease /Epstein-Barr virus infections in 61:19
breakpoints of three transplantable hepatomas induced in rats by aromatic amines /Chromosome banding patterns and 61:495
breast cancer and dysplasia /Retinoic acid-binding protein in human 61:1375
breast cancer? /Can animal and in vitro studies give new, relevant answers to questions concerning mammographic 61:1537
breast cancer /Estimates of the composite risk factors for death from 61:41
breast cancer /Estrogen profiles in young women: Effect of maternal history of 60:965
breast cancer /Estrogen receptor and alpha-fetoprotein in human 60:289
breast cancer: Evidence for a tumor-mediated effect /Abnormal monocyte chemotaxis in patients with 60:737
breast cancer in males in the United States and Japan /Comparison of age-specific mortality from 60:1223
breast cancer in the Japanese /Estrogen, progesterone, and androgen receptors in 60:291
breast cancer /Letter to the Editor: Dose-response relationship in radiogenic 60:727
breast cancer patients /Role of suppressor cells in depression of in vitro lymphoproliferative responses of lung cancer and 61:1001
breast cancer /Prediction of response to adrenalectomy in the treatment of advanced 60:271
breast cancer /Prognostic factors in the initial response to therapy by patients with advanced 60:731
breast cancer /Relation between component parts of fibrocystic disease complex and 61:1055
breast cancer: Risk to the contralateral breast /Familial 60:955
breast cancers and melanomas /Use of the leukocyte migration inhibition assay to evaluate antigenic differences in human 60:969
Breast Cancer Screening: Issues and recommendations /National Institutes of Health/National Cancer Institute Consensus 60:1519
Breast Cancer Screening /Statement on recommendations of the Consensus Development Panel on 60:1523
breast carcinoma and benign breast disease as detected by the leukocyte migration inhibition assay /Immunologic 61:1181
breast carcinoma cell line (BT 20). I. Synthesis of serum proteins, membrane-associated antigens, and oncofetal-associated 61:677

breast carcinoma cells and its absence from normal mammary epithelial cells /Presence of a mouse mammary tumor 61:1205
breast carcinoma patients to mouse mammary tumor virus and o virion gp52 antigen and Rauscher murine leukemia 60:1259
breast carcinoma /Serum protein-bound carbohydrates for following the course of disease in patients with metastatic 61:703
breast carcinomas /Isolation of two human tumor epithelial cell lines from solid 61:967
breast lesions detected in a mammography screening program /Case-control study of antihypertensive and diuretic use by 61:327
breast tissue with a cationic carbocyanine dye /Simultaneous differential staining of phosphoproteins, sialoglycoproteins, ... 61:951
breast tumor cells /Cell-surface antigens from human 60:39
breast tumors /Nuclear magnetic resonance and detection of human 61:53
5-bromo-2′-deoxyuridine in rat hepatoma cells /Induction of intracisternal type A particles by 60:919
bronchioles /The respiratory epithelium. II. Hamster trachea, bronchus, and 61:551
bronchus, and bronchioles /The respiratory epithelium. II. Hamster trachea, ... 61:551
bronchus /The respiratory epithelium. I. Human 61:539
Brucella abortus preparation in treatment of mice with tumors /Further observations on the inhibition of tumor growth by 60:391
Bryan strain of Rous sarcoma viruses /Tumor antigen induction by the envelope-defective 60:1365
(BT 20). I. Synthesis of serum proteins, membrane-associated antigens, and oncofetal-associated antigens /Antigens of a 61:677
Burkitt's lymphoma and American patients with and without lymphoma /Epstein-Barr virus-immune complexes in 60:941
Burkitt's lymphoma in remission /Epstein-Barr virus-associated and other antiviral antibodies during intense BCG 60:31
Burkitt's lymphoma line /State of Epstein-Barr virus DNA in an American 60:991
busulfan /Spontaneous regression of syngeneic transplanted tumor in rats pretreated with the antileukemia drug 60:385
butyl(3-carboxypropyl)nitrosamine in organ-cultured rat bladder epithelium /Focal suppression and induction of 60:219
butyl(4-hydroxybutyl)nitrosamine and butyl(3-carboxypropyl)nitrosamine in organ-cultured rat bladder epithelium /Focal 60:219

Cancer incidence and mortality trends in the United States: 1935–74 ..... 60:545
(*Carassius auratus*) /Morphologic and biochemical characterization of erythrophoromas in goldfish 61:1461
carbobenzoxy-L-phenylalanine /Differences in nuclear glucocorticoid binding between corticoid-sensitive and 61:1477
carbocyanine dye /Simultaneous differential staining of phosphoproteins, sialoglycoproteins, hyaluronic acid, sulfated 61:951
carbohydrate content of alpha$_1$-antitrypsin in patients with cancer /Altered 61:961
carbohydrates for following the course of disease in patients with metastatic breast carcinoma /Serum protein-bound 61:703
carbon disulfide /Inhibition of 1,2-dimethylhydrazine-induced neoplasia of the large intestine in female CF$_1$ mice by 60:1515
carcinoembryonic antigen by immunofluorescence. II. Immunofluorescence microscopy /Tissue localization of zinc 60:1375
carcinoembryonic antigen by immunofluorescence. I. Preparation of antisera against the zinc glycinate marker /Tissue 60:1371
carcinoembryonic antigen (CEA) elevations following resection of colorectal cancer: A limitation in the use of serial CEA levels 61:315
carcinoembryonic antigen in hollow fiber cell culture units /Continuous production of 60:303
carcinoembryonic antigen-producing colon carcinoma cell line /Further biologic characteristics of a human 61:75
carcinogen 1,2-dimethylhydrazine by the host-mediated assay and its correlation to carcinogenicity /Detection of 61:457
carcinogenesis and immunity: Immunologic status of rats treated with methylnitrosourea /Chemical 61:731
carcinogenesis and the age distribution of cancer in man /The multistage theory of 61:49
carcinogenesis by methylazoxymethanol acetate in rats /Effect of colostomy on intestinal 61:1161
carcinogenesis by prostaglandins in male albino Swiss mice /Enhancement of 61:97
carcinogenesis by sequential culturing during the latent period. I. Morphology and tumorigenicity of the cultured cells and their 61:381
carcinogenesis by sequential culturing during the latent period. II. Morphology of the tumors induced by cell cultures 61:391
carcinogenesis /DNA labeling index and structure of the rat mammary gland as determinants of its susceptibility to 61:1451
carcinogenesis /Guest Editorial: Established principles and unresolved problems in 60:723
carcinogenesis /Guest Editorial: Inhibition of chemical 60:11
carcinogenesis in BALB/c mice by concomitant administration of butylated hydroxytoluene /Selective sex-related 61:177
Carcinogenesis induced by 7,12-dimethylbenz[*a*]anthracene in C3H-*A^{vy}*/B mice: Influence of different dietary fats 60:849
carcinogenesis in F344 rats /Effect of intestinal microflora on 3,2′-dimethyl-4-aminobiphenyl-induced 61:1269
carcinogenesis in rats fed a choline-devoid diet /Enhancement of DL-ethionine-induced liver 61:813
carcinogenesis in rats given implants of cigarette smoke condensate in beeswax pellets /Pulmonary 61:905
carcinogenesis in T-cell-depleted mice /Ultraviolet 61:917
carcinogenesis in three strains of mice and one hybrid /Comparison of the effects of beeswax:trioctanoin and trioctanoin 61:1107
carcinogenesis. II. Lifetime carcinogenesis studies in the outbred Syrian golden hamster with *N*-nitroso-bis(2-hydroxy- 60:701
Carcinogenic activity of *Symphytum officinale* 61:865
Carcinogenic and antitumor effects of aminotriazole on acatalasemic and normal catalase mice 60:1113
Carcinogenic effect of *N*-nitroso-2,6-dimethylmorpholine in Syrian golden hamsters 60:371
Carcinogenic effect of subcutaneously administered *N*-nitroso-2,6-dimethylmorpholine in Syrian golden hamsters 60:197
Carcinogenicity and acute toxicity of dimethylnitrosamine in rainbow trout (*Salmo gairdneri*) 60:1127
carcinogenicity in strain A mice /Tobacco-specific nitrosamines: Formation from nicotine in vitro and during tobacco curing 60:819
Carcinogenicity of some folk medicinal herbs in rats 60:683
Carcinogenicity of subcutaneously injected *N*-nitrosoheptamethyleneimine in European hamsters 61:239

carcinogen-induced lesions /Enhancement of rat hepatocellular-altered foci by the liver tumor promoter phenobarbital: 61:1311
carcinogen *N*-nitroso-bis(2-oxopropyl)amine after oral and intraperitoneal administration to Syrian golden hamsters 60:911
carcinogens butyl(4-hydroxybutyl)nitrosamine and butyl(3-carboxypropyl)nitrosamine in organ-cultured rat bladder epithelium 60:219
carcinogens in respiratory tracts of dogs /Cytologic correlates of chemical 61:1209
carcinogens or ultraviolet light in vitro, with special reference to aging and repair level /DNA repair synthesis in rat retinal 61:1101
carcinogens /*Propionibacterium acnes*-mediated humoral immune responses to tumor-specific antigens on rat liver cells 61:1525
carcinogens /Tumor-specific antigens on rat liver cells transformed in vitro by chemical 60:125
carcinogen treatment on the immunogenicity of mouse mammary tumors arising from hyperplastic alveolar nodule outgrowth 61:1165
carcinoma and benign breast disease as detected by the leukocyte migration inhibition assay /Immunologic relationship 61:1181
carcinoma: A possible role in vivo /Blocking plasma factors of migration inhibition factor production in patients with 60:1279
carcinoma by infection with mouse xenotropic type C virus /Protection against 7,12-dimethylbenz[*a*]anthracene-induced rat 61:123
carcinoma cell line (BT 20). I. Synthesis of serum proteins, membrane-associated antigens, and oncofetal-associated antigens 61:677
carcinoma cell line /Further biologic characteristics of a human carcinoembryonic antigen-producing colon 61:75
carcinoma cells and its absence from normal mammary epithelial cells /Presence of a mouse mammary tumor virus-related 61:1205
carcinoma cells in vivo and in vitro /Effects of progesterone on human endometrial 60:947
carcinoma cells transplanted into the rabbit /Cytochemical study on uptake of exogenous peroxidase by Vx2 ..... 61:1215
carcinoma in King County, Washington: A standardized histologic review /Incidence of endometrial 60:985
carcinoma in man: Observation by a method in which leucine aminopeptidase activity is used /Special features of intestinal 61:693
carcinoma in rats /Immunologic surveillance against chemically induced primary colon 60:667
carcinoma in situ in the hamster /The respiratory epithelium. IV. Histogenesis of epidermoid metaplasia and 61:577
carcinoma in situ in the human /The respiratory epithelium. III. Histogenesis of epidermoid metaplasia and 61:563
carcinoma in situ /Viability of the human cervical epithelium with dysplasia and 60:523
carcinoma in the embryos of rainbow trout (*Salmo gairdneri*) /Aflatoxin B_1 induction of hepatocellular 60:1133
carcinoma /In vitro alpha-fetoprotein synthesis by monkey hepatocellular 60:643
carcinoma of the lung /Cytogenetic diagnosis of cancer: Abnormalities of chromosomes and polyploid levels in the bone 61:1065
carcinoma of the lung /Response of plasma histaminase activity to heparin in normal subjects and in patients with small 60:1234
carcinoma of the uterine cervix of the mouse /Rate of cell division in atypias and invasive 61:259
carcinoma patients to mouse mammary tumor virus and to virion gp52 antigen and Rauscher murine leukemia virus-Kirsten 60:1259
carcinoma-reactive antibodies isolated from tumor tissues and pleural effusions of lung cancer patients /Lung 61:319
carcinomas, and pancreatic islet changes in C3H-A^{vy} mice /Mammary tumors, hepatocellular 60:611
carcinoma /Serum protein-bound carbohydrates for following the course of disease in patients with metastatic breast 61:703
carcinomas /Fucosyltransferase activity in metastasizing and nonmetastasizing rat mammary 61:151
carcinomas induced by *N*-methyl-*N*-nitrosourea /Pathogenesis of rat colon 61:779
carcinomas in irradiated rats /Effects of endocrinologic conditions associated with acute versus chronic lactation on the 60:469
carcinomas in the human /The respiratory epithelium. V. Histogenesis of lung 61:587
carcinomas /Isolation of two human tumor epithelial cell lines from solid breast 61:967
carcinomas /Relationship between temperature and blood supply or consumption of oxygen and glucose by rat mammary 60:835
Carcinoma: Summary and recommendations /International Symposium on Etiology and Control of Nasopharyngeal 61:1535
carcinoma /Suppression of mitogen responses and graft-versus-host reaction by splenocytes from mice bearing Lewis lung 61:471
catalase mice /Carcinogenic and antitumor effects of aminotriazole on acatalasemic and normal 60:1113
cat /Feline leukemia virus envelope glycoprotein vaccine: Preparation and evaluation of immunizing potency in guinea pig 61:1487
cats. Correlation of lysis and antibodies to feline oncornavirus-associated cell membrane antigen /Lysis of feline lymphoma 60:161
cats with a paraffin embedding immunofluorescence procedure /Detection of feline leukemia virus in tissues of 61:1315
C57BL/6 mice /Degradation of cell-bound antibodies by tumor cells from 61:1135
C57BL/6 mice /Immune reactivity of RBL-3, a nonproducer leukemia induced by Rauscher murine leukemia virus in 61:107
C57BL/6 mice /Spontaneous and induced preleukemia cells in 60:707
(C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation with BCG activity in syngeneic tumor systems /Effect of BCG on alloimmune 60:1069
(C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of different BCG treatments on cytotoxicity mediated by T-cells and macrophages 60:1059
CBS/H-T6T6 mice. Histochemistry and electron microscopy /Cytoplasmic inclusions in spontaneous hepatomas of 60:861
CEA levels as an indicator for second-look surgery /Transient carcinoembryonic antigen (CEA) elevations following 61:315
cedar shavings in bedding, and immunization with fetal liver or hepatoma cells /Spontaneous hepatomas in mice inbred 61:1531
Cell kinetics after vincristine treatment of C3H/He spontaneous mammary tumors: Implications for therapy 60:1043
cell-mediated cytotoxicity by the chromium-51 release assay /Cell-mediated responses in dogs with spontaneous neoplasms. I. 61:1085
cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation with BCG activity in syngeneic tumor systems 60:1069
cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of different BCG treatments on cytotoxicity mediated by 60:1059
cell-mediated cytotoxicity in mice /Effect of chemotherapeutic agents on natural 61:1255
Cell-mediated immune response to simian oncornavirus antigens in pregnant women 60:527
cell-mediated immunity to Marek's disease tumor cells in chickens inoculated with Marek's disease vaccines /Development of 61:1273
cell-mediated immunity to murine leukemia cells. III. Effect of methanol extraction residue fraction of BCG on the generation 60:1097
cell membrane antigen /Acute lymphocytic leukemia-associated 61:423
cell membrane antigen /Lysis of feline lymphoma cells by complement-dependent antibodies in feline leukemia virus 60:161

cell size and age as modified by growth in vivo or in vitro /Separation of cells from a murine fibrosarcoma on the basis of 61:209
cell size and age on lung retention and colony formation in normal and preconditioned mice /Separation of cells from a.....61:215
Cell-surface antigens from human breast tumor cells.....60:39

concanavalin A /Complement-dependent cytotoxic antitumor antibody. I. Immunoglobulin class determined by interaction 60:411
Concanavalin A-induced agglutinability of normal, preneoplastic, and neoplastic mouse mammary cells 61:1423
Consensus Development Meeting on Breast Cancer Screening: Issues and recommendations /National Institutes of Health/ 60:1519
Consensus Development Panel on Breast Cancer Screening /Statement on recommendations of the 60:1523
contraceptive steroids /Mammary nodules in beagle dogs administered investigational oral 60:1351
corticoid-sensitive and corticoid-resistant lymphocytes of mouse lymphoma P1798 and stabilization of nuclear hormone receptor 61:1477
Corynebacterium parvum and Marek's tumor cell vaccines on tumorigenesis in chickens /Resistance to Marek's disease. 60:829
Corynebacterium parvum /Antitumor activity of purified cell walls from 60:653
Corynebacterium parvum /Modification of radiation response of murine tumors by misonidazole (Ro 07-0582), host immune 60:887
Corynebacterium parvum on tumor growth in the central nervous system of mice /Effect of 61:827
Corynebacterium parvum with cyclophosphamide. V. Comparison of the effects of tilorone hydrochloride, levamisole, ... 60:391
critical-point drying method /Transmission electron microscopy surveillance of retroviruses in tissue culture cells prepared 61:431
cryopreserved lymphocytes for sequential evaluation of human immune competence. II. Mixed lymphocyte cultures and 61:1011
cutaneous hypersensitivity reactions to extracts of human tumor cells /Specificity of delayed 60:255
cutaneous hypersensitivity response to purified protein derivative in cancer patients /Decreased correlation between the 60:769
cutting oil mists /Further analysis of cancer mortality patterns among workers exposed to 61:1025
Cyclic adenosine 3′,5′-monophosphate-binding protein: Role in ovariectomy-induced regression of a hormone-dependent 60:1175
cyclic adenosine 3′,5′-monophosphate levels in RSa cells by human leukocyte interferon /Inhibition of DNA synthesis and 60:1227
3′,5′-cyclic adenosine monophosphate phosphodiesterase activities in murine sarcoma virus (Moloney)-infected mice 61:1077
Cyclic nucleotide concentrations in 7,12-dimethylbenz[*a*]anthracene-induced pancreatic cancer in rats 61:1281
cyclophosphamide. V. Comparison of the effects of tilorone hydrochloride, levamisole, methanol-soluble fraction of 60:391
cyst fluids, ascitic fluids, and sera from ovarian adenocarcinoma patients /Quantitation of secretory component levels in 61:57
Cytochemical study on uptake of exogenous peroxidase by Vx2 carcinoma cells transplanted into the rabbit 61:1215
Cytodifferentiation in the acute myeloblastic leukemias of man 60:265
Cytogenetic diagnosis of cancer: Abnormalities of chromosomes and polyploid levels in the bone marrow of patients with small 61:1065
Cytogenetic studies of a simian virus 40 temperature-sensitive mutant-transformed Chinese hamster cell clone at the permissive 61:1171
cytolysis /Antibody-dependent lysis of tumor cells in vivo. II. Elimination of chromium-51 as a measurement of 61:1149

cytolytic T-lymphocytes (CTL's) in the murine sarcoma virus system. Virus-specific CTL induction across the H-2 barrier.....61:885
Cytoplasmic inclusions in spontaneous hepatomas of CBS/H-T6T6 mice. Histochemistry and electron microscopy.....60:861
Cytotoxic activity of methylene bis-nucleotides.....60:789
cytotoxic agents in the treatment of cancer: Current status and future prospects /Antibody-linked.....61:657
Cytotoxic antibody detected in patients' sera /Immune responses in human colon cancer. II.....60:779
Cytotoxic effect and metabolism of 7,12-dimethylbenz[*a*]anthracene and *N*-nitroso-*N*-methylurea /Primary culture of rat.....61:773
cytotoxic effector and precursor cells /Studies of the mechanisms for the induction of in vivo tumor immunity. II.....60:437
cytotoxicity assay /Mouse natural cell-mediated cytotoxicity to human leukemia: Independence of serum source used for.....60:1433
cytotoxicity assay with the use of indium-111: Advantage over chromium-51 in long-term assays /Isotope-release.....61:183
cytotoxicity by granulocytes from peripheral blood of tumor-bearing mice /Tumor cell.....60:687
cytotoxicity by the chromium-51 release assay /Cell-mediated responses in dogs with spontaneous neoplasms. I. Detection of....61:1085
cytotoxicity for L929 cells of polyriboinosinic-polyribocytidylic acid and amphotericin B methyl ester /Synergistic.....60:1309
cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation with BCG activity in syngeneic tumor systems /Effect of BCG.....60:1069
cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of different BCG treatments on cytotoxicity mediated by T-cells and.....60:1059
cytotoxicity in mice /Effect of chemotherapeutic agents on natural cell-mediated.....61:1255
cytotoxicity of 1-(2-chloroethyl)-3-cyclohexyl-1-nitrosourea in aqueous suspension /Effect of phospholipids on maintenance.....60:1055
cytotoxicity to AKR leukemia cells by thymidine in mice /In vivo enhancement of 5-fluorouracil.....61:843
cytotoxicity to cultured tumor cells: Reproducibility of serial measurements with the use of a chromium-51-release.....60:1283
cytotoxic lymphocytes against leukemia /In vitro induction of cell-mediated immunity to murine leukemia cells. III. Effect.....60:1097
cytotoxic response in vitro against Moloney lymphoma cells antigenically altered by drug treatment in vivo /Secondary.....60:109

daunomycin when linked to dextran: In vivo and in vitro studies /Higher antitumor efficacy of.....60:379
Dehydroretronecine-induced skin tumors in mice.....61:85
deoxynucleotide-polymerizing enzyme activities of human leukemia lymphoblasts and simian sarcoma virus by tilorone and.....60:533
dextran: In vivo and in vitro studies /Higher antitumor efficacy of daunomycin when linked to.....60:379
2,4-diamino-5-(1-adamantyl)-6-ethylpyrimidine /Comparison of the antitumor activity and toxicity of 2,4-diamino-.....60:1029
2,4-diamino-5-(1-adamantyl)-6-methylpyrimidine and 2,4-diamino-5-(1-adamantyl)-6-ethylpyrimidine /Comparison of the.....60:1029
dietary fat saturation on survival of mice with L1210 leukemia /Effect of.....61:513
dietary fats /Carcinogenesis induced by 7,12-dimethylbenz[*a*]anthracene in C3H-*A*^{vy}fB mice: Influence of different.....60:849
dietary protein on the response of rainbow trout (*Salmo gairdneri*) to aflatoxin B_1 /Effect of.....60:317
diet /Enhancement of DL-ethionine-induced liver carcinogenesis in rats fed a choline-devoid.....61:813
diethylaminoethyl-dextran and Friend murine leukemia virus /Regression of established tumors in rats by injection of.....61:403
diethyl maleate on aryl hydrocarbon hydroxylase and 3-methylcholanthrene-induced skin tumorigenesis in rats and mice.....60:321
diethylnitrosamine, and methylethylnitrosamine in the rat /Kinetic studies on the hepatic microsomal metabolism of.....61:517
diethylnitrosamine-induced carcinogenesis in BALB/c mice by concomitant administration of butylated hydroxytoluene.....61:177
Diethylstilbestrol binding to estrogen receptor in mammary tissue and uteri of C3H/HeJ mice.....61:719
Diet in the epidemiology of cancer of the colon and rectum.....61:709
diet on murine leukemia L1210 /Effect of low phenylalanine.....60:633
diglycolaldehyde on dividing and nondividing mammalian cells in vitro /Cell killing and kinetic effects of.....61:1307
3-di(hydroxymethyl)amino-6-(5-nitro-2-furylethenyl)-1,2,4-triazine /Production of adenocarcinomas of the small intestines of.....60:1339
3,2′-dimethyl-4-aminobiphenyl-induced carcinogenesis in F344 rats /Effect of intestinal microflora on.....61:1269
7,12-dimethylbenz[*a*]anthracene and *N*-nitroso-*N*-methylurea /Primary culture of rat mammary epithelial cells. II. Cytotoxic.....61:773
7,12-dimethylbenz[*a*]anthracene binding to rat mammary gland DNA /Age-related modification of.....60:173
7,12-dimethylbenz[*a*]anthracene /Developmental stage of the rat mammary gland as determinant of its susceptibility to.....61:1439
7,12-dimethylbenz[*a*]anthracene /Expression of RNA of an endogenous replication-defective retrovirus in rat mammary.....61:1329
7,12-dimethylbenz[*a*]anthracene in C3H-*A*^{vy}fB mice: Influence of different dietary fats /Carcinogenesis induced by.....60:849
7,12-dimethylbenz[*a*]anthracene-induced mammary tumors: Relation to stages of tumor development /Restraint-induced.....61:725
7,12-dimethylbenz[*a*]anthracene-induced pancreatic cancer in rats /Cyclic nucleotide concentrations in.....61:1281
7,12-dimethylbenz[*a*]anthracene-induced rat mammary carcinoma by infection with mouse xenotropic type C virus.....61:123
7,12-dimethylbenz[*a*]anthracene in mice /Effects of 7,8-benzoflavone on skin tumor-initiating activities of various 7- and.....61:135
7,12-dimethylbenz[*a*]anthracene /Multiple autotransplantation of rat mammary tumors induced by.....60:473
7,12-dimethylbenz[*a*]anthracene subcutaneous carcinogenesis in three strains of mice and one hybrid /Comparison of the.....61:1107
7,12-dimethylbenz[*a*]anthracene to BALB/c mouse mammary gland DNA in organ culture /Binding of.....61:465
1,2-dimethylhydrazine and methylazoxymethanol acetate in rabbit colon mucosa in organ culture /Inhibition of DNA.....61:799
1,2-dimethylhydrazine by the host-mediated assay and its correlation to carcinogenicity /Detection of mutagenicity of the.....61:457
1,2-dimethylhydrazine-induced adenocarcinomas in rat colon /Ultrastructure of.....61:1291
1,2-dimethylhydrazine-induced neoplasia of the large intestine in female CF_1 mice by carbon disulfide /Inhibition of.....60:1515
1,2-dimethylhydrazine-induced neoplasms of the colon in the mouse /Histogenesis of symmetrical.....60:1405
1,2-dimethylhydrazine-resistant Lobund Wistar rats by methylazoxymethanol acetate /Induction of colon tumors in.....61:493
dimethylnitrosamine, diethylnitrosamine, and methylethylnitrosamine in the rat /Kinetic studies on the hepatic microsomal.....61:517

dimethylnitrosamine-induced hepatocarcinogenesis /Differential effects of β-naphthoflavone and pregnenolone-16α- 61:441
dimethylnitrosamine in rainbow trout (*Salmo gairdneri*) /Carcinogenicity and acute toxicity of 60:1127
dimethylnitrosamine metabolism and activation in rats /Mechanism of 61:1285
diuretic use by women with malignant and benign breast lesions detected in a mammography screening program 61:327
DNA /Age-related modification of 7,12-dimethylbenz[*a*]anthracene binding to rat mammary gland 60:173
DNA conformation in briefly heated human squamous cells /Fluorescent probe study of 60:97
DNA: Evidence from studies of xeroderma pigmentosum /Guest Editorial: Significance of repair of human 61:645
DNA in an American Burkitt's lymphoma line /State of Epstein-Barr virus 60:991
DNA in organ culture /Binding of 7,12-dimethylbenz[*a*]anthracene to BALB/c mouse mammary gland 61:465
DNA labeling index and structure of the rat mammary gland as determinants of its susceptibility to carcinogenesis 61:1451
DNA polymerases from normal and leukemia cells of man and from simian sarcoma virus by rifamycin derivatives 61:1187
DNA repair synthesis in rat retinal ganglion cells treated with chemical carcinogens or ultraviolet light in vitro, with special 61:1101
DNA synthesis and alteration of cyclic adenosine 3',5'-monophosphate levels in RSa cells by human leukocyte interferon 60:1227
DNA synthesis and colony formation /Suppression of myeloma growth in vitro by anti-idiotypic antibodies: Inhibition of 60:225
DNA synthesis and thymidine kinase activity of rat colon epithelial cells fractionated by discontinuous Ficoll gradient 60:915
DNA synthesis by 1,2-dimethylhydrazine and methylazoxymethanol acetate in rabbit colon mucosa in organ culture 61:799
DNA synthesis in surface-attached cells during preneoplasia /Foreign-body tumorigenesis in mice: 61:359
DNA synthesis /Primary culture of rat mammary epithelial cells. I. Effect of plating density, hormones, and serum on 61:765
DNA values obtained by microspectrophotometry and tests for their shifts /Correction of the modal 60:1251
dogs administered investigational oral contraceptive steroids /Mammary nodules in beagle 60:1351
dogs /Cytologic correlates of chemical carcinogens in respiratory tracts of 61:1209
dogs /Frequency of osteosarcoma among first-degree relatives of St. Bernard 60:349
dogs given 2-naphthylamine /Histologic and histochemical preneoplastic changes in the bladder mucosae of 60:327
dogs with spontaneous neoplasms. II. Detection by direct leukocyte migration inhibition technique /Cell-mediated responses 61:1095
dogs with spontaneous neoplasms. I. Detection of cell-mediated cytotoxicity by the chromium-51 release assay /Cell-mediated 61:1085
dogs with spontaneous tumors /Allogeneic hematopoietic grafts after total-body irradiation in 61:353
dose-response data /Statistical aspects of extrapolation of dichotomous 60:101
drinking water /Associations of cancer mortality with halomethanes in 61:979
drug treatment in vivo /Secondary cytotoxic response in vitro against Moloney lymphoma cells antigenically altered by 60:109
Duwamish River Estuary, Seattle, Washington /Pathology of hepatomas and other liver abnormalities in English sole 60:1445
dysplasia and carcinoma in situ /Viability of the human cervical epithelium with 60:523
dysplasia /Retinoic acid-binding protein in human breast cancer and 61:1375

effector and precursor cells /Studies of the mechanisms for the induction of in vivo tumor immunity. II. Distribution and 60:437
embryo cells with the use of cell-free extracts of a human rhabdomyosarcoma cell line (HUS-2) /Transformation of human 60:979
embryonic antigens act as rejection antigens? /Effect of embryonic tissue immunization on chemically induced 61:189
embryonic tissue immunization on chemically induced gastrointestinal tumors in rats. I. Can embryonic antigens act as rejection 61:189
emetine, an inhibitor of protein synthesis /Biochemical parameters of resistance of an adriamycin-resistant subline of P388 ..... 60:1049
EMT6 fibrosarcoma monolayer cultures, multicell spheroids, and solid tumors in Ficoll density gradients /Comparison of 60:1017
endocrinologic aspects of cervical cancer /Relationship between epidemiologic and 61:35
endocrinologic conditions associated with acute versus chronic lactation on the incidence of mammary carcinomas in irradiated 60:469
endometrial carcinoma cells in vivo and in vitro /Effects of progesterone on human 60:947
endometrial carcinoma in King County, Washington: A standardized histologic review /Incidence of 60:985
endoplasmic reticulum in cells of acute promyelocytic leukemia /Unusual configurations of 61:341
enzymatic dissociation /Enhancement of the tumorigenicity of preneoplastic mammary nodule lines by 60:1121
enzyme activities of human leukemia lymphoblasts and simian sarcoma virus by tilorone and thirteen of its analogs 60:533
enzyme changes in parabiotic rats with subcutaneous lymphoma or fibrosarcoma /Tissue 60:825
enzymes /Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. II. Alterations in biosynthetic 60:1329
eosinophil granulocyte exudation in mice /Friend virus-induced inhibition of 60:803
Ependymomas, malignant tumors of pancreatic islets, and osteosarcomas induced in hamsters by BK virus, a human papovavirus 61:875
epidemics in the People's Republic of China /Guest Editorial: Cancer 60:1195
epidemiologic and endocrinologic aspects of cervical cancer /Relationship between 61:35
epidemiology of cancer of the colon and rectum /Diet in the 61:709
epidermoid metaplasia and carcinoma in situ in the hamster /The respiratory epithelium. IV. Histogenesis of 61:577
epidermoid metaplasia and carcinoma in situ in the human /The respiratory epithelium. III. Histogenesis of 61:563
epithelial cell antigens in mammary neoplasia /Immunologic methods for the identification of cell types. II. Expression of 61:747
epithelial cell cultures from normal human prostate gland /Replicative 60:797
epithelial cell lines from solid breast carcinomas /Isolation of two human tumor 61:967
epithelial cells. II. Cytotoxic effect and metabolism of 7,12-dimethylbenz[*a*]anthracene and *N*-nitroso-*N*-methylurea /Primary 61:773
epithelial cells derived from a human testicular tumor metastasis /Morphologic evidence for retrovirus production by 60:1305

epithelial cells. I. Effect of plating density, hormones, and serum on DNA synthesis /Primary culture of rat mammary 61:765
epithelial cells fractionated by discontinuous Ficoll gradient /DNA synthesis and thymidine kinase activity of rat colon 60:915
epithelial cells /Presence of a mouse mammary tumor virus-related antigen in human breast carcinoma cells and its absence 61:1205
Epstein-Barr virus-associated and other antiviral antibodies during intense BCG administration to patients with Burkitt's 60:31
Epstein-Barr virus DNA in an American Burkitt's lymphoma line /State of 60:991
Epstein-Barr virus-immune complexes in postmortem kidneys from African patients with Burkitt's lymphoma and American 60:941
Epstein-Barr virus infections in Brazil. II. Hodgkin's disease 61:19
erythroid characteristics in Ia-positive leukemia cell lines induced by Friend murine leukemia virus /Lack of 60:239
erythrophoromas in goldfish (*Carassius auratus*) /Morphologic and biochemical characterization of 61:1461
esophageal cancer in rats /Zinc deficiency and methylbenzylnitrosamine-induced 61:145
esophageal neoplasms and associated proliferative lesions induced in rats by *N*-methyl-*N*-benzylnitrosamine /Pathology of 61:1471
estrogen and neutron radiation /Rat differences in mammary tumor induction with 61:1505
estrogen-induced pituitary tumors in F344 rats /Biochemical and ultrastructural studies on 61:753
Estrogen profiles in young women: Effect of maternal history of breast cancer 60:965
Estrogen, progesterone, and androgen receptors in breast cancer in the Japanese 60:291
Estrogen receptor and alpha-fetoprotein in human breast cancer 60:289
estrogen receptor in mammary tissue and uteri of C3H/HeJ mice /Diethylstilbestrol binding to 61:719
estrous cycle status, and age /Mammary gland hyperplastic alveolar noduligenesis in the LEW/Mai rat in relation to mitotic ...61:1339
ethinyl estradiol on the mammary glands of rhesus monkeys: A preliminary report /Effect of ethynodiol diacetate with 60:1169
DL-ethionine-induced liver carcinogenesis in rats fed a choline-devoid diet /Enhancement of 61:813
N-ethyl-*N*-nitrosourea-induced brain carcinogenesis by sequential culturing during the latent period. I. Morphology and 61:381
N-ethyl-*N*-nitrosourea-induced brain carcinogenesis by sequential culturing during the latent period. II. Morphology of the.....61:391
N-ethyl-*N*-nitrosourea /Selective induction of melanomas in gerbils (*Meriones unguiculatus*) following postnatal 61:859
ethynodiol diacetate with ethinyl estradiol on the mammary glands of rhesus monkeys: A preliminary report /Effect of 60:1169
European hamsters /Carcinogenicity of subcutaneously injected *N*-nitrosoheptamethyleneimine in 61:239

F344 rats and Swiss albino mice /Tumorigenic effect of an organomanganese compound on 60:1171
F344 rats /Biochemical and ultrastructural studies on estrogen-induced pituitary tumors in 61:753
F344 rats /Effect of intestinal microflora on 3,2'-dimethyl-4-aminobiphenyl-induced carcinogenesis in.....61:1269
F344 rats to mammary tumor induction by topically applied fluorenylacetohydroxamic acids and their acetates /Lack of 60:433
Familial breast cancer: Risk to the contralateral breast 60:955
fat saturation on survival of mice with L1210 leukemia /Effect of dietary 61:513
fats /Carcinogenesis induced by 7,12-dimethylbenz[*a*]anthracene in C3H-A^{vy}IB mice: Influence of different dietary 60:849
fatty acids and their sensitivity to killing by a specific antibody plus guinea pig complement /Correlation between the ability...61:931
Fc receptor-bearing cells in two murine tumors. I. Isolation and identification /In situ 60:1387
Fc receptor-bearing cells in two murine tumors. II. Role in tumor immunity /In situ 60:1391
feline leukemia virus contact cats. Correlation of lysis and antibodies to feline oncornavirus-associated cell membrane antigen 60:161
Feline leukemia virus envelope glycoprotein vaccine: Preparation and evaluation of immunizing potency in guinea pig and cat.....61:1487
feline leukemia viruses of subgroups A, B, and C /Experimental horizontal transmission of 60:871
feline leukemia virus in tissues of cats with a paraffin embedding immunofluorescence procedure /Detection of 61:1315
feline lymphoma cells by complement-dependent antibodies in feline leukemia virus contact cats. Correlation of lysis and 60:161
feline oncornavirus-associated cell membrane antigen /Lysis of feline lymphoma cells by complement-dependent antibodies.....60:161
feral mice /Prevalence of murine mammary tumor virus antibody and antigens in normal and tumor-bearing 61:485
ferric oxide /Effect of anesthetic agent on lung tumor induction in hamsters given benzo[*a*]pyrene-.....61:1221
ferric oxide in the hamster /The respiratory epithelium. VI. Histogenesis of lung tumors induced by benzo[*a*]pyrene-.....61:607
fiber cell culture units /Continuous production of carcinoembryonic antigen in hollow 60:303
fibroblast cultures derived from workers exposed to mineral oil /Subpopulations of cytogenetically abnormal cells in 60:45
fibroblasts /Selective killing of oncogenic human cells cocultivated with normal human 61:69
fibrocystic disease complex and breast cancer /Relation between component parts of 61:1055
fibrosarcoma /Effects of combined radiotherapy and immunotherapy with the use of pyran copolymer on murine 60:1477
fibrosarcoma monolayer cultures, multicell spheroids, and solid tumors in Ficoll density gradients /Comparison of the.....60:1017
fibrosarcoma of cell lines with enhanced plating efficiency in vitro /Isolation from a murine.....60:179
fibrosarcoma on the basis of size. II. Differential effects of cell size and age on lung retention and colony formation in normal.....61:215
fibrosarcoma on the basis of size. I. Relationship between cell size and age as modified by growth in vivo or in vitro.....61:209
fibrosarcoma /Tissue enzyme changes in parabiotic rats with subcutaneous lymphoma or 60:825
fibrosarcoma /Tumor-associated transplantation antigen distinct from H-2^k-like antigens on a BALB/c (*H-2*^{d}) 61:1229
Ficoll /Cytologic appearance of cells dissociated from rat colon and their separation by isokinetic and isopyknic 61:1431
Ficoll density gradients /Comparison of the densities of clonogenic cells from EMT6 fibrosarcoma monolayer cultures, ...60:1017
Ficoll gradient /DNA synthesis and thymidine kinase activity of rat colon epithelial cells fractionated by discontinuous 60:915
N-2-fluorenylacetamide. II. Alterations in biosynthetic enzymes /Gangliosides of liver tumors induced by 60:1329

N-2-fluorenylacetamide. I. Ganglioside alterations in liver tumorigenesis and normal development /Gangliosides of liver 60:1313
N-2-fluorenylacetamide-induced, altered (hyperplastic) hepatocellular foci resistant to iron accumulation and of their reversion 61:113
fluorenylacetohydroxamic acids and their acetates /Lack of susceptibility of F344 rats to mammary tumor induction by 60:433
Fluorescent probe study of DNA conformation in briefly heated human squamous cells 60:97
5-fluorouracil cytotoxicity to AKR leukemia cells by thymidine in mice /In vivo enhancement of 61:843
Foreign-body tumorigenesis in mice: DNA synthesis in surface-attached cells during preneoplasia 61:359
fowl (*Gallus domesticus*) after 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitroso-*trans*-urea (NSC-95441) treatment of chicks 61:793
Friend-Moloney-Rauscher-type virus /Immunologic control of the ascites form of murine adenocarcinoma 755. II. Tumor 60:141
Friend murine leukemia virus /Genetic resistance in Japanese wild mice (*Mus musculus molossinus*) to an NB-tropic 61:1301
Friend murine leukemia virus /Lack of erythroid characteristics in Ia-positive leukemia cell lines induced by 60:239
Friend murine leukemia virus /Regression of established tumors in rats by injection of diethylaminoethyl-dextran and 61:403
Friend virus-induced inhibition of eosinophil granulocyte exudation in mice 60:803
Friend virus leukemia in mice. V. Relevance of *Fv-3* gene in the regulation of in vivo immunosuppression /Mechanism of 61:1117
Fucosyltransferase activity in metastasizing and nonmetastasizing rat mammary carcinomas 61:151
fusion of murine tumor cells with host cells by universal fusers /Proof of in vivo 60:931
Fv-3 gene in the regulation of in vivo immunosuppression /Mechanism of genetic resistance to Friend virus leukemia in 61:1117
Fv-1 locus in vivo: Host range pseudotype of murine sarcoma virus /Effect of the 60:875

gallbladder /Proliferative changes in the epithelium of the human lithiasic 60:283
(*Gallus domesticus*) after 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitroso-*trans*-urea (NSC-95441) treatment of chicks 61:793
Gamma-glutamyl transpeptidase: A positive marker for cultured rat liver cells derived from putative premalignant and 60:1009
ganglion cells treated with chemical carcinogens or ultraviolet light in vitro, with special reference to aging and repair level 61:1101
Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. II. Alterations in biosynthetic enzymes 60:1329
Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. I. Ganglioside alterations in liver tumorigenesis and normal 60:1313
gastric carcinoma in man: Observation by a method in which leucine aminopeptidase activity is used /Special features of 61:693
gastrointestinal tumors in rats. I. Can embryonic antigens act as rejection antigens? /Effect of embryonic tissue 61:189
gastrointestinal tumors in rats: Immunologic and histologic correlation /Effect of unblocking therapy and levamisole on 61:1235
Genetic analyses of differences in incidence of mammary tumors and reticulum cell neoplasms with the use of recombinant 61:1125
Genetic control of immune responses to Moloney leukemia virus in rats 60:1467
Genetic resistance in Japanese wild mice (*Mus musculus molossinus*) to an NB-tropic Friend murine leukemia virus 61:1301
genetic resistance to Friend virus leukemia in mice. V. Relevance of *Fv-3* gene in the regulation of in vivo immunosuppression 61:1117
Geographic patterns of bladder cancer in the United States 61:1017
Geographic patterns of prostate cancer in the United States 61:1379
Georgia: A death certificate analysis of occupation /Lung cancer in coastal 60:295
gerbils (*Meriones unguiculatus*) following postnatal administration of *N*-ethyl-*N*-nitrosourea /Selective induction of 61:859
germfree athymic nude and normal inbred C3Hf/He mice /Survival and cause of death in aging 61:1357
gibbon apes /Oncornavirus lytic activity in the serum of 60:677
gibbon leukemia virus /Natural transmission of 61:1113
glial hamster cells by Rous sarcoma virus /Transformation in vitro of 60:113
Glucan: Attempts to demonstrate therapeutic activity against five syngeneic tumors in guinea pigs and mice 60:419
glucan in the treatment of human neoplasia /Letter to the Editor: Effectiveness of 61:1179
glucocorticoid binding between corticoid-sensitive and corticoid-resistant lymphocytes of mouse lymphoma P1798 and 61:1477
glucocorticoids and hyperosmolality on isoenzyme expression in cultured KB cells /Multiple effects of 60:573
glucose by rat mammary carcinomas /Relationship between temperature and blood supply or consumption of oxygen and 60:835
glycoprotein antigen from cell cultures persistently infected with bovine leukemia virus /Isolation of a precipitating 60:213
glycoprotein molecules and allotransplantability in the TA3 tumor of the mouse: Studies on segregating TA3-Ha hybrids 60:811
glycoprotein of BALB/c mouse plasmacytoma 58-8 cells /Cell-surface major 61:203
glycoprotein vaccine: Preparation and evaluation of immunizing potency in guinea pig and cat /Feline leukemia virus 61:1487
glycosaminoglycans, proteins, and nucleic acids in human breast tissue with a cationic carbocyanine dye /Simultaneous 61:951
glycosylation of serum proteins in patients with cancer /Distinct 60:83
G mice to murine leukemia virus infection: Apparent disparity in in vivo and in vitro resistances /Resistance of 61:461
goat antiserum to MuMTV /Suppressed murine mammary tumor virus (MuMTV) expression in RIII female mice treated 61:437
goldfish (*Carassius auratus*) /Morphologic and biochemical characterization of erythrophoromas in 61:1461
gonadotropin-alpha subunit secretion in a human lung cancer cell line (ChaGo): Discordance of cytotoxic and secretory effects 61:349
gp52 antigen and Rauscher murine leukemia virus–Kirsten sarcoma virus gp69/71 antigen /Leukocyte migration inhibition 60:1259
gp69/71 antigen /Leukocyte migration inhibition and lymphocyte blastogenesis responses in breast carcinoma patients to 60:1259
grafts after total-body irradiation in dogs with spontaneous tumors /Allogeneic hematopoietic 61:353
GR/A mice. IV. Origin and progression /Hormone-dependent mammary tumors in strain 60:1345
granulocyte exudation in mice /Friend virus-induced inhibition of eosinophil 60:803
granulocytes from peripheral blood of tumor-bearing mice /Tumor cell cytotoxicity by 60:687

granulocytic stem cells by inhibitory activity derived from human leukemia cells /In vitro suppression of normal.....60:497
Gross murine leukemia virus /Relationship between organotropism and leukemogenicity of type C RNA viruses as.....60:855
growth inhibition /Nonimmune and immune surveillance. II. Effect of recipient's age, tumor immunogenicity, and 61:737
Growth inhibition of normal or drug-treated lymphoma cells in lethally irradiated mice 60:1083
Guest Editorial: Adjuvant chemotherapy of osteogenic sarcoma: Progress and perspectives 60:3

guinea pig and cat /Feline leukemia virus envelope glycoprotein vaccine: Preparation and evaluation of immunizing 61:1487
guinea pig complement /Correlation between the ability of tumor cells to incorporate specific fatty acids and their sensitivity ...61:931
guinea pig hepatomas /Preparation of plasma membranes from line 10 and line 1 .....61:935
guinea pig line-10 hepatocarcinoma mediated by nonviable *Staphylococcus aureus* /Suppression and immunotherapy of the 61:535
guinea pigs and mice /Glucan: Attempts to demonstrate therapeutic activity against five syngeneic tumors in 60:419
guinea pigs by intralesional or paralesional injection of *Mycobacterium bovis* (BCG) /Immunotherapy of bilateral lymph 60:1163
guinea pigs immunized with potassium chloride extracts of L_2C tumor cells /Antitumor immunity in strain 2 .....60:899
guinea pigs sensitized to line 10 hepatocarcinoma and BCG /Leukocyte migration inhibition of tumor antigen and purified 60:693
Gyromitra esculenta /Tumors induced in mice by *N*-methyl-*N*-formylhydrazine of the false morel 60:201

Ha:ICR Swiss stock: Effects of sex, cedar shavings in bedding, and immunization with fetal liver or hepatoma cells 61:1531
halomethanes in drinking water /Associations of cancer mortality with 61:979
hamster cell clone at the permissive and nonpermissive temperature /Cytogenetic studies of a simian virus 40 .....61:1171
hamster cells by Rous sarcoma virus /Transformation in vitro of glial.....60:113
hamster cells /Sister chromatid exchanges and growth inhibition induced by the flame retardant Tris(2,3-dibromopropyl).....60:1179
hamster cells to treatment with 4′-[(9-acridinyl)-amino]methanesulphon-*m*-anisidide-HCl /Kinetic response of cultured.....60:1147
hamster cells with 4′-[(9-acridinyl)-amino]methanesulphon-*m*-anisidide-HCl /Cell-cycle-specific chromosome damage.....60:1155
hamster /Effect of lucanthone hydrochloride on the radiation response of intestine and bone marrow of the Chinese.....60:1023
hamster embryos, fetuses, and tumors /Viruslike particles in 61:891
hamsters by BK virus, a human papovavirus /Ependymomas, malignant tumors of pancreatic islets, and osteosarcomas 61:875
hamsters /Carcinogenic effect of *N*-nitroso-2,6-dimethylmorpholine in Syrian golden 60:371
hamsters /Carcinogenic effect of subcutaneously administered *N*-nitroso-2,6-dimethylmorpholine in Syrian golden 60:197
hamsters /Carcinogenicity of subcutaneously injected *N*-nitrosoheptamethyleneimine in European.....61:239
hamsters /Development of teratomas from embryos transplanted into outbred and inbred adult 61:911
hamsters given benzo[*a*]pyrene-ferric oxide /Effect of anesthetic agent on lung tumor induction in.....61:1221
hamsters of three inbred strains and one outbred stock /Incidence, latency, and morphologic types of neoplasms induced by.....60:445
hamster /Spontaneous alterations in the pancreas of the aging Syrian golden 60:355
hamsters treated with lynestrenol and effect of *Staphylococcus aureus* Cowan A /Delay of tumor growth in 61:173
hamsters /Virus-specific markers and virus-like particles in cell lines of tumors produced by CELO virus in Syrian golden 61:163
hamster /The respiratory epithelium. IV. Histogenesis of epidermoid metaplasia and carcinoma in situ in the.....61:577
hamster /The respiratory epithelium. VI. Histogenesis of lung tumors induced by benzo[*a*]pyrene-ferric oxide in the.....61:607
Hamster trachea, bronchus, and bronchioles /The respiratory epithelium. II. 61:551
H-2 barrier /Secondary in vitro generation of cytolytic T-lymphocytes (CTL's) in the murine sarcoma virus system.....61:885
HeLa marker chromosomes /Letters to the Editor: Lung organ-specific antigens on cells with.....60:1205
hemocytic condition in *Mytilus edulis* (Bivalvia, Mollusca) /Cytology and quantitative cytochemistry of a proliferative 60:1455
heparin in normal subjects and in patients with small cell carcinoma of the lung /Response of plasma histaminase activity.....60:1234
hepatic microsomal metabolism of dimethylnitrosamine, diethylnitrosamine, and methylethylnitrosamine in the rat /Kinetic 61:517
Hepatitis B and Liver Cancer /International Workshop on.....60:717
hepatocarcinogenesis /Differential effects of β-naphthoflavone and pregnenolone-16α-carbonitrile on dimethylnitro-.....61:441
hepatocarcinoma and BCG /Leukocyte migration inhibition of tumor antigen and purified protein derivative reactivity in 60:693
hepatocarcinoma mediated by nonviable *Staphylococcus aureus* /Suppression and immunotherapy of the guinea pig line-10 .....61:535
hepatocellular-altered foci by the liver tumor promoter phenobarbital: Evidence that foci are precursors of neoplasms and that.....61:1311
hepatocellular carcinoma in the embryos of rainbow trout (*Salmo gairdneri*) /Aflatoxin B_1 induction of.....60:1133
hepatocellular carcinoma /In vitro alpha-fetoprotein synthesis by monkey 60:643
hepatocellular carcinomas, and pancreatic islet changes in C3H-A^{vy} mice /Mammary tumors,.....60:611

hepatocellular foci resistant to iron accumulation and of their reversion or persistence following removal of carcinogen 61:113
hepatocellular neoplasms in mice /Evaluation of 61:807
hepatocytes to the livers of syngeneic host rats /Transfer of viable putative preneoplastic 61:507
hepatoma cells /Induction of intracisternal type A particles by 5-bromo-2′-deoxyuridine in rat 60:919
hepatomas and other liver abnormalities in English sole (*Parophrys vetulus*) from the Duwamish River Estuary, Seattle, ...60:1445
hepatomas induced in rats by aromatic amines /Chromosome banding patterns and breakpoints of three transplantable 61:495
hepatomas in mice inbred from Ha:ICR Swiss stock: Effects of sex, cedar shavings in bedding, and immunization with fetal 61:1531
hepatomas of CBS/H-T6T6 mice. Histochemistry and electron microscopy /Cytoplasmic inclusions in spontaneous 60:861
hepatomas /Preparation of plasma membranes from line 10 and line 1 guinea pig 61:935
hepatoma /Superoxide dismutase activity of normal murine liver, regenerating liver, and H6 .....61:375
herbs in rats /Carcinogenicity of some folk medicinal 60:683
herpesvirus of turkeys /A phosphonoacetate-resistant mutant of 60:1141
herpesvirus of turkeys /Demonstration of Marek's disease tumor-associated surface antigen in chickens infected with 61:855
heteroploid cell line /Evolution in vitro of stemlines with minimal karotypic deviations in a human 61:277
heterotransplanted human tumor graft survival in nude mice treated with antilymphocyte serum and in congenitally athymic- 61:245
hexokinase from normal and malignant human tissues /Physicochemical properties and isoenzyme composition of 61:27
H6 hepatoma /Superoxide dismutase activity of normal murine liver, regenerating liver, and 61:375
histaminase activity to heparin in normal subjects and in patients with small cell carcinoma of the lung /Response of 60:1234
H-2^k-like antigens on a BALB/c (*H-*2^d) fibrosarcoma /Tumor-associated transplantation antigen distinct from 61:1229
Hodgkin's disease /Epstein-Barr virus infections in Brazil. II. 61:19
Hodgkin's disease in Israel /A case-control study of 61:307
hormone-dependent mammary tumor in Sprague-Dawley female rats /Cyclic adenosine 3′,5′-monophosphate-binding 60:1175
Hormone-dependent mammary tumors in strain GR/A mice. IV. Origin and progression 60:1345
hormone receptor complexes with carbobenzoxy-L-phenylalanine /Differences in nuclear glucocorticoid binding between 61:1477
hormones, and serum on DNA synthesis /Primary culture of rat mammary epithelial cells. I. Effect of plating density, ...61:765
human adenocarcinoma to ascites form with invasion and metastasis in nude mice /Conversion of a poorly differentiated 60:925
human amnion cells of established lines /Simian virus 40 (SV40) production from SV40-transformed 60:895
human and rodent liver /Quinoline: Conversion to a mutagen by 60:405
human benign prostate hyperplasia /Particle-lamella complexes in a case of 60:299
human breast cancer and dysplasia /Retinoic acid-binding protein in 61:1375
human breast cancer? /Can animal and in vitro studies give new, relevant answers to questions concerning mammographic 61:1537
human breast cancer /Estrogen receptor and alpha-fetoprotein in 60:289
human breast cancers and melanomas /Use of the leukocyte migration inhibition assay to evaluate antigenic differences in 60:969
human breast carcinoma cell line (BT 20). I. Synthesis of serum proteins, membrane-associated antigens, and 61:677
human breast carcinoma cells and its absence from normal mammary epithelial cells /Presence of a mouse mammary tumor 61:1205
human breast tissue with a cationic carbocyanine dye /Simultaneous differential staining of phosphoproteins, ...61:951
human breast tumor cells /Cell-surface antigens from 60:39
human breast tumors /Nuclear magnetic resonance and detection of 61:53
Human bronchus /The respiratory epithelium. I. 61:539
human carcinoembryonic antigen-producing colon carcinoma cell line /Further biologic characteristics of a 61:75
human cervical epithelium with dysplasia and carcinoma in situ /Viability of the 60:523
human colon cancer. II. Cytotoxic antibody detected in patients' sera /Immune responses in 60:779
human DNA: Evidence from studies of xeroderma pigmentosum /Guest Editorial: Significance of repair of 61:645
human embryo cells with the use of cell-free extracts of a human rhabdomyosarcoma cell line (HUS-2) /Transformation of 60:979
human endometrial carcinoma cells in vivo and in vitro /Effects of progesterone on 60:947
human fibroblasts /Selective killing of oncogenic human cells cocultivated with normal 61:69
human heteroploid cell line /Evolution in vitro of stemlines with minimal karotypic deviations in a 61:277
human immune competence. II. Mixed lymphocyte cultures and mononuclear cell subpopulations /Advantages of 61:1011
human leukemia cells /In vitro suppression of normal granulocytic stem cells by inhibitory activity derived from 60:497
human leukemia colony-forming cells in vitro /Evidence for a proliferative advantage of 60:513
human leukemia: Independence of serum source used for target-cell culturing and cytotoxicity assay /Mouse natural 60:1433
human leukemia lymphoblasts and simian sarcoma virus by tilorone and thirteen of its analogs /Inhibition of 60:533
human leukemia-lymphoma cell lines /Expression of an antigen associated with acute lymphoblastic leukemia in 60:1269
human leukemia T-cell, B-cell, and null cell lines /Differences in purine metabolizing enzyme activities in 60:1301
human leukemia T-cell, null cell, and B-cell lines in mixed lymphocyte culture /Comparison of the stimulating capacity of 60:793
human leukocyte interferon /Inhibition of DNA synthesis and alteration of cyclic adenosine 3′,5′-monophosphate levels in 60:1227
human lithiasic gallbladder /Proliferative changes in the epithelium of the 60:283
human liver tissue /Characterization of sialyltransferase in noncancerous and neoplastic 61:1371
human lung cancer cell line (ChaGo): Discordance of cytotoxic and secretory effects /Influence of chemotherapeutic agents 61:349
human lung tumor-associated antigen /Purification and characterization of a 61:1035
human lymphoblastoid T-cell and B-cell lines: Light and electron microscopy /Morphologic and cytochemical comparison 60:59

human lymphoid cells to rubidazone /Kinetic response of cultured 60:279
human melanoma-associated antigens /Purification and immunologic evaluation of 60:773
human melanoma tumor-associated antigens /Solubilization and partial isolation of 61:61
human mononuclear cell cytotoxicity to cultured tumor cells: Reproducibility of serial measurements with the use of a 60:1283
human neoplasia /Letter to the Editor: Effectiveness of glucan in the treatment of 61:1179
human pancreatic cancer /Identification of a macromolecule containing an anticarcinoembryonic antigen-reactive substance 61:1199
human papovavirus /Ependymomas, malignant tumors of pancreatic islets, and osteosarcomas induced in hamsters by BK 61:875
human parapharyngeal cells cultured in semisolid agar /Colony formation by simian virus 40-transformed 61:993
human prostate gland /Replicative epithelial cell cultures from normal 60:797
human saliva /Nitrosamine formation in 60:251
humans /Guest Editorial: Status report on saccharin in 61:275
human squamous cells /Fluorescent probe study of DNA conformation in briefly heated 60:97
human testicular tumor metastasis /Morphologic evidence for retrovirus production by epithelial cells derived from a 60:1305
human /The respiratory epithelium. III. Histogenesis of epidermoid metaplasia and carcinoma in situ in the 61:563
human /The respiratory epithelium. V. Histogenesis of lung carcinomas in the 61:587
Human thymus-leukemia-associated antigen: Isolation and partial characterization 60:69
human tissues /Physicochemical properties and isoenzyme composition of hexokinase from normal and malignant 61:27
human T-lymphocyte antigens by natural killer cells /Expression of 60:961
human T-lymphocytes and B-lymphocytes in culture /Differential chemotherapeutic susceptibility of 60:749
human tumor cells /Specificity of delayed cutaneous hypersensitivity reactions to extracts of 60:255
human tumor epithelial cell lines from solid breast carcinomas /Isolation of two 61:967
human tumor graft survival in nude mice treated with antilymphocyte serum and in congenitally athymic-asplenic (lasat) mice 61:245
human urogenital tract tumors for papovavirus etiology /Investigation of 60:579
(HUS-2) /Transformation of human embryo cells with the use of cell-free extracts of a human rhabdomyosarcoma cell line 60:979
hyaluronic acid, sulfated glycosaminoglycans, proteins, and nucleic acids in human breast tissue with a cationic carbocyanine 61:951
hydatidiform mole /Androgenesis as a cause of 60:51
1-hydrazinophthalazine hydrochloride in mice /Tumorigenic effect of 61:1363
hydroxyanisole by oral intubation on benzo[*a*]pyrene-induced pulmonary adenoma formation and metabolism of benzo[*a*]pyrene 60:605
6-hydroxymethylation in benzo[*a*]pyrene skin tumor initiation in mice /Lack of involvement of 61:451
hydroxytoluene /Selective sex-related modification of diethylnitrosamine-induced carcinogenesis in BALB/c mice by 61:177
3-hydroxyxanthine /Increased incidence of mammary tumors in rats after direct or transplacental exposure to 61:1411
3-Hydroxyxanthine: Transplacental effects and ontogeny of related sulfate metabolism in rats and mice 61:1405
hyperacidification and multistep cancer therapy /Letter to the Editor: Supplementary information on pH, hyperthermia, ...61:3
hyperplasia by the bladder carcinogens butyl(4-hydroxybutyl)nitrosamine and butyl(3-carboxypropyl)nitrosamine in 60:219
hyperplasia /Particle-lamella complexes in a case of human benign prostate 60:299
hyperplastic alveolar nodule outgrowth lines /Effect of chemical carcinogen treatment on the immunogenicity of mouse 61:1165
hyperplastic alveolar noduligenesis in the LEW/Mai rat in relation to mitotic activity, estrous cycle status, and age 61:1339
Hyperplastic foci in precancerous rat liver: Light microscopic and electron microscopic study 61:407
hyperthermia, and cell survival: Tumor hyperacidification and multistep cancer therapy /Letter to the Editor: 61:3
hyperthermia on vascular functions of normal tissues and experimental tumors /Effect of 60:711

Ia-positive leukemia cell lines induced by Friend murine leukemia virus /Lack of erythroid characteristics in 60:239
IgG_1 fraction of alloantibody preparations /Enhancement of growth of allogeneic mouse tumor by the 60:167
ileocecal immunocytoma. An ultrastructural study with special attention to the presence of viral particles /Rat 61:477
ileocecal immunocytomas in hybrids of LOU/C rats and rat strains with low spontaneous tumor incidence /Incidence of 60:1505
immune capability, and *Corynebacterium parvum* /Modification of radiation response of murine tumors by misonidazole 60:887
immune competence. II. Mixed lymphocyte cultures and mononuclear cell subpopulations /Advantages of cryopreserved 61:1011
Immune function in healthy relatives of patients with malignant disease 60:27
immune reactions of mice. I. Comparison of two nitrosoureas: 1,3-Bis(2-chloroethyl)-1-nitrosourea and 1-(2-chloroethyl)- 60:1483
Immune reactivity of RBL-3, a nonproducer leukemia induced by Rauscher murine leukemia virus in C57BL/6 mice 61:107
immune response against tumor-associated antigens of a syngeneic simian virus 40-induced sarcoma in mice /Specific 61:1351
immune responses to Moloney leukemia virus in rats /Genetic control of 60:1467
immune responses to tumor-specific antigens on rat liver cells transformed in vitro by chemical carcinogens 61:1525
immune response /Therapy of the murine plasmacytoma MOPC 104E: Role of the 61:897
immune response to simian oncornavirus antigens in pregnant women /Cell-mediated 60:527
immune RNA /Antitumor antibody synthesis in vitro induced in mouse spleen cells by xenogeneic 60:599
immune RNA /Lymphocyte populations participating in cellular antitumor immune responses mediated by 60:335
immune serum or lymphoid cells /Immunologic control of the ascites form of murine adenocarcinoma 755. I. Protection 60:131
immune surveillance. II. Effect of recipient's age, tumor immunogenicity, and neonatal thymectomy on tumor growth inhibition 61:737
Immunity against MOPC 104E plasmacytoma: Effects of tumor size and time post therapy on in vivo tumor immunity 60:1107

immunity. II. Distribution and homing of cytotoxic effector and precursor cells /Studies of the mechanisms for the induction ...60:437
immunity: Immunologic status of rats treated with methylnitrosourea /Chemical carcinogenesis and 61:731
immunity /In situ Fc receptor-bearing cells in two murine tumors. II. Role in tumor 60:1391
immunity to Marek's disease tumor cells in chickens inoculated with Marek's disease vaccines /Development of cell-mediated....61:1273
immunity to murine leukemia cells. III. Effect of methanol extraction residue fraction of BCG on the generation of cytotoxic 60:1097
immunization on chemically induced gastrointestinal tumors in rats. I. Can embryonic antigens act as rejection antigens? 61:189
immunization on tumor induction by Moloney murine sarcoma virus /Stimulatory effect of 61:1323
immunization with chemically modified allogeneic lymphoma cells in mice /Resistance to syngeneic lymphoma cells as a 60:1427
immunization with fetal liver or hepatoma cells /Spontaneous hepatomas in mice inbred from Ha:ICR Swiss stock: Effects 61:1531
immunocytoma. An ultrastructural study with special attention to the presence of viral particles /Rat ileocecal 61:477
immunocytomas in hybrids of LOU/C rats and rat strains with low spontaneous tumor incidence /Incidence of spontaneous....60:1505
Immunofluorescence microscopy /Tissue localization of zinc glycinate marker and carcinoembryonic antigen by 60:1375
immunofluorescence. I. Preparation of antisera against the zinc glycinate marker /Tissue localization of zinc glycinate 60:1371
immunofluorescence procedure /Detection of feline leukemia virus in tissues of cats with a paraffin embedding 61:1315
immunogenicity, and neonatal thymectomy on tumor growth inhibition /Nonimmune and immune surveillance. II. Effect 61:737
immunogenicity of mouse mammary tumors arising from hyperplastic alveolar nodule outgrowth lines /Effect of chemical.....61:1165
Immunoglobulin class determined by interaction with protein A or concanavalin A /Complement-dependent cytotoxic 60:411
immunoglobulin M in human pancreatic cancer /Identification of a macromolecule containing an anticarcinoembryonic 61:1199
Immunologic methods for the identification of cell types. II. Expression of normal mouse mammary epithelial cell antigens in.....61:747
immunologic profile. II. Bone marrow studies /Multiple myeloma: An 61:943
Immunologic relationship between breast carcinoma and benign breast disease as detected by the leukocyte migration inhibition 61:1181
Immunologic status of rats treated with methylnitrosourea /Chemical carcinogenesis and immunity: 61:731
Immunologic studies on a pancreatic oncofetal protein 60:1439
Immunologic surveillance against chemically induced primary colon carcinoma in rats.....60:667
immunoregulatory cells in a patient with mycosis fungoides and circulating Sézary cells /Lack of functional 60:1295
immunosuppression /Mechanism of genetic resistance to Friend virus leukemia in mice. V. Relevance of *Fv-3* gene in the 61:1117
immunosuppressive soluble factor from mastocytoma-bearing mice /Serologic and immunochemical characterization of an.....61:249
Immunotherapy of bilateral lymph node metastases in guinea pigs by intralesional or paralesional injection of *Mycobacterium* 60:1163
immunotherapy of the guinea pig line-10 hepatocarcinoma mediated by nonviable *Staphylococcus aureus* /Suppression 61:535
immunotherapy with neuraminidase-treated tumor cell vaccine in mice bearing established 3-methylcholanthrene-induced.....60:451
immunotherapy with the use of pyran copolymer on murine fibrosarcoma /Effects of combined radiotherapy and 60:1477
incidence and mortality trends in the United States: 1935–74 /Cancer 60:545
incidence in a religious isolate of Alberta, Canada, 1953–74 /Cancer 60:1233
indium-111: Advantage over chromium-51 in long-term assays /Isotope-release cytotoxicity assay with the use of 61:183
Inhibition of deoxynucleotide-polymerizing enzyme activities of human leukemia lymphoblasts and simian sarcoma virus by.....60:533
inhibition of 7,12-dimethylbenz[*a*]anthracene-induced mammary tumors: Relation to stages of tumor development 61:725
Inhibition of 1,2-dimethylhydrazine-induced neoplasia of the large intestine in female CF_1 mice by carbon disulfide.....60:1515
inhibition of DNA polymerases from normal and leukemia cells of man and from simian sarcoma virus by rifamycin derivatives ...61:1187
Inhibition of DNA synthesis and alteration of cyclic adenosine 3′,5′-monophosphate levels in RSa cells by human leukocyte 60:1227
Inhibition of DNA synthesis by 1,2-dimethylhydrazine and methylazoxymethanol acetate in rabbit colon mucosa in organ 61:799
Inhibition of murine osteogenic sarcomas by treatment with type I or type II interferon 61:871
inhibition of tumor antigen and purified protein derivative reactivity in guinea pigs sensitized to line 10 hepatocarcinoma and 60:693
inhibition of tumor growth by *Corynebacterium parvum* with cyclophosphamide. V. Comparison of the effects of tilorone 60:391
inhibitory activity derived from human leukemia cells /In vitro suppression of normal granulocytic stem cells by.....60:497
inhibitory effects of retinoids on the in vitro growth of two malignant murine melanomas /Characterization of the.....60:1035
interferon against murine osteogenic sarcoma cells in vitro /Antitumor activity of 60:659
interferon /Antiproliferative activity of highly purified mouse 60:243
interferon /Inhibition of DNA synthesis and alteration of cyclic adenosine 3′,5′-monophosphate levels in RSa cells by human ...60:1227
interferon /Inhibition of murine osteogenic sarcomas by treatment with type I or type II 61:871
Interferons and Cancer /Guest Editorial:.....60:1191
International Symposium on Etiology and Control of Nasopharyngeal Carcinoma: Summary and recommendations 61:1535
intestinal carcinogenesis by methylazoxymethanol acetate in rats /Effect of colostomy on 61:1161
intestinal metaplasia and its relation to early gastric carcinoma in man: Observation by a method in which leucine 61:693
intestinal metaplasia in the stomachs of rats by *N*-methyl-*N*′-nitro-*N*-nitrosoguanidine /Induction of 61:141
intestinal microflora on 3,2′-dimethyl-4-aminobiphenyl-induced carcinogenesis in F344 rats /Effect of.... .....61:1269
intestine and bone marrow of the Chinese hamster /Effect of lucanthone hydrochloride on the radiation response of.....60:1023
intestine in female CF_1 mice by carbon disulfide /Inhibition of 1,2-dimethylhydrazine-induced neoplasia of the large.....60:1515
intestines of Wistar rats fed Panfuran-S containing 3-di(hydroxymethyl)amino-6-(5-nitro-2-furylethenyl)-1,2,4-triazine 60:1339
intrarectal administration of *N*-methyl-*N*-nitrosourea and histopathologic evaluation of the effect of two retinoids on colon.....60:1489
iron accumulation and of their reversion or persistence following removal of carcinogen /Quantitative kinetics of 61:113
irradiated bone marrow /Dose-incidence variations of reticulum cell sarcoma in mice with.....61:1131

irradiated mice /Decline of natural killer cell activity in sublethally 61:265
irradiated mice /Growth inhibition of normal or drug-treated lymphoma cells in lethally 60:1083
irradiated rats /Effects of endocrinologic conditions associated with acute versus chronic lactation on the incidence of..... 60:469
irradiation in dogs with spontaneous tumors /Allogeneic hematopoietic grafts after total-body 61:353
isoenzyme composition of hexokinase from normal and malignant human tissues /Physicochemical properties and..... 61:27
isoenzyme expression in cultured KB cells /Multiple effects of glucocorticoids and hyperosmolality on 60:573
isokinetic and isopyknic sedimentation in gradients of Ficoll /Cytologic appearance of cells dissociated from rat colon and..... 61:1431
isopyknic sedimentation in gradients of Ficoll /Cytologic appearance of cells dissociated from rat colon and their separation 61:1431
Isotope-release cytotoxicity assay with the use of indium-111: Advantage over chromium-51 in long-term assays 61:183
Israel /A case-control study of Hodgkin's disease in 61:307

lymphocyte stimulation /Suppressor cells in mice with murine mammary tumor virus-induced mammary tumors. I. 60:205
lymphocyte test /Antigens associated with acute leukemia detected in the primed 60:537
lymphocytic leukemia—a possible immunologic mechanism /Subsequent cancer in patients with chronic 61:337
lymphocytic leukemia-associated cell membrane antigen /Acute.....61:423
Lymphocytotoxic autoantibodies eluted from in vivo propagating sarcoma cells of mice.....60:1509
lymphoid cells /Immunologic control of the ascites form of murine adenocarcinoma 755. I. Protection with syngeneic 60:131
lymphoid cells to rubidazone /Kinetic response of cultured human 60:279
lymphoma and American patients with and without lymphoma /Epstein-Barr virus-immune complexes in postmortem.....60:941
lymphoma cell lines /Expression of an antigen associated with acute lymphoblastic leukemia in human leukemia- 60:1269
lymphoma cells antigenically altered by drug treatment in vivo /Secondary cytotoxic response in vitro against Moloney 60:109
lymphoma cells as a result of immunization with chemically modified allogeneic lymphoma cells in mice /Resistance to 60:1427
lymphoma cells by complement-dependent antibodies in feline leukemia virus contact cats. Correlation of lysis and antibodies.....60:161

lymphoma cells in lethally irradiated mice /Growth inhibition of normal or drug-treated 60:1083
lymphoma in normal versus immunologically deficient chickens /Rejection of a transplantable Marek's disease 60:623
lymphoma in remission /Epstein-Barr virus-associated and other antiviral antibodies during intense BCG administration to 60:31
lymphoma /Modulation of sensitivity to natural killer cell lysis after in vitro explantation of a mouse 61:1495
lymphoma or fibrosarcoma /Tissue enzyme changes in parabiotic rats with subcutaneous 60:825
lymphoma P1798 and stabilization of nuclear hormone receptor complexes with carbobenzoxy-L-phenylalanine /Differences 61:1477
lymphomas, melanomas, and leukemias /Characteristics in youth predictive of adult-onset malignant 60:89
lymphoma /Surface charge characteristics of peripheral blood lymphocytes in chronic lymphatic leukemia and malignant 60:741
lymphoproliferative responses of lung cancer and breast cancer patients /Role of suppressor cells in depression of in vitro 61:1001
lymphosarcoma /Selection and biologic properties of malignant variants of a murine 61:1499
lynestrenol and effect of *Staphylococcus aureus* Cowan A /Delay of tumor growth in hamsters treated with 61:173
lysis after in vitro explantation of a mouse lymphoma /Modulation of sensitivity to natural killer cell 61:1495
Lysis of feline lymphoma cells by complement-dependent antibodies in feline leukemia virus contact cats. Correlation of lysis 60:161
lysis of tumor cells in vivo. I. Early lysis of tumor cells /Antibody-dependent 61:1143
lysis of tumor cells in vivo. II. Elimination of chromium-51 as a measurement of cytolysis /Antibody-dependent 61:1149

macromolecule containing an anticarcinoembryonic antigen-reactive substance and immunoglobulin M in human pancreatic 61:1199
macrophage inflammation /Tumor cell threshold required for suppression of 60:1091
macrophages /Effect of BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of 60:1059
malignant disease /Immune function in healthy relatives of patients with 60:27
malignant lymphoma /Surface charge characteristics of peripheral blood lymphocytes in chronic lymphatic leukemia and 60:741
malignant skin cells by antibody to normal skin cells of mice /Stimulation of 60:1419
mammalian cells in vitro /Cell killing and kinetic effects of diglycolaldehyde on dividing and nondividing 61:1307
mammary adenocarcinomas induced by 7,12-dimethylbenz[*a*]anthracene /Expression of RNA of an endogenous 61:1329
mammary carcinoma by infection with mouse xenotropic type C virus /Protection against 7,12-dimethylbenz[*a*]anthra- 61:123
mammary carcinomas /Fucosyltransferase activity in metastasizing and nonmetastasizing rat 61:151
mammary carcinomas in irradiated rats /Effects of endocrinologic conditions associated with acute versus chronic lactation 60:469
mammary carcinomas /Relationship between temperature and blood supply or consumption of oxygen and glucose by rat 60:835
mammary cells /Concanavalin A-induced agglutinability of normal, preneoplastic, and neoplastic mouse 61:1423
mammary differentiation in vitro /Effects of perinatal progesterone on mouse 60:465
mammary epithelial cell antigens in mammary neoplasia /Immunologic methods for the identification of cell types. II. 61:747
mammary epithelial cells. II. Cytotoxic effect and metabolism of 7,12-dimethylbenz[*a*]anthracene and *N*-nitroso-*N*-methylurea 61:773
mammary epithelial cells. I. Effect of plating density, hormones, and serum on DNA synthesis /Primary culture of rat 61:765
mammary epithelial cells /Presence of a mouse mammary tumor virus-related antigen in human breast carcinoma cells and 61:1205
mammary gland as determinant of its susceptibility to 7,12-dimethylbenz[*a*]anthracene /Developmental stage of the rat 61:1439
mammary gland as determinants of its susceptibility to carcinogenesis /DNA labeling index and structure of the rat 61:1451
mammary gland DNA /Age-related modification of 7,12-dimethylbenz[*a*]anthracene binding to rat 60:173
mammary gland DNA in organ culture /Binding of 7,12-dimethylbenz[*a*]anthracene to BALB/c mouse 61:465
Mammary gland hyperplastic alveolar noduligenesis in the LEW/Mai rat in relation to mitotic activity, estrous cycle status, and ... 61:1339
mammary glands of rhesus monkeys: A preliminary report /Effect of ethynodiol diacetate with ethinyl estradiol on the 60:1169
mammary neoplasia /Immunologic methods for the identification of cell types. II. Expression of normal mouse mammary 61:747
mammary nodule lines by enzymatic dissociation /Enhancement of the tumorigenicity of preneoplastic 60:1121
Mammary nodules in beagle dogs administered investigational oral contraceptive steroids 60:1351
mammary tissue and uteri of C3H/HeJ mice /Diethylstilbestrol binding to estrogen receptor in 61:719
mammary tumor blood flow in unanesthetized rats /Measurement of 60:881
mammary tumor induction by topically applied fluorenylacetohydroxamic acids and their acetates /Lack of susceptibility of 60:433
mammary tumor induction with estrogen and neutron radiation /Rat differences in 61:1505
mammary tumor in Sprague-Dawley female rats /Cyclic adenosine 3′,5′-monophosphate-binding protein: Role in 60:1175
mammary tumors and reticulum cell neoplasms with the use of recombinant inbred lines of mice /Genetic analyses of 61:1125
mammary tumors arising from hyperplastic alveolar nodule outgrowth lines /Effect of chemical carcinogen treatment on the 61:1165
Mammary tumors, hepatocellular carcinomas, and pancreatic islet changes in C3H-A^{vy} mice 60:611
mammary tumors: Implications for therapy /Cell kinetics after vincristine treatment of C3H/He spontaneous 60:1043
mammary tumors induced by 7,12-dimethylbenz[*a*]anthracene /Multiple autotransplantation of rat 60:473
mammary tumors. I. Inhibition of mitogen-induced lymphocyte stimulation /Suppressor cells in mice with murine 60:205
mammary tumors in rats after direct or transplacental exposure to 3-hydroxyxanthine /Increased incidence of 61:1411
mammary tumors in strain GR/A mice. IV. Origin and progression /Hormone-dependent 60:1345
mammary tumors: Relation to stages of tumor development /Restraint-induced inhibition of 7,12-dimethylbenz[*a*]anthra- 61:725
mammary tumor virus and to virion gp52 antigen and Rauscher murine leukemia virus-Kirsten sarcoma virus gp69/71 antigen 60:1259
mammary tumor virus antibody and antigens in normal and tumor-bearing feral mice /Prevalence of murine 61:485
mammary tumor virus /Characterization of a new virus from *Mus cervicolor* immunologically related to the mouse 61:1509
mammary tumor virus-derived protein vaccine on primary tumor development in mice /Effect of a mouse 60:1461

mammary tumor virus-induced mammary tumors. I. Inhibition of mitogen-induced lymphocyte stimulation /Suppressor 60:205
mammary tumor virus (MuMTV) expression in RIII female mice treated neonatally with goat antiserum to MuMTV 61:437
mammary tumor virus produced in tissue culture /Oncogenicity of murine 60:461
mammary tumor virus-related antigen in human breast carcinoma cells and its absence from normal mammary epithelial cells 61:1205
mammographic screening for human breast cancer? /Can animal and in vitro studies give new, relevant answers to questions ...61:1537
mammography screening program /Case-control study of antihypertensive and diuretic use by women with malignant and.....61:327
Marek's disease: Early appearance of Marek's disease tumor-associated surface antigen in infected chickens /Pathogenesis of 61:849
Marek's disease. Effect of *Corynebacterium parvum* and Marek's tumor cell vaccines on tumorigenesis in chickens 60:829
Marek's disease lymphoma in normal versus immunologically deficient chickens /Rejection of a transplantable 60:623
Marek's disease tumor-associated surface antigen in chickens infected with nononcogenic Marek's disease virus and herpesvirus 61:855
Marek's disease tumor cells in chickens inoculated with Marek's disease vaccines /Development of cell-mediated immunity to....61:1273
Marek's disease virus /Characterization of an apparently nononcogenic.....60:1075
Marek's tumor cell vaccines on tumorigenesis in chickens /Resistance to Marek's disease. Effect of *Corynebacterium parvum*.....60:829
markers and virus-like particles in cell lines of tumors produced by CELO virus in Syrian golden hamsters /Virus-specific 61:163
Mason-Pfizer monkey virus and squirrel monkey (*Saimiri sciureus*) retrovirus by immunoelectron microscopy /Comparison.....61:411
mastocytoma-bearing mice /Serologic and immunochemical characterization of an immunosuppressive soluble factor from.....61:249
maytansine in vivo /Flow microfluorometric analysis of P388 murine leukemia after administration of vincristine and 60:649
maytansine (NSC-153858) /Early clinical study of an intermittent schedule for.....60:93
melanogenesis in mouse melanoma cells of varying metastatic potential /Control of 61:523
melanoma-associated antigens /Purification and immunologic evaluation of human.....60:773
melanoma cells /Isolation and metastatic properties of detachment variants of B16.....60:1217
melanoma cells of varying metastatic potential /Control of melanogenesis in mouse 61:523
melanomas, and leukemias /Characteristics in youth predictive of adult-onset malignant lymphomas, ...60:89
melanomas /Characterization of the inhibitory effects of retinoids on the in vitro growth of two malignant murine.....60:1035
melanomas in gerbils (*Meriones unguiculatus*) following postnatal administration of *N*-ethyl-*N*-nitrosourea /Selective 61:859
melanomas /Use of the leukocyte migration inhibition assay to evaluate antigenic differences in human breast cancers and.....60:969
melanoma tumor-associated antigens /Solubilization and partial isolation of human 61:61
membrane-associated antigens, and oncofetal-associated antigens /Antigens of a human breast carcinoma cell line (BT 20). I. 61:677
membrane uptake of a polynuclear aromatic hydrocarbon: A possible role in cocarcinogenesis /Particle-enhanced 61:1155
(*Meriones unguiculatus*) following postnatal administration of *N*-ethyl-*N*-nitrosourea /Selective induction of melanomas in.....61:859
methanol extraction residue fraction of BCG on the generation of cytotoxic lymphocytes against leukemia /In vitro 60:1097
methylazoxymethanol acetate /Induction of colon tumors in 1,2-dimethylhydrazine-resistant Lobund Wistar rats by.....61:493
methylazoxymethanol acetate in rabbit colon mucosa in organ culture /Inhibition of DNA synthesis by 1,2-dimethyl- 61:799
methylazoxymethanol acetate in rats /Effect of colostomy on intestinal carcinogenesis by 61:1161
methylbenzylnitrosamine-induced esophageal cancer in rats /Zinc deficiency and 61:145
N-methyl-*N*-benzylnitrosamine /Pathology of esophageal neoplasms and associated proliferative lesions induced in rats by.....61:1471
3-methylcholanthrene, benzo[*a*]pyrene, and 7,12-dimethylbenz[*a*]anthracene subcutaneous carcinogenesis in three strains of mice.....61:1107
3-methylcholanthrene-induced sarcomas /Failure of immunotherapy with neuraminidase-treated tumor cell vaccine in mice 60:451
3-methylcholanthrene-induced skin tumorigenesis in rats and mice /Effects of diethyl maleate on aryl hydrocarbon.....60:321
3-methylcholanthrene: Metabolism and mutagenic activation of *N*-2-acetylaminofluorene and benzo[*a*]pyrene /Induction of.....60:365
methylene bis-nucleotides /Cytotoxic activity of 60:789
methylethylnitrosamine in the rat /Kinetic studies on the hepatic microsomal metabolism of dimethylnitrosamine, ...61:517
N-methyl-*N*-formylhydrazine of the false morel *Gyromitra esculenta* /Tumors induced in mice by 60:201
N-methyl-*N'*-nitro-*N*-nitrosoguanidine /Induction of intestinal metaplasia in the stomachs of rats by 61:141
N-methyl-*N*-nitrosourea and histopathologic evaluation of the effect of two retinoids on colon lesions induced in rats /Dose 60:1489
methylnitrosourea /Chemical carcinogenesis and immunity: Immunologic status of rats treated with 61:731
N-methyl-*N*-nitrosourea /Pathogenesis of rat colon carcinomas induced by 61:779
microcytotoxicity assay /Spontaneous human mononuclear cell cytotoxicity to cultured tumor cells: Reproducibility of 60:1283
microfluorometric analysis of P388 murine leukemia after administration of vincristine and maytansine in vivo /Flow 60:649
microtubule inhibitors on malignant invasion in vitro /Effect of 61:787
migration inhibition factor production in patients with cervical carcinoma: A possible role in vivo /Blocking plasma factors 60:1279
mineral oil ?Subpopulations of cytogenetically abnormal cells in fibroblast cultures derived from workers exposed to 60:45
misonidazole (Ro 07-0582), host immune capability, and *Corynebacterium parvum* /Modification of radiation response of 60:887
mitogen-induced lymphocyte stimulation /Suppressor cells in mice with murine mammary tumor virus-induced mammary 60:205
mitogen responses and graft-versus-host reaction by splenocytes from mice bearing Lewis lung carcinoma /Suppression of.....61:471
modal DNA values obtained by microspectrophotometry and tests for their shifts /Correction of the 60:1251
mole /Androgenesis as a cause of hydatidiform.....60:51
Mollusca) /Cytology and quantitative cytochemistry of a proliferative atypical hemocytic condition in *Mytilus edulis*.....60:1455
Moloney leukemia virus in rats /Genetic control of immune responses to 60:1467
Moloney lymphoma cells antigenically altered by drug treatment in vivo /Secondary cytotoxic response in vitro against 60:109
Moloney murine sarcoma virus /Stimulatory effect of immunization on tumor induction by.....61:1323

Moloney-Rauscher-type virus /Immunologic control of the ascites form of murine adenocarcinoma 755. II. Tumor 60:141
monkey hepatocellular carcinoma /In vitro alpha-fetoprotein synthesis by 60:643
monkey (*Saimiri sciureus*) retrovirus by immunoelectron microscopy /Comparison of Mason-Pfizer monkey virus and 61:411
monkeys: A preliminary report /Effect of ethynodiol diacetate with ethinyl estradiol on the mammary glands of rhesus 60:1169
monkey virus and squirrel monkey (*Saimiri sciureus*) retrovirus by immunoelectron microscopy /Comparison of 61:411
monocyte chemotaxis in patients with breast cancer: Evidence for a tumor-mediated effect /Abnormal 60:737
monocyte motility and chemotaxis in man /Acute effects of orally administered levamisole on random 61:301
mononuclear cell cytotoxicity to cultured tumor cell Reproducibility of serial measurements with the use of a 60:1283
mononuclear cell subpopulations /Advantages of cryopreserved lymphocytes for sequential evaluation of human immune 61:1011
monooxygenases in rhesus monkeys by 3-methylcholanthrene: Metabolism and mutagenic activation of *N*-2-acetylaminofluorene 60:365
MOPC 104E plasmacytoma: Effects of tumor size and time post therapy on in vivo tumor immunity /Immunity against 60:1107
MOPC 104E: Role of the immune response /Therapy of the murine plasmacytoma 61:897
morbidity among rubber workers /Cancer mortality and 61:1047
morel *Gyromitra esculenta* /Tumors induced in mice by *N*-methyl-*N*-formylhydrazine of the false 60:201
mortality and morbidity among rubber workers /Cancer 61:1047
mortality patterns among workers exposed to cutting oil mists /Further analysis of cancer 61:1025
mortality with halomethanes in drinking water /Associations of cancer 61:979
mouse mammary tumor virus and to virion gp52 antigen and Rauscher murine leukemia virus-Kirsten sarcoma virus gp69/71 antigen ... 60:1259
mouse mammary tumor virus /Characterization of a new virus from *Mus cervicolor* immunologically related to the 61:1509
mouse mammary tumor virus-derived protein vaccine on primary tumor development in mice /Effect of a 60:1461
Multiple myeloma: An immunologic profile. II. Bone marrow studies 61:943
multistage theory of carcinogenesis and the age distribution of cancer in man /The 61:49
MuMTV /Suppressed murine mammary tumor virus (MuMTV) expression in RIII female mice treated neonatally with goat 61:437
murine adenocarcinoma 755. I. Protection with syngeneic immune serum or lymphoid cells /Immunologic control of the ascites ... 60:131
murine adenocarcinoma 755. II. Tumor immunity associated with a Friend-Moloney-Rauscher-type virus /Immunologic control of ... 60:141
murine fibrosarcoma /Effects of combined radiotherapy and immunotherapy with the use of pyran copolymer on 60:1477
murine fibrosarcoma of cell lines with enhanced plating efficiency in vitro /Isolation from a 60:179
murine leukemia after administration of vincristine and maytansine in vivo /Flow microfluorometric analysis of P388 ..... 60:649
murine leukemia cells. III. Effect of methanol extraction residue fraction of BCG on the generation of cytotoxic lymphocytes against ... 60:1097
murine leukemia L1210 /Effect of low phenylalanine diet on 60:633
murine leukemia viruses /Leukemogenicity of clonal isolates of 60:1473
murine leukemia virus /Genetic resistance in Japanese wild mice (*Mus musculus molossinus*) to an NB-tropic Friend 61:1301
murine leukemia virus in C57BL/6 mice /Immune reactivity of RBL-3, a nonproducer leukemia induced by Rauscher 61:107
murine leukemia virus infection: Apparent disparity in in vivo and in vitro resistances /Resistance of G mice to 61:461
murine leukemia virus-Kirsten sarcoma virus gp69/71 antigen /Leukocyte migration inhibition and lymphocyte blastogenesis ... 60:1259
murine leukemia virus /Lack of erythroid characteristics in Ia-positive leukemia cell lines induced by Friend 60:239
murine leukemia virus /Regression of established tumors in rats by injection of diethylaminoethyl-dextran and Friend 61:403
murine leukemia virus /Relationship between organotropism and leukemogenicity of type C RNA viruses as demonstrated in NIH ... 60:855
murine mammary tumor virus antibody and antigens in normal and tumor-bearing feral mice /Prevalence of 61:485
murine mammary tumor virus-induced mammary tumors. I. Inhibition of mitogen-induced lymphocyte stimulation /Suppressor ... 60:205
murine mammary tumor virus (MuMTV) expression in RIII female mice treated neonatally with goat antiserum to MuMTV 61:437
murine mammary tumor virus produced in tissue culture /Oncogenicity of 60:461
murine melanomas /Characterization of the inhibitory effects of retinoids on the in vitro growth of two malignant 60:1035
murine sarcoma virus /Effect of the *Fv-1* locus in vivo: Host range pseudotypes of 60:875
murine sarcoma virus (Moloney)-infected mice /Nucleases and 3′,5′-cyclic adenosine monophosphate phosphodiesterase activities ... 61:1077
murine sarcoma virus /Stimulatory effect of immunization on tumor induction by Moloney 61:1323
Muscarinic cholinergic activation of mouse spleen cells cytotoxic to tumor cells in vitro 61:923
Mus cervicolor immunologically related to the mouse mammary tumor virus /Characterization of a new virus from 61:1509
(*Mus musculus molossinus*) to an NB-tropic Friend murine leukemia virus /Genetic resistance in Japanese wild mice 61:1301
mutagen by human and rodent liver /Quinoline: Conversion to a 60:405
Mutagenicity of nitrosourea compounds for *Salmonella typhimurium* 60:1495
mutagenicity of the colon carcinogen 1,2-dimethylhydrazine by the host-mediated assay and its correlation to carcinogenicity 61:457
Mycobacterium bovis (BCG) /Immunotherapy of bilateral lymph node metastases in guinea pigs by intralesional or paralesional ... 60:1163
Mycobacterium butyricum, BCG, and a nonviable aqueous ether extract of *Brucella abortus* preparation in treatment of mice with ... 60:391
mycosis fungoides and circulating Sézary cells /Lack of functional immunoregulatory cells in a patient with 60:1295
myeloblastic leukemias of man /Cytodifferentiation in the acute 60:265
myelogenous leukemia /Destruction of circulating leukemia cells by phagocytosis in rats with 60:185
myeloid leukemia cells /Relationship between leukemogenicity and in vivo inducibility of normal differentiation in mouse 61:837
myeloid leukemia transferred to the (LEW × BN)F_1 rat /BN rat 61:927
myeloma: An immunologic profile. II. Bone marrow studies /Multiple 61:943
myeloma growth in vitro by anti-idiotypic antibodies: Inhibition of DNA synthesis and colony formation /Suppression of 60:225

Mytilus edulis (Bivalvia, Mollusca) /Cytology and quantitative cytochemistry of a proliferative atypical hemocytic condition in...60:1455
(NALM-1): Antibody specific to a non-T, non-B acute lymphoblastic leukemia antigen /Rabbit antiserum against a non-T, non-B...61:987
β-naphthoflavone and pregnenolone-16α-carbonitrile on dimethylnitrosamine-induced hepatocarcinogenesis /Differential effects of...61:441
2-naphthylamine /Histologic and histochemical preneoplastic changes in the bladder mucosae of dogs given 60:327
Nasopharyngeal Carcinoma: Summary and recommendations /International Symposium on Etiology and Control of 61:1535
National Cancer Institute Consensus Development Meeting on Breast Cancer Screening: Issues and recommendations /National...60:1519
National Institutes of Health/National Cancer Institute Consensus Development Meeting on Breast Cancer Screening: Issues and...60:1519
NB-tropic Friend murine leukemia virus /Genetic resistance in Japanese wild mice (*Mus musculus molossinus*) to an.....61:1301
nephroblastic neoplasia /Multifocal 61:285
neuraminidase-treated tumor cell vaccine in mice bearing established 3-methylcholanthrene-induced sarcomas /Failure of 60:451
neutron radiation /Rat differences in mammary tumor induction with estrogen and 61:1505
nicotine in vitro and during tobacco curing and carcinogenicity in strain A mice /Tobacco-specific nitrosamines: Formation from...60:819
Nitrosamine formation in human saliva 60:251
nitrosamines: Formation from nicotine in vitro and during tobacco curing and carcinogenicity in strain A mice /Tobacco-specific...60:819
N-nitroso-bis(2-hydroxypropyl)amine /Experimental pancreatic carcinogenesis. II. Lifetime carcinogenesis studies in the outbred...60:701
N-nitroso-bis(2-oxopropyl)amine after oral and intraperitoneal administration to Syrian golden hamsters /Metabolism of the...60:911
N-nitroso-*N*-butylurea /Involvement of chromosome #2 in chromosome changes in primary leukemia induced in rats by 60:1399
N-nitroso-2,6-dimethylmorpholine in Syrian golden hamsters /Carcinogenic effect of 60:371
N-nitroso-2,6-dimethylmorpholine in Syrian golden hamsters /Carcinogenic effect of subcutaneously administered 60:197
N-nitrosoheptamethyleneimine in European hamsters /Carcinogenicity of subcutaneously injected 61:239
N-nitroso-*N*-methylurea /Primary culture of rat mammary epithelial cells. II. Cytotoxic effect and metabolism of 61:773
nitrosourea compounds for *Salmonella typhimurium* /Mutagenicity of 60:1495
Nitrosourea-induced brain tumors: An in vivo and in vitro tumor model system 61:365
nitrosoureas: 1,3-Bis(2-chloroethyl)-1-nitrosourea and 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitrosourea /Effect of anticancer...60:1483
noduligenesis in the LEW/Mai rat in relation to mitotic activity, estrous cycle status, and age /Mammary gland hyperplastic alveolar...61:1339
non-B leukemia cell line that carries the Ph¹ chromosome (NALM-1): Antibody specific to a non-T, non-B acute lymphoblastic leukemia...61:987
non-T, non-B leukemia cell line that carries the Ph¹ chromosome (NALM-1): Antibody specific to a non-T, non-B acute lymphoblastic...61:987
(NSC-153858) /Early clinical study of an intermittent schedule for maytansine 60:93
(NSC-95441) treatment of chicks /Male sterility in the domestic fowl (*Gallus domesticus*) after 1-(2-chloroethyl)-3-.....61:793
nuclear hormone receptor complexes with carbobenzoxy-L-phenylalanine /Differences in nuclear glucocorticoid binding between...61:1477
Nuclear magnetic resonance and detection of human breast tumors 61:53
Nucleases and 3′,5′-cyclic adenosine monophosphate phosphodiesterase activities in murine sarcoma virus (Moloney)-infected mice...61:1077
nucleic acids in human breast tissue with a cationic carbocyanine dye /Simultaneous differential staining of phosphoproteins,...61:951
nude mice /Conversion of a poorly differentiated human adenocarcinoma to ascites form with invasion and metastasis in 60:925
nude mice /Detection of metastatic tumors in 60:715
nude mice treated with antilymphocyte serum and in congenitally athymic-asplenic (lasat) mice /Enhancement of 61:245
null cell, and B-cell lines in mixed lymphocyte culture /Comparison of the stimulating capacity of human leukemia T-cell, ...60:793
null cell lines /Differences in purine metabolizing enzyme activities in human leukemia T-cell, B-cell, and.....60:1301

Obituary—Arleen Claire Levin 60:1185
occupation /Lung cancer in coastal Georgia: A death certificate analysis of 60:295
oncofetal-associated antigens /Antigens of a human breast carcinoma cell line (BT 20). I. Synthesis of serum proteins, ...61:677
oncofetal protein /Immunologic studies on a pancreatic 60:1439
oncogenesis /Guest Editorial: Angiogenesis and 61:639
oncogenic human cells cocultivated with normal human fibroblasts /Selective killing of 61:69
Oncogenicity of murine mammary tumor virus produced in tissue culture.....60:461
oncornavirus antigens in pregnant women /Cell-mediated immune response to simian 60:527
oncornavirus-associated cell membrane antigen /Lysis of feline lymphoma cells by complement-dependent antibodies in feline...60:161
Oncornavirus lytic activity in the serum of gibbon apes.....60:677
oral contraceptive steroids /Mammary nodules in beagle dogs administered investigational 60:1351
organomanganese compound on F344 rats and Swiss albino mice /Tumorigenic effect of an 60:1171
organotropism and leukemogenicity of type C RNA viruses as demonstrated in NIH Swiss mice inoculated at birth with Gross murine...60:855
osteogenic sarcoma cells in vitro /Antitumor activity of interferon against murine 60:659
osteogenic sarcoma: Progress and perspectives /Guest Editorial: Adjuvant chemotherapy of 60:3
osteogenic sarcomas' by treatment with type I or type II interferon /Inhibition of murine 61:871
osteosarcoma among first-degree relatives of St. Bernard dogs /Frequency of.....60:349
osteosarcoma in BALB/c mice /Rescue of a transforming virus from a spontaneous nonproducing.....60:401
osteosarcomas induced in hamsters by BK virus, a human papovavirus /Ependymomas, malignant tumors of pancreatic islets, and...61:875
ovarian adenocarcinoma patients /Quantitation of secretory component levels in cyst fluids, ascitic fluids, and sera from 61:57
ovarian cancer /Second primary neoplasms following.....61:1195
ovariectomy-induced regression of a hormone-dependent mammary tumor in Sprague-Dawley female rats /Cyclic adenosine.....60:1175

oxygen and glucose by rat mammary carcinomas /Relationship between temperature and blood supply or consumption of 60:835

P1798 and stabilization of nuclear hormone receptor complexes with carbobenzoxy-L-phenylalanine /Differences in nuclear 61:1477
P388 cells /Effect of adriamycin on the reproductive integrity of cultured leukemia L1210 and 60:1117
P388 cells to vincristine, adriamycin, adriamycin analogs, and actinomycin D /Resistance and cross-resistance of cultured leukemia...61:1521
P388 leukemia to emetine, an inhibitor of protein synthesis /Biochemical parameters of resistance of an adriamycin-resistant subline...60:1049
P388 murine leukemia after administration of vincristine and maytansine in vivo /Flow microfluorometric analysis of 60:649
pancreas of the aging Syrian golden hamster /Spontaneous alterations in the 60:355
pancreatic cancer /Identification of a macromolecule containing an anticarcinoembryonic antigen-reactive substance and 61:1199
pancreatic cancer in rats /Cyclic nucleotide concentrations in 7,12-dimethylbenz[*a*]anthracene-induced 61:1281
pancreatic carcinogenesis. II. Lifetime carcinogenesis studies in the outbred Syrian golden hamster with *N*-nitroso-bis- 60:701
pancreatic carcinogen *N*-nitroso-bis(2-oxopropyl)amine after oral and intraperitoneal administration to Syrian golden hamsters.....60:911
pancreatic islet changes in C3H-A^{vy} mice /Mammary tumors, hepatocellular carcinomas, and 60:611
pancreatic islets, and osteosarcomas induced in hamsters by BK virus, a human papovavirus /Ependymomas, malignant tumors of...61:875
pancreatic oncofetal protein /Immunologic studies on a 60:1439
Panfuran-S containing 3-di(hydroxymethyl)amino-6-(5-nitro-2-furylethenyl)-1,2,4-triazine /Production of adenocarcinomas of the...60:1339
papovavirus /Ependymomas, malignant tumors of pancreatic islets, and osteosarcomas induced in hamsters by BK virus, a human...61:875
papovavirus etiology /Investigation of human urogenital tract tumors for 60:579
parabiotic rats with subcutaneous lymphoma or fibrosarcoma /Tissue enzyme changes in 60:825
paraffin embedding immunofluorescence procedure /Detection of feline leukemia virus in tissues of cats with a 61:1315
parapharyngeal cells cultured in semisolid agar /Colony formation by simian virus 40-transformed human 61:993
(*Parophrys vetulus*) from the Duwamish River Estuary, Seattle, Washington /Pathology of hepatomas and other liver abnormalities...60:1445
peroxidase by Vx2 carcinoma cells transplanted into the rabbit /Cytochemical study on uptake of exogenous 61:1215
phagocytosis in rats with myelogenous leukemia /Destruction of circulating leukemia cells by.....60:185
Ph^1 chromosome (NALM-1): Antibody specific to a non-T, non-B acute lymphoblastic leukemia antigen /Rabbit antiserum against...61:987
phenobarbital: Evidence that foci are precursors of neoplasms and that the promoter acts on carcinogen-induced lesions.....61:1311
phenylalanine diet on murine leukemia L1210 /Effect of low 60:633
pH, hyperthermia, and cell survival: Tumor hyperacidification and multistep cancer therapy /Letter to the Editor: Supplementary...61:3
phospholipids on maintenance of the cytotoxicity of 1-(2-chloroethyl)-3-cyclohexyl-1-nitrosourea in aqueous suspension /Effect of...60:1055
phosphonoacetate-resistant mutant of herpesvirus of turkeys /A.....60:1141
phosphoproteins, sialoglycoproteins, hyaluronic acid, sulfated glycosaminoglycans, proteins, and nucleic acids in human breast tissue...61:951
pituitary tumors in F344 rats /Biochemical and ultrastructural studies on estrogen-induced 61:753
plasmacytoma 58-8 cells /Cell-surface major glycoprotein of BALB/c mouse.....61:203
plasmacytoma: Effects of tumor size and time post therapy on in vivo tumor immunity /Immunity against MOPC 104E 60:1107
plasmacytoma MOPC 104E: Role of the immune response /Therapy of the murine.....61:897
plasmacytomas /A specific chromosome breakpoint associated with mouse 61:255
plasmacytoma /Specificity of the deletion of chromosome #15 in mouse.....60:235
plasma factors of migration inhibition factor production in patients with cervical carcinoma: A possible role in vivo /Blocking...60:1279
plasma histaminase activity to heparin in normal subjects and in patients with small cell carcinoma of the lung /Response.....60:1234
plasma membranes from line 10 and line 1 guinea pig hepatomas /Preparation of 61:935
plating density, hormones, and serum on DNA synthesis /Primary culture of rat mammary epithelial cells. I. Effect of 61:765
polycyclic hydrocarbon-induced rat leukemia: Incidence and chromosome banding pattern /Reproducible changes of 60:153
polynuclear aromatic hydrocarbon: A possible role in cocarcinogenesis /Particle-enhanced membrane uptake of a 61:1155
polyoma virus /Restriction to the cell nucleus of virus-induced host RNA's in a rat kidney tumor induced by.....60:1383
polyploid levels in the bone marrow of patients with small cell anaplastic carcinoma of the lung /Cytogenetic diagnosis of cancer:...61:1065
polyposis coli /Ultrastructural study of the normal mucosa-adenoma-cancer sequence in the development of familial 60:753
polyriboinosinic-polyribocytidylic acid and amphotericin B methyl ester /Synergistic cytotoxicity for L929 cells of 60:1309
potassium chloride extracts of L_2C tumor cells /Antitumor immunity in strain 2 guinea pigs immunized with 60:899
prealbumin, retinol-binding protein, transferrin, and albumin levels in patients with large bowel cancer /Serum.....61:687
precursor cells /Studies of the mechanisms for the induction of in vivo tumor immunity. II. Distribution and homing of cytotoxic...60:437
pregnant women /Cell-mediated immune response to simian oncornavirus antigens in 60:527

rubidazone /Kinetic response of cultured human lymphoid cells to 60:279

saccharin in humans /Guest Editorial: Status report on 61:275
(*Saimiri sciureus*) retrovirus by immunoelectron microscopy /Comparison of Mason-Pfizer monkey virus and squirrel monkey 61:411
saliva /Nitrosamine formation in human 60:251
(*Salmo gairdneri*) /Aflatoxin B_1 induction of hepatocellular carcinoma in the embryos of rainbow trout 60:1133
(*Salmo gairdneri*) /Carcinogenicity and acute toxicity of dimethylnitrosamine in rainbow trout 60:1127
(*Salmo gairdneri*) to aflatoxin B_1 /Effect of dietary protein on the response of rainbow trout 60:317
Salmonella typhimurium /Mutagenicity of nitrosourea compounds for 60:1495
sarcoma cells in vitro /Antitumor activity of interferon against murine osteogenic 60:659
sarcoma cells of mice /Lymphocytotoxic autoantibodies eluted from in vivo propagating 60:1509
sarcoma in mice /Specific immune response against tumor-associated antigens of a syngeneic simian virus 40-induced 61:1351
sarcoma in mice with irradiated bone marrow /Dose-incidence variations of reticulum cell 61:1131
sarcoma: Progress and perspectives /Guest Editorial: Adjuvant chemotherapy of osteogenic 60:3
sarcomas by treatment with type I or type II interferon /Inhibition of murine osteogenic 61:871
sarcomas /Failure of immunotherapy with neuraminidase-treated tumor cell vaccine in mice bearing established 3-methyl- 60:451
sarcoma virus by tilorone and thirteen of its analogs /Inhibition of deoxynucleotide-polymerizing enzyme activities of human 60:533
sarcoma virus /Effect of the *Fv-1* locus in vivo: Host range pseudotypes of murine 60:875
sarcoma viruses /Tumor antigen induction by the envelope-defective Bryan strain of Rous 60:1365
sarcoma virus gp69/71 antigen /Leukocyte migration inhibition and lymphocyte blastogenesis responses in breast carcinoma 60:1259
sarcoma virus (Moloney)-infected mice /Nucleases and 3′,5′-cyclic adenosine monophosphate phosphodiesterase activities in murine... 61:1077
sarcoma virus /Stimulatory effect of immunization on tumor induction by Moloney murine 61:1323
sarcoma virus system. Virus-specific CTL induction across the H-2 barrier /Secondary in vitro generation of cytolytic T-lymphocytes... 61:885
sarcoma virus /Transformation in vitro of glial hamster cells by Rous 60:113
scallop extract /Antitumor activity of a boiled 60:1499
Schistosomiasis and neoplasia /Guest Editorial: 61:13

Seattle, Washington /Pathology of hepatomas and other liver abnormalities in English sole (*Parophrys vetulus*) from the Duwamish...60:1445
secretory component levels in cyst fluids, ascitic fluids, and sera from ovarian adenocarcinoma patients /Quantitation of 61:57
sera, directed against nonspecific cross-reacting antigen /Demonstration of antibodies in patients' 61:1385
sera from ovarian adenocarcinoma patients /Quantitation of secretory component levels in cyst fluids, ascitic fluids, and 61:57
sera /Immune responses in human colon cancer. II. Cytotoxic antibody detected in patients' 60:779
serum of gibbon apes /Oncornavirus lytic activity in the 60:677
serum on DNA synthesis /Primary culture of rat mammary epithelial cells. I. Effect of plating density, hormones, and 61:765
Serum prealbumin, retinol-binding protein, transferrin, and albumin levels in patients with large bowel cancer.....61:687
Serum protein-bound carbohydrates for following the course of disease in patients with metastatic breast carcinoma.....61:703
serum proteins in patients with cancer /Distinct glycosylation of 60:83
serum proteins, membrane-associated antigens, and oncofetal-associated antigens /Antigens of a human breast carcinoma cell line....61:677
serum source used for target-cell culturing and cytotoxicity assay /Mouse natural cell-mediated cytotoxicity to human leukemia:.....60:1433
sex-related modification of diethylnitrosamine-induced carcinogenesis in BALB/c mice by concomitant administration of butylated.....61:177
Sézary cells /Lack of functional immunoregulatory cells in a patient with mycosis fungoides and circulating 60:1295
sialoglycoproteins, hyaluronic acid, sulfated glycosaminoglycans, proteins, and nucleic acid in human breast tissue with a cationic.....61:951
sialyltransferase in noncancerous and neoplastic human liver tissue /Characterization of.....61:1371
simian oncornavirus antigens in pregnant women /Cell-mediated immune response to 60:527
simian sarcoma virus by rifamycin derivatives /Structure–activity relationships and specificity of inhibition of DNA polymerases.....61:1187
simian sarcoma virus by tilorone and thirteen of its analogs /Inhibition of deoxynucleotide-polymerizing enzyme activities of human...60:533
simian virus 40-induced sarcoma in mice /Specific immune response against tumor-associated antigens of a syngeneic 61:1351
simian virus 40 inoculated intravenously into hamsters of three inbred strains and one outbred stock /Incidence, latency, and ...60:445
Simian virus 40 (SV40) production from SV40-transformed human amnion cells of established lines.....60:895
simian virus 40 temperature-sensitive mutant-transformed Chinese hamster cell clone at the permissive and nonpermissive temperature.....61:1171
simian virus 40-transformed human parapharyngeal cells cultured in semisolid agar /Colony formation by 61:993
Sister chromatid exchanges and growth inhibition induced by the flame retardant Tris(2,3-dibromopropyl) phosphate in Chinese.....60:1179
skin cells by antibody to normal skin cells of mice /Stimulation of malignant 60:1419
skin of mice /Effect of bile acids and neutral sterols on benzo[*a*]pyrene-induced tumorigenesis in 60:1501
skin of newborn mice in vivo and in vitro /Effects of tumor promoters and steroidal anti-inflammatory agents on.....60:425
skin tumorigenesis in rats and mice /Effects of diethyl maleate on aryl hydrocarbon hydroxylase and 3-methylcholanthrene-induced....60:321
skin tumor-initiating activities of various 7- and 12-substituted derivatives of 7,12-dimethylbenz[*a*]anthracene in mice /Effects of.....61:135
skin tumor initiation in mice /Lack of involvement of 6-hydroxymethylation in benzo[*a*]pyrene 61:451
skin tumors in mice /Dehydroretronecine-induced 61:85
sole (*Parophrys vetulus*) from the Duwamish River Estuary, Seattle, Washington /Pathology of hepatomas and other liver 60:1445
spleen cells by xenogeneic immune RNA /Antitumor antibody synthesis in vitro induced in mouse.....60:599
spleen cells cytotoxic to tumor cells in vitro /Muscarinic cholinergic activation of mouse 61:923
splenocytes from mice bearing Lewis lung carcinoma /Suppression of mitogen responses and graft-versus-host reaction by.....61:471
Spontaneous and induced preleukemia cells in C57BL/6 mice 60:707
Spontaneous hepatomas in mice inbred from Ha:ICR Swiss stock: Effects of sex, cedar shavings in bedding, and immunization with fetal...61:1531
spontaneous hepatomas of CBS/H-T6T6 mice. Histochemistry and electron microscopy /Cytoplasmic inclusions in 60:861
spontaneous ileocecal immunocytomas in hybrids of LOU/C rats and rat strains with low spontaneous tumor incidence /Incidence...60:1505
spontaneous mammary tumors: Implications for therapy /Cell kinetics after vincristine treatment of C3H/He.....60:1043
spontaneous neoplasms. II. Detection by direct leukocyte migration inhibition technique /Cell-mediated responses in dogs with.....61:1095
spontaneous neoplasms. I. Detection of cell-mediated cytotoxicity by the chromium-51 release assay /Cell-mediated responses in dogs...61:1085
spontaneous nonproducing osteosarcoma in BALB/c mice /Rescue of a transforming virus from a.....60:401
Spontaneous regression of syngeneic transplanted tumor in rats pretreated with the antileukemia drug busulfan 60:385
spontaneous tumors /Allogeneic hematopoietic grafts after total-body irradiation in dogs with.....61:353
Sprague-Dawley female rats /Cyclic adenosine 3′,5′-monophosphate-binding protein: Role in ovariectomy-induced regression of a....60:1175
squamous cells /Fluorescent probe study of DNA conformation in briefly heated human 60:97
squirrel monkey (*Saimiri sciureus*) retrovirus by immunoelectron microscopy /Comparison of Mason-Pfizer monkey virus and.....61:411
staining of phosphoproteins, sialoglycoproteins, hyaluronic acid, sulfated glycosaminoglycans, proteins, and nucleic acids in human.....61:951
Staphylococcus aureus Cowan A /Delay of tumor growth in hamsters treated with lynestrenol and effect of 61:173
Staphylococcus aureus /Suppression and immunotherapy of the guinea pig line-10 hepatocarcinoma mediated by nonviable 61:535
St. Bernard dogs /Frequency of osteosarcoma among first-degree relatives of.....60:349
stem cells by inhibitory activity derived from human leukemia cells /In vitro suppression of normal granulocytic.....60:497
stemlines with minimal karotypic deviations in a human heteroploid cell line /Evolution in vitro of 61:277
sterility in the domestic fowl (*Gallus domesticus*) after 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitroso-*trans*-urea (NSC-95441).....61:793
steroids /Mammary nodules in beagle dogs administered investigational oral contraceptive 60:1351
sterols on benzo[*a*]pyrene-induced tumorigenesis in skin of mice /Effect of bile acids and neutral 60:1501
stomachs of rats by *N*-methyl-*N*′-nitro-*N*-nitrosoguanidine /Induction of intestinal metaplasia in the 61:141
strain A mice /Tobacco-specific nitrosamines: Formation from nicotine in vitro and during tobacco curing and carcinogenicity in.....60:819
strain 2 guinea pigs immunized with potassium chloride extracts of L_2C tumor cells /Antitumor immunity in 60:899

sulfate metabolism in rats and mice /3-Hydroxyxanthine: Transplacental effects and ontogeny of related 61:1405
Superoxide dismutase activity of normal murine liver, regenerating liver, and H6 hepatoma 61:375
Suppression and immunotherapy of the guinea pig line-10 hepatocarcinoma mediated by nonviable *Staphylococcus aureus* 61:535
suppressor cells in depression of in vitro lymphoproliferative responses of lung cancer and breast cancer patients /Role of 61:1001
Suppressor cells in mice with murine mammary tumor virus-induced mammary tumors. I. Inhibition of mitogen-induced lymphocyte....60:205
Suppressor cells in neoplastic disease /Guest Editorial: 61:5
survival of black and white cancer patients, 1960–73 /Contrasts in 60:1209
Swiss albino mice /Tumorigenic effect of an organomanganese compound on F344 rats and 60:1171
Swiss mice /Enhancement of carcinogenesis by prostaglandins in male albino 61:97
Symphytum officinale /Carcinogenic activity of 61:865
Symposium on Etiology and Control of Nasopharyngeal Carcinoma: Summary and recommendations /International 61:1535
syngeneic simian virus 40-induced sarcoma in mice /Specific immune response against tumor-associated antigens of a 61:1351
syngeneic tumor systems /Effect of BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation.....60:1069
Syrian golden hamsters /Carcinogenic effect of *N*-nitroso-2,6-dimethylmorpholine in 60:371
Syrian golden hamsters /Carcinogenic effect of subcutaneously administered *N*-nitroso-2,6-dimethylmorpholine in 60:197
Syrian golden hamsters /Metabolism of the pancreatic carcinogen *N*-nitroso-bis(2-oxopropyl)amine after oral and intraperitoneal.....60:911
Syrian golden hamster /Spontaneous alterations in the pancreas of the aging 60:355
Syrian golden hamsters /Virus-specific markers and virus-like particles in cell lines of tumors produced by CELO virus in 61:163
Syrian golden hamster with *N*-nitroso-bis(2-hydroxypropyl)amine /Experimental pancreatic carcinogenesis. II. Lifetime 60:701

TA3 tumor of the mouse: Studies on segregating TA3-Ha hybrids /Further studies on the relationship between large glycoprotein.....60:811
TA3-Ha hybrids /Further studies on the relationship between large glycoprotein molecules and allotransplantability in the TA3.....60:811
tail biopsies /A procedure for culture of cells from mouse 60:477
tannic acid /Type B and type C RNA tumor virus replication in single cells. Electron microscopy with 61:91
target-cell culturing and cytotoxicity assay /Mouse natural cell-mediated cytotoxicity to human leukemia: Independence of serum.....60:1433
T-cell and B-cell lines: Light and electron microscopy /Morphologic and cytochemical comparison of human lymphoblastoid.....60:59
T-cell, B-cell, and null cell lines /Differences in purine metabolizing enzyme activities in human leukemia.....60:1301
T-cell-depleted mice /Ultraviolet carcinogenesis in 61:917
T-cell, null cell, and B-cell lines in mixed lymphocyte culture /Comparison of the stimulating capacity of human leukemia 60:793
T-cells and macrophages /Effect of BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect.....60:1059
temperature and blood supply or consumption of oxygen and glucose by rat mammary carcinomas /Relationship between 60:835
teratomas from embryos transplanted into outbred and inbred adult hamsters /Development of 61:911
testicular tumor metastasis /Morphologic evidence for retrovirus production by epithelial cells derived from a human 60:1305
tetracarboxyphenylporphine in tumor-bearing mice /Distribution of tetraphenylporphinesulfonate and.....61:1397
tetraphenylporphinesulfonate and tetracarboxyphenylporphine in tumor-bearing mice /Distribution of.....61:1397
therapy /Letter to the Editor: Supplementary information on pH, hyperthermia, and cell survival: Tumor hyperacidification and.....61:3
thymectomy on tumor growth inhibition /Nonimmune and immune surveillance. II. Effect of recipient's age, tumor 61:737
thymidine in mice /In vivo enhancement of 5-fluorouracil cytotoxicity to AKR leukemia cells by 61:843
thymidine kinase activity of rat colon epithelial cells fractionated by discontinuous Ficoll gradient /DNA synthesis and 60:915
thymocytes: Retention of modulating antibody on the cell surface /In vivo modulation of thymus-leukemia antigens on mouse.....61:819
thymus-leukemia antigens on mouse leukemia cells and thymocytes: Retention of modulating antibody on the cell surface /In vivo....61:819
thymus-leukemia-associated antigen: Isolation and partial characterization /Human 60:69
thymus lymphocytes in virus-inoculated, inbred, preleukemic AKR/J mice /Alterations in bone marrow and 60:905
tilorone and thirteen of its analogs /Inhibition of deoxynucleotide-polymerizing enzyme activities of human leukemia lymphoblasts...60:533
tilorone hydrochloride, levamisole, methanol-soluble fraction of *Mycobacterium butyricum*, BCG, and a nonviable aqueous ether extract...60:391
T-lymphocyte antigens by natural killer cells /Expression of human 60:961
T-lymphocytes and B-lymphocytes in culture /Differential chemotherapeutic susceptibility of human 60:749
T-lymphocytes and B-lymphocytes in peripheral blood and effusions of patients with cancer /Distribution of 61:295
T-lymphocytes (CTL's) in the murine sarcoma virus system. Virus-specific CTL induction across the H-2 barrier /Secondary in vitro...61:885
tobacco curing and carcinogenicity in strain A mice /Tobacco-specific nitrosamines: Formation from nicotine in vitro and during.....60:819
Tobacco-specific nitrosamines: Formation from nicotine in vitro and during tobacco curing and carcinogenicity in strain A mice ...60:819
toxicity of 2,4-diamino-5-(1-adamantyl)-6-methylpyrimidine and 2,4-diamino-5-(1-adamantyl)-6-ethylpyrimidine /Comparison of.....60:1029
toxicity of dimethylnitrosamine in rainbow trout (*Salmo gairdneri*) /Carcinogenicity and acute 60:1127
trachea, bronchus, and bronchioles /The respiratory epithelium. II. Hamster 61:551
transferrin, and albumin levels in patients with large bowel cancer /Serum prealbumin, retinol-binding protein,.....61:687
Transplacental effects and ontogeny of related sulfate metabolism in rats and mice /3-Hydroxyxanthine: 61:1405
transplacental exposure to 3-hydroxyxanthine /Increased incidence of mammary tumors in rats after direct or 61:1411
transplantable Marek's disease lymphoma in normal versus immunologically deficient chickens /Rejection of a 60:623
triaziquone and triaziquone-protein conjugates /Comparisons of the chemical and biologic properties of 60:307
trioctanoin vehicles on 3-methylcholanthrene, benzo[*a*]pyrene, and 7,12-dimethylbenz[*a*]anthracene subcutaneous carcinogenesis in.....61:1107

Tris(2,3-dibromopropyl) phosphate in Chinese hamster cells /Sister chromatid exchanges and growth inhibition induced by the.....60:1179
(trisomies #15 and 17) associated with tumor progression in leukemias induced by radiation leukemia virus /Chromosome changes....61:227
trout (*Salmo gairdneri*) to aflatoxin B_1 /Effect of dietary protein on the response of rainbow.....60:317
tumor-associated antigens of a syngeneic simian virus 40-induced sarcoma in mice /Specific immune response against.....61:1351
tumor-associated surface antigen in chickens infected with nononcogenic Marek's disease virus and herpesvirus of turkeys.....61:855
tumor-associated surface antigen in infected chickens /Pathogenesis of Marek's disease: Early appearance of Marek's disease.....61:849
Tumor-associated transplantation antigen distinct from H-2^k-like antigens on a BALB/c (*H-2*^{d}) fibrosarcoma.....61:1229
tumor graft survival in nude mice treated with antilymphocyte serum and in congenitally athymic-asplenic (lasat) mice.....61:245
tumorigenesis and normal development /Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. I. Ganglioside alterations...60:1313
tumorigenesis in chickens /Resistance to Marek's disease. Effect of *Corynebacterium parvum* and Marek's tumor cell vaccines on.....60:829
tumorigenesis in mice: DNA synthesis in surface-attached cells during preneoplasia /Foreign-body.....61:359
tumorigenesis in rats and mice /Effects of diethyl maleate on aryl hydrocarbon hydroxylase and 3-methylcholanthrene-induced skin....60:321
tumorigenesis in skin of mice /Effect of bile acids and neutral sterols on benzo[*a*]pyrene-induced.....60:1501
tumorigenesis /Multiple forms of alpha-galactosidase of the mouse and their use as a cell marker in.....61:1263
Tumorigenic effect of an organomanganese compound on F344 rats and Swiss albino mice.....60:1171
Tumorigenic effect of 1-hydrazinophthalazine hydrochloride in mice.....61:1363
tumorigenicity of preneoplastic mammary nodule lines by enzymatic dissociation /Enhancement of the.....60:1121
tumor promoters and steroidal anti-inflammatory agents on skin of newborn mice in vivo and in vitro /Effects of.....60:425
Tumor-specific antigens on rat liver cells transformed in vitro by chemical carcinogens.....60:125
tumor-specific antigens on rat liver cells transformed in vitro by chemical carcinogens /*Propionibacterium acnes*-mediated humoral....61:1525
tumor virus antibody and antigens in normal and tumor-bearing feral mice /Prevalence of murine mammary.....61:485
tumor virus /Characterization of a new virus from *Mus cervicolor* immunologically related to the mouse mammary.....61:1509
turkeys /A phosphonoacetate-resistant mutant of herpesvirus of.....60:1141
turkeys /Demonstration of Marek's disease tumor-associated surface antigen in chickens infected with nononcogenic Marek's disease...61:855
type A particles by 5-bromo-2′-deoxyuridine in rat hepatoma cells /Induction of intracisternal.....60:919
Type B and type C RNA tumor virus replication in single cells. Electron microscopy with tannic acid.....61:91
type C RNA tumor virus replication in single cells. Electron microscopy with tannic acid /Type B and.....61:91
type C RNA viruses as demonstrated in NIH Swiss mice inoculated at birth with Gross murine leukemia virus /Relationship between...60:855
type C virus /Protection against 7,12-dimethylbenz[*a*]anthracene-induced rat mammary carcinoma by infection with mouse.....61:123

Ultraviolet carcinogenesis in T-cell-depleted mice.....61:917
ultraviolet light in vitro, with special reference to aging and repair level /DNA repair synthesis in rat retinal ganglion cells treated.....61:1101
unblocking therapy and levamisole on primary gastrointestinal tumors in rats: Immunologic and histologic correlation /Effect of.....61:1235
United States and Japan /Comparison of age-specific mortality from breast cancer in males in the.....60:1223
United States /Geographic patterns of bladder cancer in the.....61:1017
United States /Geographic patterns of prostate cancer in the.....61:1379
urethan in strain A mice /Effect of reovirus infection on pulmonary tumor response to.....61:131
urogenital tract tumors for papovavirus etiology /Investigation of human.....60:579
uterine cervix of the mouse /Rate of cell division in atypias and invasive carcinoma of the.....61:259
uteri of C3H/HeJ mice /Diethylstilbestrol binding to estrogen receptor in mammary tissue and.....61:719

vaccination in prevention of cancer: An update /Efficacy of BCG.....60:785
vaccine on primary tumor development in mice /Effect of a mouse mammary tumor virus-derived protein.....60:1461
vaccine: Preparation and evaluation of immunizing potency in guinea pig and cat /Feline leukemia virus envelope glycoprotein.....61:1487
vascular functions of normal tissues and experimental tumors /Effect of hyperthermia on.....60:711
vincristine, adriamycin, adriamycin analogs, and actinomycin D /Resistance and cross-resistance of cultured leukemia P388 cells to....61:1521
vincristine and maytansine in vivo /Flow microfluorometric analysis of P388 murine leukemia after administration of.....60:649
vincristine treatment of C3H/He spontaneous mammary tumors: Implications for therapy /Cell kinetics after.....60:1043
viral particles /Rat ileocecal immunocytoma. An ultrastructural study with special attention to the presence of.....61:477
virion gp52 antigen and Rauscher murine leukemia virus–Kirsten sarcoma virus gp69/71 antigen /Leukocyte migration inhibition....60:1259
virus and squirrel monkey (*Saimiri sciureus*) retrovirus by immunoelectron microscopy /Comparison of Mason-Pfizer monkey.....61:411
virus antibody and antigens in normal and tumor-bearing feral mice /Prevalence of murine mammary tumor.....61:485
virus DNA in an American Burkitt's lymphoma line /State of Epstein-Barr.....60:991
virus envelope glycoprotein vaccine: Preparation and evaluation of immunizing potency in guinea pig and cat /Feline leukemia.....61:1487
virus from a spontaneous nonproducing osteosarcoma in BALB/c mice /Rescue of a transforming.....60:401
virus from *Mus cervicolor* immunologically related to the mouse mammary tumor virus /Characterization of a new.....61:1509
virus /Genetic resistance in Japanese wild mice (*Mus musculus molossinus*) to an NB-tropic Friend murine leukemia.....61:1301
virus-immune complexes in postmortem kidneys from African patients with Burkitt's lymphoma and American patients with and ..60:941
virus /Immunologic control of the ascites form of murine adenocarcinoma 755. II. Tumor immunity associated with a.....60:141

virus-induced host RNA's in a rat kidney tumor induced by polyoma virus /Restriction to the cell nucleus of 60:1383
virus-induced mammary tumors. I. Inhibition of mitogen-induced lymphocyte stimulation /Suppressor cells in mice with murine 60:205
virus infection: Apparent disparity in in vivo and in vitro resistances /Resistance of G mice to murine leukemia 61:461
virus in tissues of cats with a paraffin embedding immunofluorescence procedure /Detection of feline leukemia 61:1315
virus /Isolation of a precipitating glycoprotein antigen from cell cultures persistently infected with bovine leukemia 60:213
virus /Lack of erythroid characteristics in Ia-positive leukemia cell lines induced by Friend murine leukemia 60:239
virus leukemia in mice. V. Relevance of *Fv-3* gene in the regulation of in vivo immunosuppression /Mechanism of genetic resistance ... 61:1117
virus-like particles in cell lines of tumors produced by CELO virus in Syrian golden hamsters /Virus-specific markers and 61:163
Viruslike particles in hamster embryos, fetuses, and tumors 61:891
virus (Moloney)-infected mice /Nucleases and 3′,5′-cyclic adenosine monophosphate phosphodiesterase activities in murine sarcoma ... 61:1077
virus (MuMTV) expression in RIII female mice treated neonatally with goat antiserum to MuMTV /Suppressed murine mammary 61:437
virus /Natural transmission of gibbon leukemia 61:1113
virus produced in tissue culture /Oncogenicity of murine mammary tumor 60:461
virus /Regression of established tumors in rats by injection of diethylaminoethyl-dextran and Friend murine leukemia 61:403
virus-related antigen in human breast carcinoma cells and its absence from normal mammary epithelial cells /Presence of a mouse 61:1205
Virus-specific markers and virus-like particles in cell lines of tumors produced by CELO virus in Syrian golden hamsters 61:163
virus /Stimulatory effect of immunization on tumor induction by Moloney murine sarcoma 61:1323
virus system. Virus-specific CTL induction across the H-2 barrier /Secondary in vitro generation of cytolytic T-lymphocytes (CTL's) ... 61:885
Vx2 carcinoma cells transplanted into the rabbit /Cytochemical study on uptake of exogenous peroxidase by 61:1215

Washington: A standardized histologic review /Incidence of endometrial carcinoma in King County, ... 60:985
wild mice (*Mus musculus molossinus*) to an NB-tropic Friend murine leukemia virus /Genetic resistance in Japanese 61:1301
Wistar rats by methylazoxymethanol acetate /Induction of colon tumors in 1,2-dimethylhydrazine-resistant Lobund 61:493
Wistar rats fed Panfuran-S containing 3-di(hydroxymethyl)amino-6-(5-nitro-2-furylethenyl)-1,2,4-triazine /Production of 60:1339

xenotropic type C virus /Protection against 7,12-dimethylbenz[*a*]anthracene-induced rat mammary carcinoma by infection with 61:123
xeroderma pigmentosum /Guest Editorial: Significance of repair of human DNA: Evidence from studies of 61:645
X-irradiated, male RF mice /Competing risk analysis of leukemia and nonleukemia mortality in 60:995

Zinc deficiency and methylbenzylnitrosamine-induced esophageal cancer in rats 61:145
zinc glycinate marker and carcinoembryonic antigen by immunofluorescence. II. Immunofluorescence microscopy /Tissue 60:1375
zinc glycinate marker and carcinoembryonic antigen by immunofluorescence. I. Preparation of antisera against the zinc glycinate marker ... 60:1371

Table of Contents

Volumes 60
January 1978–December 1978

Vol 60, No. 1—JANUARY 1978

1 In This Issue

Guest Editorials

3 Adjuvant chemotherapy of osteogenic sarcoma: Progress and perspectives — *Emil Frei III, Norman Jaffe, Michael Gero, Howard Skipper, Hugh Watts*

11 Inhibition of chemical carcinogenesis — *Lee W. Wattenberg*

19 Alpha-fetoprotein — *Stewart Sell, Frederick F. Becker*

Investigations on Man

27 Immune function in healthy relatives of patients with malignant disease — *Ruth Dworsky, Joyce Baptista, John Parker, Stebbin Chandor, Gary Noble, Kenneth Herrmann, Werner Henle, Brian Henderson*

31 Epstein-Barr virus-associated and other antiviral antibodies during intense BCG administration to patients with Burkitt's lymphoma in remission — *Peter Gunven, George Klein, John L. Ziegler, Ian T. Magrath, Charles L. Olweny, Werner Henle, Gertrude Henle, Arne Svedmyr, Aberra Demissie*

39 Cell-surface antigens from human breast tumor cells — *Michael P. Lerner, J. Hill Anglin, Robert E. Nordquist*

45 Subpopulations of cytogenetically abnormal cells in fibroblast cultures derived from workers exposed to mineral oil — *P. A. Benn, D. G. Harnden, E. A. Fairburn*

51 Androgenesis as a cause of hydatidiform mole — *Norio Wake, Nobuo Takagi, Motomichi Sasaki*

59 Morphologic and cytochemical comparison of human lymphoblastoid T-cell and B-cell lines: Light and electron microscopy — *John W. Parker, Clive R. Taylor, Paul K. Pattengale, Ivor Royston, Barbara H. Tindle, Mary Jo Cain, Robert J. Lukes*

69 Human thymus-leukemia-associated antigen: Isolation and partial characterization — *Boris E. Chechik, Maire E. Percy, Erwin W. Gelfand*

77 Bone cancer among female radium dial workers. Latency periods and incidence rates by time after exposure: *Brief Communication* — *Anthony P. Polednak*

83 Distinct glycosylation of serum proteins in patients with cancer: *Brief Communication* — *Israel Rostenberg, Jesús Guizar-Vázquez, Pablo Suárez, Rafael Rico, Lourdes Nungaray, César Domínguez*

89 Characteristics in youth predictive of adult-onset malignant lymphomas, melanomas, and leukemias: *Brief Communication* — *Ralph S. Paffenbarger, Jr., Alvin L. Wing, Robert T. Hyde*

93 Early clinical study of an intermittent schedule for maytansine (NSC-153858): *Brief Communication* — *R. T. Eagan, J. N. Ingle, J. Rubin, S. Frytak, C. G. Moertel*

97 Fluorescent probe study of DNA conformation in briefly heated human squamous cells: *Brief Communication* — *Daniel Roth*

Investigations on Nonhuman Systems

101 Statistical aspects of extrapolation of dichotomous dose-response data — *Charles C. Brown*

109 Secondary cytotoxic response in vitro against Moloney lymphoma cells antigenically altered by drug treatment in vivo — *Angela Santoni, Yvonne Kinney, Abraham Goldin*

113	Transformation in vitro of glial hamster cells by Rous sarcoma virus	*G. F. Rabotti, J. Gogusev, B. Teutsch, F. Mongiat-Lardemer, F. Haguenau*
125	Tumor-specific antigens on rat liver cells transformed in vitro by chemical carcinogens	*T. Yokota, P. Sizaret, N. Martel*
131	Immunologic control of the ascites form of murine adenocarcinoma 755. I. Protection with syngeneic immune serum or lymphoid cells	*Darrow E. Haagensen, Jr., Gary Roloson, Jeffrey J. Collins, Samuel A. Wells, Jr., Dani P. Bolognesi, Hans J. Hansen*
141	Immunologic control of the ascites form of murine adenocarcinoma 755. II. Tumor immunity associated with a Friend-Moloney-Rauscher-type virus	*Jeffrey J. Collins, Gary Roloson, Darrow E. Haagensen, Jr., Peter J. Fischinger, Samuel A. Wells, Jr., Walter Holder, Dani P. Bolognesi*
153	Reproducible chromosome changes of polycyclic hydrocarbon-induced rat leukemia: Incidence and chromosome banding pattern	*Taketoshi Sugiyama, Hiroshi Uenaka, Norifumi Ueda, Shirou Fukuhara, Sakan Maeda*
161	Lysis of feline lymphoma cells by complement-dependent antibodies in feline leukemia virus contact cats. Correlation of lysis and antibodies to feline oncornavirus-associated cell membrane antigen	*Chris K. Grant, M. Essex, N. C. Pedersen, W. D. Hardy, Jr., J. R. Stephenson, S. M. Cotter, G. H. Theilen*
167	Enhancement of growth of allogeneic mouse tumor by the IgG_1 fraction of alloantibody preparations	*T. N. Harris, Susanna Harris, E. M. Henri, Miriam B. Farber*
173	Age-related modification of 7,12-dimethylbenz[*a*]anthracene binding to rat mammary gland DNA	*Douglas H. Janss, Theresa L. Ben*
179	Isolation from a murine fibrosarcoma of cell lines with enhanced plating efficiency in vitro	*Norio Suzuki, H. Rodney Withers*
185	Destruction of circulating leukemia cells by phagocytosis in rats with myelogenous leukemia	*Yongock Cho, Peter P. H. De Bruyn*
197	Carcinogenic effect of subcutaneously administered *N*-nitroso-2,6-dimethylmorpholine in Syrian golden hamsters	*Jürgen Althoff, Carter Grandjean, Barry Gold*
201	Tumors induced in mice by *N*-methyl-*N*-formylhydrazine of the false morel *Gyromitra esculenta*	*Bela Toth, Donald Nagel*
205	Suppressor cells in mice with murine mammary tumor virus-induced mammary tumors. I. Inhibition of mitogen-induced lymphocyte stimulation	*Andrew B. Rudczynski, Richard F. Mortensen*
213	Isolation of a precipitating glycoprotein antigen from cell cultures persistently infected with bovine leukemia virus	*Marshall Phillips, Janice M. Miller, Martin J. Van Der Maaten*
219	Focal suppression and induction of hyperplasia by the bladder carcinogens butyl(4-hydroxybutyl)nitrosamine and butyl(3-carboxypropyl)nitrosamine in organ-cultured rat bladder epithelium	*David H. Reese, Rosalind D. Friedman, William Gaffield, Larry K. Keefer*
225	Suppression of myeloma growth in vitro by anti-idiotypic antibodies: Inhibition of DNA synthesis and colony formation	*Hans Schreiber, Paul Leibson*
235	Specificity of the deletion of chromosome #15 in mouse plasmacytoma: *Brief Communication*	*Michihiro C. Yoshida, Kazuo Moriwaki, Shunsuke Migita*
239	Lack of erythroid characteristics in Ia-positive leukemia cell lines induced by Friend murine leukemia virus: *Brief Communication*	*Bruce Chesebro, Kathy Wehrly, David Housman*
243	Antiproliferative activity of highly purified mouse interferon: *Brief Communication*	*Rita F. Buffett, Michio Ito, Alfred M. Cairo, William A. Carter*

Announcement

247	Symposium on Designs for Clinical Cancer Research	

Vol 60, No. 2—FEBRUARY 1978

249 In This Issue

Investigations on Man

251 Nitrosamine formation in human saliva — *Steven R. Tannenbaum, Michael C. Archer, John S. Wishnok, Walter W. Bishop*

255 Specificity of delayed cutaneous hypersensitivity reactions to extracts of human tumor cells — *James L. Weese, Ronald B. Herberman, Ariel C. Hollinshead, Grace B. Cannon, Marian Keels, Antoine Kibrite, Alvaro Morales, Devron H. Char, Robert K. Oldham*

265 Cytodifferentiation in the acute myeloblastic leukemias of man — *S. Lan, E. A. McCulloch, J. E. Till*

271 Prediction of response to adrenalectomy in the treatment of advanced breast cancer — *Ihor J. Masnyk, Debra T. Silverman, Benjamin F. Hankey*

279 Kinetic response of cultured human lymphoid cells to rubidazone — *Barthel Barlogie, Benjamin Drewinko, Robert S. Benjamin, Ti Li Loo*

283 Proliferative changes in the epithelium of the human lithiasic gallbladder — *P. Putz, G. Willems*

289 Estrogen receptor and alpha-fetoprotein in human breast cancer: *Brief Communication* — *K. Nakao, H. Ochi, M. Kawashima, S. Tomino, H. Sugano, K. Matsumoto*

291 Estrogen, progesterone, and androgen receptors in breast cancer in the Japanese: *Brief Communication* — *H. Ochi, T. Hayashi, K. Nakao, E. Yayoi, T. Kawahara, K. Matsumoto*

295 Lung cancer in coastal Georgia: A death certificate analysis of occupation: *Brief Communication* — *J. Malcolm Harrington, William J. Blot, Robert N. Hoover, W. Jere Housworth, Clark W. Heath, Jr., Joseph F. Fraumeni, Jr.*

299 Particle-lamella complexes in a case of human benign prostate hyperplasia: *Brief Communication* — *Yuji Ohtsuki, Leon Dmochowski, Gabriel Seman, James M. Bowen, Douglas E. Johnson*

303 Continuous production of carcinoembryonic antigen in hollow fiber cell culture units: *Brief Communication* — *Gary S. David, Ralph A. Reisfeld, Tom H. Chino*

Investigations on Nonhuman Systems

307 Comparisons of the chemical and biologic properties of triaziquone and triaziquone-protein conjugates — *J. H. Linford, G. Froese*

317 Effect of dietary protein on the response of rainbow trout (*Salmo gairdneri*) to aflatoxin B_1 — *D. J. Lee, R. O. Sinnhuber, J. H. Wales, G. B. Putnam*

321 Effects of diethyl maleate on aryl hydrocarbon hydroxylase and 3-methylcholanthrene-induced skin tumorigenesis in rats and mice — *A. H. L. Chuang, Hasan Mukhtar, Edward Bresnick*

327 Histologic and histochemical preneoplastic changes in the bladder mucosae of dogs given 2-naphthylamine — *Jack L. Radomski, Charlene Krischer, Kenneth N. Krischer*

335 Lymphocyte populations participating in cellular antitumor immune responses mediated by immune RNA — *David H. Kern, Nancy Chow, Yosef H. Pilch*

345 Chemotherapeutic activity of new 2-chloroethylnitrosoureas in rat L5222 leukemia: Comparison of bifunctional and water-soluble derivatives with 1,3-bis(2-chloroethyl)-1-nitrosourea — *W. Jens Zeller, Gerhard Eisenbrand, Heinz H. Fiebig*

349 Frequency of osteosarcoma among first-degree relatives of St. Bernard dogs — *Steen Bech-Nielsen, Mark E. Haskins, John S. Reif, Robert S. Brodey, Donald F. Patterson, Richard Spielman*

355	Spontaneous alterations in the pancreas of the aging Syrian golden hamster	*Michichito Takahashi, Parviz Pour*
365	Induction of monooxygenases in rhesus monkeys by 3-methylcholanthrene: Metabolism and mutagenic activation of *N*-2-acetylaminofluorene and benzo[*a*]pyrene	*S. S. Thorgeirsson, S. Sakai, R. H. Adamson*
371	Carcinogenic effect of *N*-nitroso-2,6-dimethylmorpholine in Syrian golden hamsters	*Gerd Reznik, Ulrich Mohr, William Lijinsky*
379	Higher antitumor efficacy of daunomycin when linked to dextran: In vivo and in vitro studies	*A. Bernstein, E. Hurwitz, R. Maron, R. Arnon, M. Sela, M. Wilchek*
385	Spontaneous regression of syngeneic transplanted tumor in rats pretreated with the antileukemia drug busulfan	*Fujiro Sendo, Takayoshi Miyake, Shigemi Fuyama, Shigeru Arai*
391	Further observations on the inhibition of tumor growth by *Corynebacterium parvum* with cyclophosphamide. V. Comparison of the effects of tilorone hydrochloride, levamisole, methanol-soluble fraction of *Mycobacterium butyricum*, BCG, and a nonviable aqueous ether extract of *Brucella abortus* preparation in treatment of mice with tumors	*Bernard Fisher, James Linta, James Hanlon, Elizabeth Saffer*
401	Rescue of a transforming virus from a spontaneous nonproducing osteosarcoma in BALB/c mice	*P. Bentvelzen, K. Nooter, B. F. Deys*
405	Quinoline: Conversion to a mutagen by human and rodent liver	*Monica Hollstein, Ronald Talcott, Eddie Wei*
411	Complement-dependent cytotoxic antitumor antibody. I. Immunoglobulin class determined by interaction with protein A or concanavalin A	*John J. Langone, Michael D. P. Boyle, Tibor Borsos*
419	Glucan: Attempts to demonstrate therapeutic activity against five syngeneic tumors in guinea pigs and mice	*J. T. Hunter, M. S. Meltzer, E. Ribi, I. J. Fidler, M. G. Hanna, Jr., B. Zbar, H. J. Rapp*
425	Effects of tumor promoters and steroidal antiinflammatory agents on skin of newborn mice in vivo and in vitro	*T. J. Slaga, U. Lichti, H. Hennings, K. Elgjo, S. H. Yuspa*
433	Lack of susceptibility of F344 rats to mammary tumor induction by topically applied fluorenylacetohydroxamic acids and their acetates	*D. Malejka-Giganti, R. E. Rydell*
437	Studies of the mechanisms for the induction of in vivo tumor immunity. II. Distribution and homing of cytotoxic effector and precursor cells	*Chou-Chik Ting*
445	Incidence, latency, and morphologic types of neoplasms induced by simian virus 40 inoculated intravenously into hamsters of three inbred strains and one outbred stock	*George T. Diamandopoulos*
451	Failure of immunotherapy with neuraminidase-treated tumor cell vaccine in mice bearing established 3-methylcholanthrene-induced sarcomas	*Robert J. Spence, Richard M. Simon, Alan R. Baker*
461	Oncogenicity of murine mammary tumor virus produced in tissue culture: *Brief Communication*	*Larry O. Arthur, Donald L. Fine, Peter Bentvelzen*
465	Effects of perinatal progesterone on mouse mammary differentiation in vitro: *Brief Communication*	*M. R. Warner*
469	Effects of endocrinologic conditions associated with acute versus chronic lactation on the incidence of mammary carcinomas in irradiated rats: *Brief Communication*	*Michael N. Gould, Kelly H. Clifton, John Crowley*
173	Multiple autotransplantation of rat mammary tumors induced by 7,12-dimethylbenz[*a*]anthracene: *Brief Communication*	*Chung Lee, Ann Shih, Ryoichi Oyasu*
477	A procedure for culture of cells from mouse tail biopsies: *Brief Communication*	*Marilyn R. Lander, Bernice Moll, Wallace P. Rowe*

Special Report

479 Lost Colony: Laboratory of Experimental Oncology, San Francisco, 1947-54: *Historical Note* — *Michael B. Shimkin*

Correction

489 August 1977, Vol. 59, No. 2: Report of NCI Ad Hoc Working Group on the Risks Associated With Mammography in Mass Screening for the Detection of Breast Cancer

Vol 60, No. 3—MARCH 1978

491 In This Issue

Letters to the Editor

493 On the "Lucké tumor" origin of cell line LT-1 — *Jerome J. Freed, Lorraine H. Toji, Arthur E. Greene*

495 Reply — *Louis S. Kucera, Janice Simonson, Stephen J. O'Brien, Hayden Coon*

Investigations on Man

497 In vitro suppression of normal granulocytic stem cells by inhibitory activity derived from human leukemia cells — *Hal E. Broxmeyer, Niels Jacobsen, Jeffrey Kurland, Naomi Mendelsohn, Malcolm A. S. Moore*

513 Evidence for a proliferative advantage of human leukemia colony-forming cells in vitro — *Hal E. Broxmeyer, Elliot Grossbard, Niels Jacobsen, Malcolm A. S. Moore*

523 Viability of the human cervical epithelium with dysplasia and carcinoma in situ — *C. A. Rubio, B. Lagerlöf, Y. Kock, G. Söderberg, P. Thomassen*

527 Cell-mediated immune response to simian oncornavirus antigens in pregnant women — *L. Thiry, S. Sprecher-Goldberger, M. Bossens, F. Neuray*

533 Inhibition of deoxynucleotide-polymerizing enzyme activities of human leukemia lymphoblasts and simian sarcoma virus by tilorone and thirteen of its analogs — *Richard A. DiCioccio, B. I. Sahai Srivastava*

537 Antigens associated with acute leukemia detected in the primed lymphocyte test — *Nancy L. Reinsmoen, John H. Kersey, Edmond J. Yunis*

545 Cancer incidence and mortality trends in the United States: 1935-74 — *Susan S. Devesa, Debra T. Silverman*

573 Multiple effects of glucocorticoids and hyperosmolality on isoenzyme expression in cultured KB cells — *Robert M. Singer, Fritz Herz*

579 Investigation of human urogenital tract tumors for papovavirus etiology: *Brief Communication* — *Keerti V. Shah, Richard W. Daniel, Kenneth R. Stone, Arthur Y. Elliott*

Investigations on Nonhuman Systems

583 Invasion of liver tissue by tumor cells and leukocytes: Comparative ultrastructure — *K. P. Dingemans, E. Roos, M. A. van den Bergh Weerman, I. V. van de Pavert*

599 Antitumor antibody synthesis in vitro induced in mouse spleen cells by xenogeneic immune RNA — *David H. Kern, Yosef H. Pilch*

605	Effects of administration to mice of butylated hydroxyanisole by oral intubation on benzo[*a*]pyrene-induced pulmonary adenoma formation and metabolism of benzo[*a*]pyrene	*Jennine L. Speier, Luke K. T. Lam, Lee W. Wattenberg*
611	Mammary tumors, hepatocellular carcinomas, and pancreatic islet changes in C3H-A^{vy} mice	*Bernard Sass, Mina Lee Vernon, Robert L. Peters, Gary J. Kelloff*
623	Rejection of a transplantable Marek's disease lymphoma in normal versus immunologically deficient chickens	*B. W. Calnek, J. Fabricant, K. A. Schat, K. K. Murthy*
633	Effect of low phenylalanine diet on murine leukemia L1210	*Martin J. Pine*
643	In vitro alpha-fetoprotein synthesis by monkey hepatocellular carcinoma	*Gerald L. Princler, K. Robert McIntire, Richard H. Adamson*
649	Flow microfluorometric analysis of P388 murine leukemia after administration of vincristine and maytansine in vivo	*Oliver Alabaster, Mary Cassidy*
653	Antitumor activity of purified cell walls from *Corynebacterium parvum*	*V. Riveros-Moreno, R. Bomford, M. T. Scott*
659	Antitumor activity of interferon against murine osteogenic sarcoma cells in vitro	*Lowell A. Glasgow, John L. Crane, Jr., Earl R. Kern*
667	Immunologic surveillance against chemically induced primary colon carcinoma in rats	*Subhash C. Bansal, Raymond Mark, Bharti R. Bansal, Jonathan E. Rhoads, Jr.*
677	Oncornavirus lytic activity in the serum of gibbon apes	*R. E. Gallagher, A. W. Schrecker, C. A. Walter, R. C. Gallo*
683	Carcinogenicity of some folk medicinal herbs in rats	*Govind J. Kapadia, E. B. Chung, B. Ghosh, Y. N. Shukla, S. P. Basak, J. F. Morton, S. N. Pradhan*
687	Tumor cell cytotoxicity by granulocytes from peripheral blood of tumor-bearing mice	*Bernard Fisher, Elizabeth A. Saffer*
693	Leukocyte migration inhibition of tumor antigen and purified protein derivative reactivity in guinea pigs sensitized to line 10 hepatocarcinoma and BCG	*J. L. McCoy, J. Brandhorst, M. G. Hanna, Jr.*
701	Experimental pancreatic carcinogenesis. II. Lifetime carcinogenesis studies in the outbred Syrian golden hamster with *N*-nitroso-bis(2-hydroxypropyl)amine	*Morton Levitt, Curtis Harris, Robert Squire, Martin Wenk, Cynthia Mollelo, Stephen Springer*
707	Spontaneous and induced preleukemia cells in C57BL/6 mice: *Brief Communication*	*Nechama Haran-Ghera*
711	Effect of hyperthermia on vascular functions of normal tissues and experimental tumors: *Brief Communication*	*Chang W. Song*
715	Detection of metastatic tumors in nude mice: *Brief Communication*	*Sam D. Graham, Jr., Don D. Mickey, David F. Paulson*

Special Report

717	International Workshop on Hepatitis B and Liver Cancer	*John L. Ziegler, Richard H. Adamson, Lewellys F. Barker, Joseph F. Fraumeni, Jr., John Gerin, Robert H. Purcell*

Announcements

719	International Symposium on the CNS Complications of Malignant Disease, 1978
719	Seventh Annual Meeting of the International Society for Experimental Hematology
719	Meeting of the International Research Group for Carcinoembryonic Proteins

Vol 60, No. 4—APRIL 1978

721 In This Issue

Guest Editorial

723 Established principles and unresolved problems in carcinogenesis — *I. Berenblum*

Letters to the Editor

727 Dose-response relationship in radiogenic breast cancer — *Irwin D. J. Bross*

728 Reply — *Roy E. Shore*

728 Reply — *Charles E. Land, Douglas H. McGregor*

729 Reply — *John D. Boice, Jr.*

Investigations on Man

731 Prognostic factors in the initial response to therapy by patients with advanced breast cancer — *Stephen L. George, Barth Hoogstraten*

737 Abnormal monocyte chemotaxis in patients with breast cancer: Evidence for a tumor-mediated effect — *R. Snyderman, L. Meadows, W. Holder, S. Wells, Jr.*

741 Surface charge characteristics of peripheral blood lymphocytes in chronic lymphatic leukemia and malignant lymphoma — *Y. Marikovsky, P. Resnitzky, N. Reichman*

749 Differential chemotherapeutic susceptibility of human T-lymphocytes and B-lymphocytes in culture — *Takao Ohnuma, Hadara Arkin, Jun Minowada, James F. Holland*

753 Ultrastructural study of the normal mucosa-adenoma-cancer sequence in the development of familial polyposis coli — *Sanjida Mughal, M. I. Filipe*

769 Decreased correlation between the agarose leukocyte migration inhibition assay and delayed cutaneous hypersensitivity response to purified protein derivative in cancer patients — *Darwin O. Chee, E. Carmack Holmes, Donald L. Morton*

773 Purification and immunologic evaluation of human melanoma-associated antigens — *R. P. McCabe, S. Ferrone, M. A. Pellegrino, D. H. Kern, E. C. Holmes, R. A. Reisfeld*

779 Immune responses in human colon cancer. II. Cytotoxic antibody detected in patients' sera — *William V. Hahn, Martin F. Kagnoff, Loren H. Hatlen*

785 Efficacy of BCG vaccination in prevention of cancer: An update: *Brief Communication* — *Dixie E. Snider, George W. Comstock, Isidro Martinez, Gus J. Caras*

789 Cytotoxic activity of methylene bis-nucleotides: *Brief Communication* — *M. Y. Feldman, Henny Balabanova*

793 Comparison of the stimulating capacity of human leukemia T-cell, null cell, and B-cell lines in mixed lymphocyte culture: *Brief Communication* — *Teruhiko Tsubota, Isao Miyoshi, Junzaburo Uno, Shunkichi Hiraki, Ikuro Kimura*

797 Replicative epithelial cell cultures from normal human prostate gland: *Brief Communication* — *J. F. Lechner, K. Shankar Narayan, Y. Ohnuki, M. S. Babcock, L. W. Jones, M. E. Kaighn*

Investigations on Nonhuman Systems

803 Friend virus-induced inhibition of eosinophil granulocyte exudation in mice — *Michael P. McGarry, Bruce D. Styles, Edwin A. Mirand*

811	Further studies on the relationship between large glycoprotein molecules and allotransplantability in the TA3 tumor of the mouse: Studies on segregating TA3-Ha hybrids	*John F. Codington, George Klein, Amiel G. Cooper, Nora Lee, Michael C. Brown, Roger W. Jeanloz*
819	Tobacco-specific nitrosamines: Formation from nicotine in vitro and during tobacco curing and carcinogenicity in strain A mice	*Stephen S. Hecht, Chi-hong B. Chen, Norio Hirota, Raphael M. Ornaf, T. C. Tso, Dietrich Hoffmann*
825	Tissue enzyme changes in parabiotic rats with subcutaneous lymphoma or fibrosarcoma	*Annemarie Herzfeld, Olga Greengard, Shields Warren*
829	Resistance to Marek's disease. Effect of *Corynebacterium parvum* and Marek's tumor cell vaccines on tumorigenesis in chickens	*John Donahoe, Stanley Kleven, Caswell Eidson*
835	Relationship between temperature and blood supply or consumption of oxygen and glucose by rat mammary carcinomas	*Pietro M. Gullino, Pon-Nyong Yi, Flora H. Grantham*
849	Carcinogenesis induced by 7,12-dimethylbenz[*a*]anthracene in C3H-A^{vy}/B mice: Influence of different dietary fats	*G. J. Hopkins, G. C. Hard, C. E. West*
855	Relationship between organotropism and leukemogenicity of type C RNA viruses as demonstrated in NIH Swiss mice inoculated at birth with Gross murine leukemia virus	*Kenji Nagao, Yuso Kodama, Katsutomo Hamada, Kenjiro Yokoro*
861	Cytoplasmic inclusions in spontaneous hepatomas of CBA/H-T6T6 mice. Histochemistry and electron microscopy	*Bryan J. Helyer, Mary Petrelli*
871	Experimental horizontal transmission of feline leukemia viruses of subgroups A, B, and C	*Padman S. Sarma, T. Log, Suzanne Skuntz, Surekha Krishnan, Kathryn Burkley*
875	Effect of the *Fv-1* locus in vivo: Host range pseudotypes of murine sarcoma virus	*James A. Otten, Fred E. Myer, Raymond W. Tennant, Arthur Brown*
881	Measurement of mammary tumor blood flow in unanesthetized rats	*Randy Jirtle, Kelly H. Clifton, John H. G. Rankin*
887	Modification of radiation response of murine tumors by misonidazole (Ro 07-0582), host immune capability, and *Corynebacterium parvum*	*Helen B. Stone, Luka Milas*
895	Simian virus 40 (SV40) production from SV40-transformed human amnion cells of established lines	*Jørgen Fogh, James Loveless*
899	Antitumor immunity in strain 2 guinea pigs immunized with potassium chloride extracts of L_2C tumor cells	*Donald P. Braun, James C. D. Hengst, Margalit B. Mokyr, Sheldon Dray*
905	Alterations in bone marrow and thymus lymphocytes in virus-inoculated, inbred, preleukemic AKR/J mice: *Brief Communication*	*Esther F. Hays, Dorothy R. Haskett, Catherine J. Kaspersky, Charles G. Craddock*
911	Metabolism of the pancreatic carcinogen *N*-nitroso-bis(2-oxopropyl)amine after oral and intraperitoneal administration to Syrian golden hamsters: *Brief Communication*	*Ralph Gingell, Parviz Pour*
915	DNA synthesis and thymidine kinase activity of rat colon epithelial cells fractionated by discontinuous Ficoll gradient: *Brief Communication*	*A. Mazumder, R. N. Patnaik, B. S. Bhagavan, P. P. Nair*
919	Induction of intracisternal type A particles by 5-bromo-2′-deoxyuridine in rat hepatoma cells: *Brief Communication*	*Heather W. Weber, Ann Geddes, Robert H. Stellwagen*
925	Conversion of a poorly differentiated human adenocarcinoma to ascites form with invasion and metastasis in nude mice: *Brief Communication*	*Seiichi Takahashi, Yoichi Konishi, Katsunori Nakatani, Shoji Inui, Kiyohide Kojima, Tsuneo Shiratori*
931	Proof of in vivo fusion of murine tumor cells with host cells by universal fusers: *Brief Communication*	*Rosalie Ber, Francis Wiener, Eva-Maria Fenyö*

Announcements

935 Annual Tissue Culture Association Meeting

935 Twelfth International Leukocyte Culture Conference

935 G. v. Hevesy Medal and Prize for Nuclear Medicine

935 Symposium on the Behaviour of Tritium in the Environment

Vol 60, No. 5—MAY 1978

937 In This Issue

Investigations on Man

941 Epstein-Barr virus-immune complexes in postmortem kidneys from African patients with Burkitt's lymphoma and American patients with and without lymphoma — *J. C. Sutherland, C. L. M. Olweny, P. H. Levine, M. R. Mardiney, Jr.*

947 Effects of progesterone on human endometrial carcinoma cells in vivo and in vitro — *Isamu Ishiwata, Yasuhiro Udagawa, Hideo Okumura, Shiro Nozawa*

955 Familial breast cancer: Risk to the contralateral breast — *Randall E. Harris, Henry T. Lynch, Hoda A. Guirgis*

961 Expression of human T-lymphocyte antigens by natural killer cells — *Joseph Kaplan, Denis M. Callewaert*

965 Estrogen profiles in young women: Effect of maternal history of breast cancer — *R. W. Morgan, D. V. Vakil, J. B. Brown, L. Elinson*

969 Use of the leukocyte migration inhibition assay to evaluate antigenic differences in human breast cancers and melanomas — *G. B. Cannon, J. L. McCoy, R. J. Connor, L. Jerome, L. Keys, J. H. Dean, R. B. Herberman*

979 Transformation of human embryo cells with the use of cell-free extracts of a human rhabdomyosarcoma cell line (HUS-2): *Brief Communication* — *B. Cook, F. O'Sullivan, J. Leung, P. Morse, B. Graham, A. L. Chapman*

985 Incidence of endometrial carcinoma in King County, Washington: A standardized histologic review: *Brief Communication* — *Daniel R. Szekely, Noel S. Weiss, Abraham I. Schweid*

991 State of Epstein-Barr virus DNA in an American Burkitt's lymphoma line: *Brief Communication* — *Steve Koliais, Gunnar Bjursell, Alice Adams, Tomas Lindahl, George Klein*

Investigations on Nonhuman Systems

995 Competing-risk analysis of leukemia and nonleukemia mortality in X-irradiated, male RF mice — *Charles V. Robinson, Arthur C. Upton*

1009 Gamma-glutamyl transpeptidase: A positive marker for cultured rat liver cells derived from putative premalignant and malignant lesions — *Brian A. Laishes, Katsuhiro Ogawa, Esther Roberts, Emmanuel Farber*

1017 Comparison of the densities of clonogenic cells from EMT6 fibrosarcoma monolayer cultures, multicell spheroids, and solid tumors in Ficoll density gradients — *C. E. Ng, W. R. Inch*

1023 Effect of lucanthone hydrochloride on the radiation response of intestine and bone marrow of the Chinese hamster — *A. J. Milligan, H. R. Katz, D. B. Leeper*

1029	Comparison of the antitumor activity and toxicity of 2,4-diamino-5-(1-adamantyl)-6-methylpyrimidine and 2,4-diamino-5-(1-adamantyl)-6-ethylpyrimidine	*Sigmund F. Zakrewski, Chandrakant Dave, Fred Rosen*
1035	Characterization of the inhibitory effects of retinoids on the in vitro growth of two malignant murine melanomas	*Reuben Lotan, Gregory Giotta, Elizabeth Nork, Garth L. Nicolson*
1043	Cell kinetics after vincristine treatment of C3H/He spontaneous mammary tumors: Implications for therapy	*Paul G. Braunschweiger, Lewis M. Schiffer*
1049	Biochemical parameters of resistance of an adriamycin-resistant subline of P388 leukemia to emetine, an inhibitor of protein synthesis	*Manik P. Chitnis, Randall K. Johnson*
1055	Effect of phospholipids on maintenance of the cytotoxicity of 1-(2-chloroethyl)-3-cyclohexyl-1-nitrosourea in aqueous suspension	*Howard S. Maker, Hasan H. Syed, Gerard M. Lehrer*
1059	Effect of BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. I. Effect of different BCG treatments on cytotoxicity mediated by T-cells and macrophages	*Martin Davies, Edris Sabbadini*
1069	Effect of BCG on alloimmune cell-mediated cytotoxicity in (C57BL/6J♀ × A/J♂)F_1 mice. II. Correlation with BCG activity in syngeneic tumor systems	*Martin Davies, Edris Sabbadini*
1075	Characterization of an apparently nononcogenic Marek's disease virus	*K. A. Schat, B. W. Calnek*
1083	Growth inhibition of normal or drug-treated lymphoma cells in lethally irradiated mice	*C. Riccardi, M. C. Fioretti, A. Giampietri, P. Puccetti, A. Goldin, E. Bonmassar*
1091	Tumor cell threshold required for suppression of macrophage inflammation	*Sigurd J. Normann*
1097	In vitro induction of cell-mediated immunity to murine leukemia cells. III. Effect of methanol extraction residue fraction of BCG on the generation of cytotoxic lymphocytes against leukemia	*Eli Kedar, Fathallah Nahas, Eilat Unger, David W. Weiss*
1107	Immunity against MOPC 104E plasmacytoma: Effects of tumor size and time post therapy on in vivo tumor immunity	*R. A. Lubet, D. E. Carlson*
1113	Carcinogenic and antitumor effects of aminotriazole on acatalasemic and normal catalase mice	*Robert N. Feinstein, R. J. Michael Fry, Everett F. Staffeldt*
1117	Effect of adriamycin on the reproductive integrity of cultured leukemia L1210 and P388 cells	*Lee J. Wilkoff, Elizabeth Ann Dulmadge, Harris H. Lloyd*
1121	Enhancement of the tumorigenicity of preneoplastic mammary nodule lines by enzymatic dissociation	*Daniel Medina, F. Shepherd, T. Gropp*
1127	Carcinogenicity and acute toxicity of dimethylnitrosamine in rainbow trout (*Salmo gairdneri*)	*M. P. Grieco, J. D. Hendricks, R. A. Scanlan, R. O. Sinnhuber, D. A. Pierce*
1133	Aflatoxin B_1 induction of hepatocellular carcinoma in the embryos of rainbow trout (*Salmo gairdneri*)	*J. H. Wales, R. O. Sinnhuber, J. D. Hendricks, J. E. Nixon, T. A. Eisele*
1141	A phosphonoacetate-resistant mutant of herpesvirus of turkeys	*Lucy F. Lee, K. Nazerian, R. L. Witter, Susan S. Leinbach, John A. Boezi*
1147	Kinetic response of cultured Chinese hamster cells to treatment with 4′-[(9-acridinyl)-amino]methanesulphon-*m*-anisidide-HCl	*Robert A. Tobey, Larry L. Deaven, Melvin S. Oka*
1155	Cell-cycle-specific chromosome damage following treatment of cultured Chinese hamster cells with 4′-[(9-acridinyl)-amino]methanesulphon-*m*-anisidide-HCl	*Larry L. Deaven, Melvin S. Oka, Robert A. Tobey*

1163	Immunotherapy of bilateral lymph node metastases in guinea pigs by intralesional or paralesional injection of *Mycobacterium bovis* (BCG)	*B. Zbar, J. T. Hunter, H. J. Rapp, G. F. Canti*
1169	Effect of ethynodiol diacetate with ethinyl estradiol on the mammary glands of rhesus monkeys: A preliminary report	*Victor A. Drill, Peter L. Golway*
1171	Tumorigenic effect of an organomanganese compound on F344 rats and Swiss albino mice: *Brief Communication*	*Arthur Furst*
1175	Cyclic adenosine 3',5'-monophosphate-binding protein: Role in ovariectomy-induced regression of a hormone-dependent mammary tumor in Sprague-Dawley female rats: *Brief Communication*	*Yoon Sang Cho-Chung, Jeffrey S. Bodwin, Timothy Clair*
1179	Sister chromatid exchanges and growth inhibition induced by the flame retardant tris(2,3-dibromopropyl) phosphate in Chinese hamster cells: *Brief Communication*	*M. Furukawa, S. R. Sirianni, J. C. Tan, C. C. Huang*

Guest Editorials

1191	Interferons and cancer	*Robert M. Friedman*
1195	Cancer epidemics in the People's Republic of China	*Robert W. Miller*

Letters to the Editor

1205	Lung organ-specific antigens on cells with HeLa marker chromosomes	*Walter A. Nelson-Rees*
1206	Reply	*R. A. Akeson*
1207	Reply	*Relda Cailleau*

Investigations on Man

1209	Contrasts in survival of black and white cancer patients, 1960–73	*Lillian M. Axtell, Max H. Myers*
1217	Isolation and metastatic properties of detachment variants of B16 melanoma cells	*Eve Barak Briles, Stuart Kornfeld*
1223	Comparison of age-specific mortality from breast cancer in males in the United States and Japan	*Suresh H. Moolgavkar, John A. H. Lee, R. Douglas Hade*
1227	Inhibition of DNA synthesis and alteration of cyclic adenosine 3′,5′-monophosphate levels in RSa cells by human leukocyte interferon	*Akira Fuse, Tsuguo Kuwata*
1233	Cancer incidence in a religious isolate of Alberta, Canada, 1953–74	*L. A. Gaudette, T. M. Holmes, L. M. Laing, K. Morgan, M. G. A. Grace*
1239	Response of plasma histaminase activity to heparin in normal subjects and in patients with small cell carcinoma of the lung	*David S. Ettinger, Stephen B. Baylin, Deanna Minaberry, Martin D. Abeloff, E. David Mellits*
1243	Thirteen cases of leukemia in a family	*F. W. Gunz, J. P. Gunz, P. C. Vincent, M. Bergin, F. L. Johnson, H. Bashir, R. L. Kirk*
1251	Correction of the modal DNA values obtained by microspectrophotometry and tests for their shifts	*Takashi Okagaki, Masuru Izuo*
1259	Leukocyte migration inhibition and lymphocyte blastogenesis responses in breast carcinoma patients to mouse mammary tumor virus and to virion gp52 antigen and Rauscher murine leukemia virus–Kirsten sarcoma virus gp69/71 antigen	*J. L. McCoy, J. H. Dean, G. B. Cannon, L. J. Jerome, T. C. Alford, W. P. Parks, R. V. Gilden, S. T. Oroszlan, R. B. Herberman*
1269	Expression of an antigen associated with acute lymphoblastic leukemia in human leukemia–lymphoma cell lines	*Jun Minowada, George Janossy, Melvyn F. Greaves, Teruhiko Tsubota, B. I. Sahai Srivastava, Shigeru Morikawa, Eiji Tatsumi*
1279	Blocking plasma factors of migration inhibition factor production in patients with cervical carcinoma: A possible role in vivo	*L. Favila, L. Jiménez, M. E. Castro, G. García-García, A. Gutierrez, I. Pulido*
1283	Spontaneous human mononuclear cell cytotoxicity to cultured tumor cells: Reproducibility of serial measurements with the use of a chromium-51-release microcytotoxicity assay	*Arleen C. Levin, Richard J. Massey, Friedrich Deinhardt*
1295	Lack of functional immunoregulatory cells in a patient with mycosis fungoides and circulating Sézary cells: *Brief Communication*	*Vali Kermani-Arab, Janet L. Roberts, Jon M. Hanifin, Gerrie A. Leslie*
1301	Differences in purine metabolizing enzyme activities in human leukemia T-cell, B-cell, and null cell lines: *Brief Communication*	*George L. Tritsch, Jun Minowada*
1305	Morphologic evidence for retrovirus production by epithelial cells derived from a human testicular tumor metastasis: *Brief Communication*	*David L. Bronson, Donna M. Ritzi, Elwin E. Fraley, Albert J. Dalton*
1309	Synergistic cytotoxicity for L929 cells of polyriboinosinic-polyribocytidylic acid and amphotericin B methyl ester: *Brief Communication*	*Ernest C. Borden*

Investigations on Nonhuman Systems

1313	Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. I. Ganglioside alterations in liver tumorigenesis and normal development	*William D. Merritt, Carol L. Richardson, Thomas W. Keenan, D. James Morre*

1329	Gangliosides of liver tumors induced by *N*-2-fluorenylacetamide. II. Alterations in biosynthetic enzymes	*William D. Merritt, D. James Morré, Thomas W. Keenan*
1339	Production of adenocarcinomas of the small intestines of Wistar rats fed Panfuran-S containing 3-di(hydroxymethyl)-amino-6-(5-nitro-2-furylethenyl)-1,2,4-triazine	*Yoichi Konishi, Ayumi Denda, Seiichi Takahashi, Shoji Inui, Yoshinari Aoki*
1345	Hormone-dependent mammary tumors in strain GR/A mice. IV. Origin and progression	*Bruce D. Aidells, C. W. Daniel*
1351	Mammary nodules in beagle dogs administered investigational oral contraceptive steroids	*R. C. Giles, R. P. Kwapien, R. G. Geil, H. W. Casey*
1365	Tumor antigen induction by the envelope-defective Bryan strain of Rous sarcoma viruses	*Reinhard Kurth, Gay Kitchener*
1371	Tissue localization of zinc glycinate marker and carcinoembryonic antigen by immunofluorescence. I. Preparation of antisera against the zinc glycinate marker	*C. A. Saravis, S. K. Oh, G. Pusztaszeri, W. G. Doos, N. Zamcheck*
1375	Tissue localization of zinc glycinate marker and carcinoembryonic antigen by immunofluorescence. II. Immunofluorescence microscopy	*W. G. Doos, C. A. Saravis, G. Pusztaszeri, B. Burke, S. K. Oh, N. Zamcheck, L. S. Gottlieb*
1383	Restriction to the cell nucleus of virus-induced host RNA's in a rat kidney tumor induced by polyoma virus	*Ruth Whisler Shearer*
1387	In situ Fc receptor-bearing cells in two murine tumors. I. Isolation and identification	*J. H. Korn, J. S. Haskill, H. T. Holden, L. A. Radov, F. L. Ritter*
1391	In situ Fc receptor-bearing cells in two murine tumors. II. Role in tumor immunity	*J. H. Korn, J. S. Haskill, H. T. Holden, L. A. Radov, F. L. Ritter*
1399	Involvement of chromosome #2 in chromosome changes in primary leukemia induced in rats by *N*-nitroso-*N*-butylurea	*Hiroshi Uenaka, Norifumi Ueda, Sakan Maeda, Taketoshi Sugiyama*
1405	Histogenesis of symmetrical 1,2-dimethylhydrazine-induced neoplasms of the colon in the mouse	*William W. L. Chang*
1419	Stimulation of malignant skin cells by antibody to normal skin cells of mice	*Margaret L. Heidrick, Wayne L. Ryan, Gary L. Curtis*
1427	Resistance to syngeneic lymphoma cells as a result of immunization with chemically modified allogeneic lymphoma cells in mice	*R. W. Gillette, D. C. Berringer, D. A. Wunderlich*
1433	Mouse natural cell-mediated cytotoxicity to human leukemia: Independence of serum source used for target-cell culturing and cytotoxicity assay	*Otto Haller*
1439	Immunologic studies on a pancreatic oncofetal protein	*Anastasios A. Mihas*
1445	Pathology of hepatomas and other liver abnormalities in English sole (*Parophrys vetulus*) from the Duwamish River Estuary, Seattle, Washington	*Kenneth V. Pierce, Bruce B. McCain, S. R. Wellings*
1455	Cytology and quantitative cytochemistry of a proliferative atypical hemocytic condition in *Mytilus edulis* (Bivalvia, Mollusca)	*D. M. Lowe, M. N. Moore*
1461	Effect of a mouse mammary tumor virus-derived protein vaccine on primary tumor development in mice	*Paula Creemers, Jacqueline Ouwehand, Peter Bentvelzen*
1467	Genetic control of immune responses to Moloney leukemia virus in rats	*Joe M. Jones, Fred Jensen, Joseph D. Feldman*
1473	Leukemogenicity of clonal isolates of murine leukemia viruses	*Paul Jolicoeur, Naomi Rosenberg, Anne Cotellessa, David Baltimore*
1477	Effects of combined radiotherapy and immunotherapy with the use of pyran copolymer on murine fibrosarcoma	*Amy L. Tsui Collins, Chang W. Song*

1483 Effect of anticancer chemotherapeutic agents on immune reactions of mice. I. Comparison of two nitrosoureas: 1,3-Bis(2-chloroethyl)-1-nitrosourea and 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitrosourea — *Abdul Ghaffar, Wolf Lichter, Larry L. Wellham, M. Michael Sigel*

1489 Dose response to intrarectal administration of *N*-methyl-*N*-nitrosourea and histopathologic evaluation of the effect of two retinoids on colon lesions induced in rats — *Jerrold M. Ward, Michael B. Sporn, Martin L. Wenk, Joseph M. Smith, Deborah Feeser, R. John Dean*

1495 Mutagenicity of nitrosourea compounds for *Salmonella typhimurium: Brief Communication* — *Angela E. Auletta, Anne G. Martz, Amar S. Parmar*

1499 Antitumor activity of a boiled scallop extract: *Brief Communication* — *Takuma Sasaki, Nobuo Takasuka, Noriko Abiko*

1501 Effect of bile acids and neutral sterols on benzo[*a*]pyrene-induced tumorigenesis in skin of mice: *Brief Communication* — *Kenshi Watanabe, Tomio Narisawa, C. Q. Wong, John H. Weisburger*

1505 Incidence of spontaneous ileocecal immunocytomas in hybrids of LOU/C rats and rat strains with low spontaneous tumor incidence: *Brief Communication* — *Andrée Beckers, Hervé Bazin*

1509 Lymphocytotoxic autoantibodies eluted from in vivo propagating sarcoma cells of mice: *Brief Communication* — *Maya Ran, Margalit Yaakubowicz, Isaac P. Witz*

1515 Inhibition of 1,2-dimethylhydrazine-induced neoplasia of the large intestine in female CF_1 mice by carbon disulfide: *Brief Communication* — *Lee W. Wattenberg, Emerich S. Fiala*

Letters to the Editor

3 Supplementary information on pH, hyperthermia, and cell survival: Tumor hyperacidification and multistep cancer therapy — *M. von Ardenne, P. G. Reitnauer*

4 Reply — *M. L. Freeman, W. C. Dewey, L. E. Hopwood*

Guest Editorial

5 Suppressor cells in neoplastic disease — *Samuel Broder, Linda Muul, Thomas A. Waldmann*

13 Schistosomiasis and neoplasia — *Allen W. Cheever*

Investigations on Man

19 Epstein-Barr virus infections in Brazil. II. Hodgkin's disease — *Alfred S. Evans, Renato P. S. Carvalho, Patricia Frost, Michel Jamra, Diana H. B. Pozzi*

27 Physicochemical properties and isoenzyme composition of hexokinase from normal and malignant human tissues — *N. K. Monakhov, E. L. Neistadt, M. M. Shavlovskiĭ, A. L. Shvartsman, S. A. Neĭfakh*

35 Relationship between epidemiologic and endocrinologic aspects of cervical cancer — *Mitsuo Kodama, Toshiko Kodama, Ryozo Totani, Kunio Aoki*

41 Estimates of the composite risk factors for death from breast cancer — *Dean F. Davies, Andre Torng, Elizabeth B. Morris, Jeno Sebes*

49 The multistage theory of carcinogenesis and the age distribution of cancer in man — *Suresh H. Moolgavkar*

53 Nuclear magnetic resonance and detection of human breast tumors — *W. M. M. J. Bovée, K. W. Getreuer, J. Smidt, J. Lindeman*

57 Quantitation of secretory component levels in cyst fluids, ascitic fluids, and sera from ovarian adenocarcinoma patients — *Jerry L. Klein, Stanley A. Gall, Jeffrey R. Dawson*

61 Solubilization and partial isolation of human melanoma tumor-associated antigens — *Gary M. Stuhlmiller, Robert W. Green, H. F. Seigler*

69 Selective killing of oncogenic human cells cocultivated with normal human fibroblasts — *Robert C. Warrington*

75 Further biologic characteristics of a human carcinoembryonic antigen-producing colon carcinoma cell line — *Benjamin Drewinko, Li-Ying Yang, Barthel Barlogie, Marvin Romsdahl, Marvin Meistrich, Mary Anne Malahy, Beppino Giovanella*

Investigations on Nonhuman Systems

85 Dehydroretronecine-induced skin tumors in mice — *William D. Johnson, Kent A. Robertson, Joel G. Pounds, James R. Allen*

91 Type B and type C RNA tumor virus replication in single cells. Electron microscopy with tannic acid — *G. Schidlovsky, G. P. Shibley, C. V. Benton, J. E. Elser*

97 Enhancement of carcinogenesis by prostaglandins in male albino Swiss mice — *A. Lupulescu*

107 Immune reactivity of RBL-3, a nonproducer leukemia induced by Rauscher murine leukemia virus in C57BL/6 mice — *Kenneth S. S. Chang*

113 Quantitative kinetics of development of *N*-2-fluorenylacetamide-induced, altered (hyperplastic) hepatocellular foci resistant to iron accumulation and of their reversion or persistence following removal of carcinogen — *Gary M. Williams, Kenshi Watanabe*

123 Protection against 7,12-dimethylbenz[*a*]anthracene-induced rat mammary carcinoma by infection with mouse xenotropic type C virus — *Owen S. Weislow, Patton T. Allen, Roger E. Shepherd, Daniel R. Twardzik, Arnold K. Fowler, Alfred Hellman*

131 Effect of reovirus infection on pulmonary tumor response to urethan in strain A mice — *Jeffrey C. Theiss, Gary D. Stoner, Alexis J. Kniazeff*

135	Effects of 7,8-benzoflavone on skin tumor-initiating activities of various 7- and 12-substituted derivatives of 7,12-dimethylbenz[*a*]anthracene in mice	*J. DiGiovanni, T. J. Slaga, A. Viaje, D. L. Berry, R. G. Harvey, M. R. Juchau*
141	Induction of intestinal metaplasia in the stomachs of rats by *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine	*Norio Matsukura, Takashi Kawachi, Koji Sasajima, Tomono Sano, Takashi Sugimura, Teruyuki Hirota*
145	Zinc deficiency and methylbenzylnitrosamine-induced esophageal cancer in rats	*Louise Y. Y. Fong, Andrew Sivak, Paul M. Newberne*
151	Fucosyltransferase activity in metastasizing and nonmetastasizing rat mammary carcinomas	*Sunil K. Chatterjee, Untae Kim*
163	Virus-specific markers and virus-like particles in cell lines of tumors produced by CELO virus in Syrian golden hamsters	*Bonnie B. Asch, Kenneth J. McCormick, Wayne A. Stenback, John J. Trentin*
173	Delay of tumor growth in hamsters treated with lynestrenol and effect of *Staphylococcus aureus* Cowan A	*Joseph Wybran, Lise Thiry*
177	Selective sex-related modification of diethylnitrosamine-induced carcinogenesis in BALB/c mice by concomitant administration of butylated hydroxytoluene	*Neal K. Clapp, Richard L. Tyndall, Lou C. Satterfield, William C. Klima, Norman D. Bowles*
183	Isotope-release cytotoxicity assay with the use of indium-111: Advantage over chromium-51 in long-term assays	*R. H. Wiltrout, P. Frost, G. D. Cummings*
189	Effect of embryonic tissue immunization on chemically induced gastrointestinal tumors in rats. I. Can embryonic antigens act as rejection antigens?	*Bharti R. Bansal, Raymond Mark, Jonathan E. Rhoads, Jr., Subhash C. Bansal*
203	Cell-surface major glycoprotein of BALB/c mouse plasmacytoma 58-8 cells	*Haruhiko Tokuyama, Shunsuke Migita*
209	Separation of cells from a murine fibrosarcoma on the basis of size. I. Relationship between cell size and age as modified by growth in vivo or in vitro	*D. J. Grdina, L. J. Peters, S. Jones, E. Chan*
215	Separation of cells from a murine fibrosarcoma on the basis of size. II. Differential effects of cell size and age on lung retention and colony formation in normal and preconditioned mice	*D. J. Grdina, L. J. Peters, S. Jones, E. Chan*
221	Radioimmunoassay for benzo[*a*]pyrene	*Norman Y. Kado, Eddie T. Wei*
227	Chromosome changes (trisomies #15 and 17) associated with tumor progression in leukemias induced by radiation leukemia virus	*Francis Wiener, Shinsuke Ohno, Jack Spira, Nechama Haran-Ghera, George Klein*
239	Carcinogenicity of subcutaneously injected *N*-nitrosoheptamethyleneimine in European hamsters	*Gerd Reznik, Ulrich Mohr, William Lijinsky*
245	Enhancement of heterotransplanted human tumor graft survival in nude mice treated with antilymphocyte serum and in congenitally athymic-asplenic (lasat) mice	*M. Eric Gershwin, Richard M. Ikeda, Kent Erickson, Robert Owens*
249	Serologic and immunochemical characterization of an immunosuppressive soluble factor from mastocytoma-bearing mice	*Motohiro Watanabe, Shui-hua Pan, Herman Friedman*
255	A specific chromosome breakpoint associated with mouse plasmacytomas	*June S. Shepard, Olive S. Pettengill, Doris H. Wurster-Hill, George D. Sorenson*
259	Rate of cell division in atypias and invasive carcinoma of the uterine cervix of the mouse	*C. A. Rubio*
265	Decline of natural killer cell activity in sublethally irradiated mice	*Paula S. Hochman, Gustavo Cudkowicz, Jean Dausset*

Guest Editorial

275 Status report on saccharin in humans — *Guy R. Newell, Robert N. Hoover, Albert C. Kolbye, Jr.*

Investigations on Man

277 Evolution in vitro of stemlines with minimal karotypic deviations in a human heteroploid cell line — *T. R. Chen*

285 Multifocal nephroblastic neoplasia — *Kevin E. Bove, A. James McAdams*

295 Distribution of T-lymphocytes and B-lymphocytes in peripheral blood and effusions of patients with cancer — *W. Domagala, E. E. Emeson, L. G. Koss*

301 Acute effects of orally administered levamisole on random monocyte motility and chemotaxis in man — *S. David Nathanson, Peter L. Zamfirescu, Joseph K. Portaro, Jean B. deKernion, John L. Fahey*

307 A case-control study of Hodgkin's disease in Israel — *J. H. Abramson, H. Pridan, M. I. Sacks, M. Avitzour, E. Peritz*

315 Transient carcinoembryonic antigen (CEA) elevations following resection of colorectal cancer: A limitation in the use of serial CEA levels as an indicator for second-look surgery — *Robin A. Rittgers, Glenn Steele, Jr., Norman Zamcheck, Matthew S. Loewenstein, Paul H. Sugarbaker, Robert J. Mayer, Jacob J. Lokich, James Maltz, Richard E. Wilson*

319 Lung carcinoma-reactive antibodies isolated from tumor tissues and pleural effusions of lung cancer patients — *Edward Paluch, Harry L. Ioachim*

327 Case-control study of antihypertensive and diuretic use by women with malignant and benign breast lesions detected in a mammography screening program — *Roger R. Williams, Manning Feinleib, Robert J. Connor, Nancy L. Stegens*

337 Subsequent cancer in patients with chronic lymphocytic leukemia—a possible immunologic mechanism — *Mark H. Greene, Robert N. Hoover, Joseph F. Fraumeni, Jr.*

341 Unusual configurations of endoplasmic reticulum in cells of acute promyelocytic leukemia — *Janet L. Parkin, Richard D. Brunning*

349	Influence of chemotherapeutic agents on chorionic gonadotropin-alpha subunit secretion in a human lung cancer cell line (ChaGo): Discordance of cytotoxic and secretory effects	*Lawrence E. Broder, Bruce D. Weintraub, Saul W. Rosen*

Investigations on Nonhuman Systems

353	Allogeneic hematopoietic grafts after total-body irradiation in dogs with spontaneous tumors	*Paul L. Weiden, Rainer Storb, George E. Sale, Theodore C. Graham, E. Donnall Thomas*
359	Foreign-body tumorigenesis in mice: DNA synthesis in surface-attached cells during preneoplasia	*Mary Jane Thomassen, Lance C. Buoen, Inge Brand, K. Gerhard Brand*
365	Nitrosourea-induced brain tumors: An in vivo and in vitro tumor model system	*Jun Yoshida, Humberto Cravioto*
375	Superoxide dismutase activity of normal murine liver, regenerating liver, and H6 hepatoma	*L. W. Oberley, I. B. Bize, S. K. Sahu, S. W. H. Chan Leuthauser, H. E. Gruber*
381	Analysis of *N*-ethyl-*N*-nitrosourea-induced brain carcinogenesis by sequential culturing during the latent period. I. Morphology and tumorigenicity of the cultured cells and their growth in agar	*Joan P. Roscoe, Penelope J. Claisse*
391	Analysis of *N*-ethyl-*N*-nitrosourea-induced brain carcinogenesis by sequential culturing during the latent period. II. Morphology of the tumors induced by cell cultures	*Penelope J. Claisse, P. L. Lantos, Joan P. Roscoe*
399	Growth and rejection of leukemia cells in individual mice after combined treatment with amphotericin B and 1,3-bis(2-chloroethyl)-1-nitrosourea	*Frederick Valeriote, Richard Lynch, Gerald Medoff, Sandra Tolen, Julia Dieckman*
403	Regression of established tumors in rats by injection of diethylaminoethyl-dextran and Friend murine leukemia virus	*Takao Kodama, Hiroyuki Kato, Eiki Gotohda, Hiroshi Kobayashi, Fujiro Sendo*
407	Hyperplastic foci in precancerous rat liver: Light microscopic and electron microscopic study	*Alan H. Timme*
411	Comparison of Mason-Pfizer monkey virus and squirrel monkey (*Saimiri sciureus*) retrovirus by immunoelectron microscopy	*G. C. Smith, R. L. Heberling, S. S. Kalter*
415	Effects of levamisole on normal and malignant murine lymphocytes	*William C. Gordon, Morton D. Prager*
423	Acute lymphocytic leukemia-associated cell membrane antigen	*Ronald Billing, Jun Minowada, M. Cline, Bill Clark, Kathy Lee*
431	Transmission electron microscopy surveillance of retroviruses in tissue culture cells prepared by the critical-point drying method	*Yuzo Iwasaki, Nobuo Tsuchida*
437	Suppressed murine mammary tumor virus (MuMTV) expression in RIII female mice treated neonatally with goat antiserum to MuMTV	*Asher Frensdorff, Abraham Wald*
441	Differential effects of β-naphthoflavone and pregnenolone-16α-carbonitrile on dimethylnitrosamine-induced hepatocarcinogenesis	*Mary F. Argus, Cornelia Hoch-Ligeti, Joseph C. Arcos, Allan H. Conney*
451	Lack of involvement of 6-hydroxymethylation in benzo[*a*]pyrene skin tumor initiation in mice	*T. J. Slaga, W. M. Bracken, A. Viaje, D. L. Berry, S. M. Fischer, D. R. Miller*
457	Detection of mutagenicity of the colon carcinogen 1,2-dimethylhydrazine by the host-mediated assay and its correlation to carcinogenicity	*Masaaki Moriya, Kimie Kato, Toshihiro Ohta, Kazuko Watanabe, Yoshiko Watanabe, Yasuhiko Shirasu*
461	Resistance of G mice to murine leukemia virus infection: Apparent disparity in in vivo and in vitro resistances	*H. Yoshikura, T. Odaka*

465	Binding of 7,12-dimethylbenz[*a*]anthracene to BALB/c mouse mammary gland DNA in organ culture	*Amit B. Kundu, Nityanand T. Telang, Mihir R. Banerjee*
471	Suppression of mitogen responses and graft-versus-host reaction by splenocytes from mice bearing Lewis lung carcinoma	*Alessandro Anaclerio, Maria Luisa Moras, Gabriella Conti, Gianni Mistrello, Federico Spreafico*
477	Rat ileocecal immunocytoma. An ultrastructural study with special attention to the presence of viral particles	*G. Burtonboy, A. Beckers, J. Rodhain, H. Bazin, M. E. Lamy*
485	Prevalence of murine mammary tumor virus antibody and antigens in normal and tumor-bearing feral mice	*Donald L. Fine, Larry O. Arthur, Murray B. Gardner*
493	Induction of colon tumors in 1,2-dimethylhydrazine-resistant Lobund Wistar rats by methylazoxymethanol acetate	*Morris Pollard, Morris S. Zedeck*
495	Chromosome banding patterns and breakpoints of three transplantable hepatomas induced in rats by aromatic amines	*Joseph Kovi, Elizabeth Kovi, Harold P. Morris, Mamidanna S. Rao*
507	Transfer of viable putative preneoplastic hepatocytes to the livers of syngeneic host rats	*Brian A. Laishes, Emmanuel Farber*
513	Effect of dietary fat saturation on survival of mice with L1210 leukemia	*C. Patrick Burns, Diana G. Luttenegger, Arthur A. Spector*
517	Kinetic studies on the hepatic microsomal metabolism of dimethylnitrosamine, diethylnitrosamine, and methylethylnitrosamine in the rat	*Irene Y. Chau, Doron Dagani, Michael C. Archer*
523	Control of melanogenesis in mouse melanoma cells of varying metastatic potential	*Richard M. Niles, Joseph S. Makarski*
527	Alloantisera reacting with tumor cells of inappropriate haplotype. I. Characterization of target antigens	*Maria Prat, Michael J. Rogers, Ettore Appella*
535	Suppression and immunotherapy of the guinea pig line-10 hepatocarcinoma mediated by nonviable *Staphylococcus aureus*	*Percy Minden, J. Kenneth McClatchy, Michael J. Brunda*

Combined Investigations on Man and Nonhuman Systems: The Respiratory Epithelium

539	The respiratory epithelium. I. Human bronchus	*Elizabeth M. McDowell, Lucy A. Barrett, Fred Glavin, Curtis C. Harris, Benjamin F. Trump*
551	The respiratory epithelium. II. Hamster trachea, bronchus, and bronchioles	*Peter J. Becci, Elizabeth M. McDowell, Benjamin F. Trump*
563	The respiratory epithelium. III. Histogenesis of epidermoid metaplasia and carcinoma in situ in the human	*Benjamin F. Trump, Elizabeth M. McDowell, Fred Glavin, Lucy A. Barrett, Peter J. Becci, Walter Schürch, Hans E. Kaiser, Curtis C. Harris*
577	The respiratory epithelium. IV. Histogenesis of epidermoid metaplasia and carcinoma in situ in the hamster	*Peter J. Becci, Elizabeth M. McDowell, Benjamin F. Trump*
587	The respiratory epithelium. V. Histogenesis of lung carcinomas in the human	*Elizabeth M. McDowell, Joseph S. McLaughlin, Dezso K. Merenyi, Richard F. Kieffer, Curtis C. Harris, Benjamin F. Trump*
607	The respiratory epithelium. VI. Histogenesis of lung tumors induced by benzo[*a*]pyrene-ferric oxide in the hamster	*Peter J. Becci, Elizabeth M. McDowell, Benjamin F. Trump*

Corrections

Investigations on Man

677 Antigens of a human breast carcinoma cell line (BT20). I. Synthesis of serum proteins, membrane-associated antigens, and oncofetal-associated antigens — *J. Hurlimann, R. Dayal*

687 Serum prealbumin, retinol-binding protein, transferrin, and albumin levels in patients with large bowel cancer — *Gérard Milano, Edward H. Cooper, John C. Goligher, Geoffrey R. Giles, A. Munro Neville*

693 Special features of intestinal metaplasia and its relation to early gastric carcinoma in man: Observation by a method in which leucine aminopeptidase activity is used — *Kunihiro Nakahara*

703 Serum protein-bound carbohydrates for following the course of disease in patients with metastatic breast carcinoma — *T. Phillip Waalkes, John E. Mrochek, Stanley R. Dinsmore, Douglas C. Tormey*

709 Diet in the epidemiology of cancer of the colon and rectum — *Saxon Graham, Hari Dayal, Mya Swanson, Arnold Mittelman, Gregg Wilkinson*

715 A reevaluation of B-lymphocyte levels in peripheral blood from cancer patients — *Gary W. Wood, James R. Neff*

Investigations on Nonhuman Systems

719 Diethylstilbestrol binding to estrogen receptor in mammary tissue and uteri of C3H/HeJ mice — *Allan B. Okey, Gregory P. Bondy*

725	Restraint-induced inhibition of 7,12-dimethylbenz[*a*]anthracene-induced mammary tumors: Relation to stages of tumor development	*Benjamin H. Newberry*
731	Chemical carcinogenesis and immunity: Immunologic status of rats treated with methylnitrosourea	*Bruce S. Zwilling, Joyce A. Filppi, Frank W. Chorpenning, Adalbert Koestner, Melvin S. Rheins*
737	Nonimmune and immune surveillance. II. Effect of recipient's age, tumor immunogenicity, and neonatal thymectomy on tumor growth inhibition	*Svetlana N. Zinzar, George J. Svet-Moldavsky, Natalia V. Karmanova*
747	Immunologic methods for the identification of cell types. II. Expression of normal mouse mammary epithelial cell antigens in mammary neoplasia	*Roberto L. Ceriani, Jerry A. Peterson, S. Abraham*
753	Biochemical and ultrastructural studies on estrogen-induced pituitary tumors in F344 rats	*Alejandro F. De Nicola, Irene von Lawzewitsch, Susana E. Kaplan, Carlos Libertun*
765	Primary culture of rat mammary epithelial cells. I. Effect of plating density, hormones, and serum on DNA synthesis	*James Richards, S. Nandi*
773	Primary culture of rat mammary epithelial cells. II. Cytotoxic effect and metabolism of 7,12-dimethylbenz[*a*]anthracene and *N*-nitroso-*N*-methylurea	*James Richards, S. Nandi*
779	Pathogenesis of rat colon carcinomas induced by *N*-methyl-*N*-nitrosourea	*Robert Lev, Anthony Herp*
787	Effect of microtubule inhibitors on malignant invasion in vitro	*Marc M. K. Mareel, Marc J. De Brabander*
793	Male sterility in the domestic fowl (*Gallus domesticus*) after 1-(2-chloroethyl)-3-(4-methylcyclohexyl)-1-nitroso-*trans*-urea (NSC-95441) treatment of chicks	*A. Zimber, K. Perk*
799	Inhibition of DNA synthesis by 1,2-dimethylhydrazine and methylazoxymethanol acetate in rabbit colon mucosa in organ culture	*K. M. Mak, W. W. Chang*
807	Evaluation of hepatocellular neoplasms in mice	*J. M. Ward, G. Vlahakis*
813	Enhancement of DL-ethionine-induced liver carcinogenesis in rats fed a choline-devoid diet	*Hisashi Shinozuka, Benito Lombardi, Stewart Sell, Richard M. Iammarino*
819	In vivo modulation of thymus-leukemia antigens on mouse leukemia cells and thymocytes: Retention of modulating antibody on the cell surface	*Janet B. Jacobson, Stefan Galuska, Christopher W. Stackpole*
827	Effect of *Corynebacterium parvum* on tumor growth in the central nervous system of mice	*Frances K. Conley, Jack S. Remington*
833	Metabolism of concanavalin A-affinity molecular variants of alpha-fetoprotein in rats	*Maxwell Barus, David Sylwester, Philip C. Kelleher, Carol J. Smith*
837	Relationship between leukemogenicity and in vivo inducibility of normal differentiation in mouse myeloid leukemia cells	*Yoshio Honma, Takashi Kasukabe, Motoo Hozumi*
843	In vivo enhancement of 5-fluorouracil cytotoxicity to AKR leukemia cells by thymidine in mice	*Giovanni Santelli, Fred Valeriote*
849	Pathogenesis of Marek's disease: Early appearance of Marek's disease tumor-associated surface antigen in infected chickens	*K. K. Murthy, B. W. Calnek*
855	Demonstration of Marek's disease tumor-associated surface antigen in chickens infected with nononcogenic Marek's disease virus and herpesvirus of turkeys	*K. A. Schat, B. W. Calnek*
859	Selective induction of melanomas in gerbils (*Meriones unguiculatus*) following postnatal administration of *N*-ethyl-*N*-nitrosourea	*P. Kleihues, J. Bücheler, U. N. Riede*

865	Carcinogenic activity of *Symphytum officinale*	*Iwao Hirono, Hideki Mori, Masanobu Haga*
871	Inhibition of murine osteogenic sarcomas by treatment with type I or type II interferon	*John L. Crane, Jr., Lowell A. Glasgow, Earl R. Kern, Julius S. Youngner*
875	Ependymomas, malignant tumors of pancreatic islets, and osteosarcomas induced in hamsters by BK virus, a human papovavirus	*A. Corallini, G. Altavilla, M. G. Cecchetti, G. Fabris, M. P. Grossi, P. G. Balboni, G. Lanza, G. Barbanti-Brodano*
885	Secondary in vitro generation of cytolytic T-lymphocytes (CTL's) in the murine sarcoma virus system. Virus-specific CTL induction across the H-2 barrier	*Dino Collavo, Anna Parenti, Giovanni Biasi, Luigi Chieco-Bianchi, Alfonso Colombatti*
891	Viruslike particles in hamster embryos, fetuses, and tumors	*Halina Sobis, M. Vandeputte*
897	Therapy of the murine plasmacytoma MOPC 104E: Role of the immune response	*R. A. Lubet, D. E. Carlson*
905	Pulmonary carcinogenesis in rats given implants of cigarette smoke condensate in beeswax pellets	*G. E. Dagle, K. E. McDonald, L. G. Smith, D. L. Stevens, Jr.*
911	Development of teratomas from embryos transplanted into outbred and inbred adult hamsters	*Ivan Damjanov*
917	Ultraviolet carcinogenesis in T-cell-depleted mice	*K. C. Norbury, M. L. Kripke*
923	Muscarinic cholinergic activation of mouse spleen cells cytotoxic to tumor cells in vitro	*Mary-Ann Lane*
927	BN rat myeloid leukemia transferred to the (LEW × BN)F_1 rat	*William P. Vaughan, Philip J. Burke, Joyce Jung*
931	Correlation between the ability of tumor cells to incorporate specific fatty acids and their sensitivity to killing by a specific antibody plus guinea pig complement	*Seymour I. Schlager, Sarkis H. Ohanian, Tibor Borsos*
935	Preparation of plasma membranes from line 10 and line 1 guinea pig hepatomas	*Peter C. Dau*

Announcement

939	The Yamagiwa-Yoshida Memorial International Cancer Study Grants	

Vol 61, No. 4—OCTOBER 1978

941	In This Issue	

Investigations on Man

943	Multiple myeloma: An immunologic profile. II. Bone marrow studies	*T. Paglieroni, M. R. MacKenzie, V. Caggiano*
951	Simultaneous differential staining of phosphoproteins, sialoglycoproteins, hyaluronic acid, sulfated glycosaminoglycans, proteins, and nucleic acids in human breast tissue with a cationic carbocyanine dye	*Marie R. Green*
961	Altered carbohydrate content of $alpha_1$-antitrypsin in patients with cancer	*Israel Rostenberg, Jesús Guízar-Vázquez, Rosenda Peñaloza*
967	Isolation of two human tumor epithelial cell lines from solid breast carcinomas	*Etienne Y. Lasfargues, William G. Coutinho, Ernest S. Redfield*
979	Associations of cancer mortality with halomethanes in drinking water	*Kenneth P. Cantor, Robert Hoover, Thomas J. Mason, Leland J. McCabe*

987	Rabbit antiserum against a non-T, non-B leukemia cell line that carries the Ph¹ chromosome (NALM-1): Antibody specific to a non-T, non-B acute lymphoblastic leukemia antigen	*Hirofumi Koshiba, Jun Minowada, David Pressman*
993	Colony formation by simian virus 40-transformed human parapharyngeal cells cultured in semisolid agar	*Regina L. Ruben, Keen A. Rafferty, Jr.*
1001	Role of suppressor cells in depression of in vitro lymphoproliferative responses of lung cancer and breast cancer patients	*Thomas R. Jerrells, Jack H. Dean, Gary L. Richardson, James L. McCoy, Ronald B. Herberman*
1011	Advantages of cryopreserved lymphocytes for sequential evaluation of human immune competence. II. Mixed lymphocyte cultures and mononuclear cell subpopulations	*Henry F. Sears, Susan C. Tondreau, Steven A. Rosenberg*
1017	Geographic patterns of bladder cancer in the United States	*William J. Blot, Joseph F. Fraumeni, Jr.*
1025	Further analysis of cancer mortality patterns among workers exposed to cutting oil mists	*Pierre Decoufle*
1031	Increased risk of brain tumors in children exposed to barbiturates	*Ellen Gold, Leon Gordis, James Tonascia, Moyses Szklo*
1035	Purification and characterization of a human lung tumor-associated antigen	*James A. Braatz, K. Robert McIntire, Gerald L. Princler, Kenneth H. Kortright, Ronald B. Herberman*
1047	Cancer mortality and morbidity among rubber workers	*Richard R. Monson, Lawrence J. Fine*
1055	Relation between component parts of fibrocystic disease complex and breast cancer	*David L. Page, Roger Vander Zwaag, Lowell W. Rogers, Lois T. Williams, William E. Walker, William H. Hartmann*
1065	Cytogenetic diagnosis of cancer: Abnormalities of chromosomes and polyploid levels in the bone marrow of patients with small cell anaplastic carcinoma of the lung	*Doris H. Wurster-Hill, L. Herbert Maurer*

Investigations on Nonhuman Systems

1077	Nucleases and adenosine 3',5'-cyclic monophosphate phosphodiesterase activities in murine sarcoma virus (Moloney)-infected mice	*K. C. Tsou, K. W. Lo, R. B. Herberman*
1085	Cell-mediated responses in dogs with spontaneous neoplasms. I. Detection of cell-mediated cytotoxicity by the chromium-51 release assay	*G. R. Betton, N. T. Gorman*
1095	Cell-mediated responses in dogs with spontaneous neoplasms. II. Detection by direct leukocyte migration inhibition technique	*N. T. Gorman, G. R. Betton*
1101	DNA repair synthesis in rat retinal ganglion cells treated with chemical carcinogens or ultraviolet light in vitro, with special reference to aging and repair level	*Takatoshi Ishikawa, Shozo Takayama, Tomoyuki Kitagawa*
1107	Comparison of the effects of beeswax:trioctanoin and trioctanoin vehicles on 3-methylcholanthrene, benzo[*a*]pyrene, and 7,12-dimethylbenz[*a*]anthracene subcutaneous carcinogenesis in three strains of mice and one hybrid	*Carrie E. Whitmire, Agustin Lopez*
1113	Natural transmission of gibbon leukemia virus	*Thomas G. Kawakami, Lily Sun, Terry S. McDowell*
1117	Mechanism of genetic resistance to Friend virus leukemia in mice. V. Relevance of *Fv-3* gene in the regulation of in vivo immunosuppression	*Vinay Kumar, Paul Resnick, Jean W. Eastcott, Michael Bennett*
1125	Genetic analyses of differences in incidence of mammary tumors and reticulum cell neoplasms with the use of recombinant inbred lines of mice	*Anna Dux, Otto Mühlbock, Donald W. Bailey*

1131 Dose-incidence variations of reticulum cell sarcoma in mice with irradiated bone marrow — *Vincenzo Covelli, Elda Ballardin, Vincenzo Di Majo, Bruno Bassani, Pietro Metalli*

1135 Degradation of cell-bound antibodies by tumor cells from C57BL/6 mice — *Yona Keisari, Isaac P. Witz*

1143 Antibody-dependent lysis of tumor cells in vivo. I. Early lysis of tumor cells — *Juan C. Scornik, Paul A. Klein*

1149 Antibody-dependent lysis of tumor cells in vivo. II. Elimination of chromium-51 as a measurement of cytolysis — *Juan C. Scornik, Paul A. Klein*

1155 Particle-enhanced membrane uptake of a polynuclear aromatic hydrocarbon: A possible role in cocarcinogenesis — *J. R. Lakowicz, F. Englund, A. Hidmark*

1161 Effect of colostomy on intestinal carcinogenesis by methylazoxymethanol acetate in rats — *Nagaki Matsubara, Hideki Mori, Iwao Hirono*

1165 Effect of chemical carcinogen treatment on the immunogenicity of mouse mammary tumors arising from hyperplastic alveolar nodule outgrowth lines — *B. Ruppert, W. Wei, D. Medina, G. H. Heppner*

1171 Cytogenetic studies of a simian virus 40 temperature-sensitive mutant-transformed Chinese hamster cell clone at the permissive and nonpermissive temperature — *John M. Lehman, Christine C. Robinson*

Letters to the Editor

1179 Effectiveness of glucan in the treatment of human neoplasia — *J. W. Proctor, Y. Yamamura*

1179 Reply — *James T. Hunter*

Investigations on Man

1181 Immunologic relationship between breast carcinoma and benign breast disease as detected by the leukocyte migration inhibition assay — *G. B. Cannon, J. L. McCoy, L. J. Jerome, R. Reddick, C. Alford, V. Tinley, R. B. Herberman*

1187 Structure-activity relationships and specificity of inhibition of DNA polymerases from normal and leukemia cells of man and from simian sarcoma virus by rifamycin derivatives — *Richard A. DiCioccio, B. I. Sahai Srivastava*

1195 Second primary neoplasms following ovarian cancer — *Ronald R. Reimer, Robert Hoover, Joseph F. Fraumeni, Jr., Robert C. Young*

1199 Identification of a macromolecule containing an anticarcinoembryonic antigen-reactive substance and immunoglobulin M in human pancreatic cancer — *S. R. Harvey, L. R. Van Dusen, H. O. Douglass, E. D. Holyoke, T. M. Chu*

1205 Presence of a mouse mammary tumor virus-related antigen in human breast carcinoma cells and its absence from normal mammary epithelial cells — *Ning-Sun Yang, Charles M. McGrath, Philip Furmanski*

Investigations on Nonhuman Systems

1209 Cytologic correlates of chemical carcinogens in respiratory tracts of dogs — *Kimito Matsumura, Arthur H. Cohen, Edwin C. Shors, John R. Benfield*

1215 Cytochemical study on uptake of exogenous peroxidase by Vx2 carcinoma cells transplanted into the rabbit — *Chuzo Morimoto*

1221 Effect of anesthetic agent on lung tumor induction in hamsters given benzo[*a*]pyrene-ferric oxide — *M. C. Henry, C. D. Port*

1229 Tumor-associated transplantation antigen distinct from H-2^k-like antigens on a BALB/*c* (*H*-2^d) fibrosarcoma — *Giorgio Parmiani, Angela Meschini, Giovanni Invernizzi, Giusi Carbone*

1235 Effect of unblocking therapy and levamisole on primary gastrointestinal tumors in rats: Immunologic and histologic correlation — *Subhash C. Bansal, Bharti R. Bansal, Raymond Mark, Jonathan E. Rhoads, Jr.*

1255 Effect of chemotherapeutic agents on natural cell-mediated cytotoxicity in mice — *Alberto Mantovani, Walter Luini, Giuseppe Peri, Annunciata Vecchi, Federico Spreafico*

1263 Multiple forms of alpha-galactosidase of the mouse and their use as a cell marker in tumorigenesis — *Jack E. Tobler, K. Bruce Jacobson*

1269 Effect of intestinal microflora on 3,2′-dimethyl-4-aminobiphenyl-induced carcinogenesis in F344 rats — *Bandaru S. Reddy, K. Watanabe*

1273 Development of cell-mediated immunity to Marek's disease tumor cells in chickens inoculated with Marek's disease vaccines — *J. M. Sharma, R. L. Witter, B. D. Coulson*

1281 Cyclic nucleotide concentrations in 7,12-dimethylbenz[*a*]anthracene-induced pancreatic cancer in rats — *R. E. Stevens, J. M. Graves, E. S. Meek, J. W. Osborne, H. F. Cheng, D. P. Loven*

1285 Mechanism of dimethylnitrosamine metabolism and activation in rats — *H. M. Godoy, M. I. Diaz Gomez, J. A. Castro*

1291 Ultrastructure of 1,2-dimethylhydrazine-induced adenocarcinomas in rat colon — *David H. Barkla, Peter J. M. Tutton*

1301 Genetic resistance in Japanese wild mice (*Mus musculus molossinus*) to an NB-tropic Friend murine leukemia virus — *Takeshi Odaka, Hidetoshi Ikeda, Kazuo Moriwaki, Akio Matsuzawa, Michiru Mizuno, Kyoji Kondo*

1307 Cell killing and kinetic effects of diglycolaldehyde on dividing and nondividing mammalian cells in vitro — *S. C. Barranco, D. R. Flournoy, W. E. Bolton, M. S. Oka*

1311 Enhancement of rat hepatocellular-altered foci by the liver tumor promoter phenobarbital: Evidence that foci are precursors of neoplasms and that the promoter acts on carcinogen-induced lesions — *Kenshi Watanabe, Gary M. Williams*

1315 Detection of feline leukemia virus in tissues of cats by a paraffin embedding immunofluorescence procedure — *J. L. Rojko, E. A. Hoover, L. E. Mathes, W. R. Hause, J. P. Schaller, R. G. Olsen*

1323 Stimulatory effect of immunization on tumor induction by Moloney murine sarcoma virus — *Donna M. Murasko, Richmond T. Prehn*

1329 Expression of RNA of an endogenous replication-defective retrovirus in rat mammary adenocarcinomas induced by 7,12-dimethylbenz[*a*]anthracene — *Howard A. Young, Martin L. Wenk, Dawn G. Goodman, Edward M. Scolnick*

1339 Mammary gland hyperplastic alveolar noduligenesis in the LEW/Mai rat in relation to mitotic activity, estrous cycle status, and age — *Dallas M. Purnell, Deborah J. Stowers*

1347 Reduction of respiratory tract binding of benzo[*a*]pyrene in mice by immunization — *F. Moolten, N. Capparell, E. Boger*

1351 Specific immune response against tumor-associated antigens of a syngeneic simian virus 40-induced sarcoma in mice — *Moshe Glaser*

1357 Survival and cause of death in aging germfree athymic nude and normal inbred C3Hf/He mice — *J. M. Holland, T. J. Mitchell, L. C. Gipson, M. S. Whitaker*

1363 Tumorigenic effect of 1-hydrazinophthalazine hydrochloride in mice — *Bela Toth*

1369 In This Issue

Investigations on Man

1371 Characterization of sialyltransferase in noncancerous and neoplastic human liver tissue — *Holly A. Ingraham, Jack A. Alhadeff*

1375 Retinoic acid-binding protein in human breast cancer and dysplasia — *P. R. Huber, E. Geyer, W. Küng, A. Matter, J. Torhorst, U. Eppenberger*

1379 Geographic patterns of prostate cancer in the United States — *Aaron Blair, Joseph F. Fraumeni, Jr.*

1385 Demonstration of antibodies in patients' sera, directed against nonspecific cross-reacting antigen — *S. von Kleist, M. King, K. Havemann*

Investigations on Nonhuman Systems

1393 Stimulation of tumor growth in mice by high doses of BCG — *V. I. Kaledin, Y. N. Kurunov, N. A. Matienko, V. P. Nikolin*

1397 Distribution of tetraphenylporphinesulfonate and tetracarboxyphenylporphine in tumor-bearing mice — *D. A. Musser, J. M. Wagner, N. Datta-Gupta*

1405 3-Hydroxyxanthine: Transplacental effects and ontogeny of related sulfate metabolism in rats and mice — *Lucy M. Anderson, Jerome J. McDonald, John M. Budinger, Isabel M. Mountain, George B. Brown*

1411 Increased incidence of mammary tumors in rats after direct or transplacental exposure to 3-hydroxyxanthine — *Lucy M. Anderson, Morris N. Teller, John M. Budinger, George B. Brown*

1415 Surface structure of fetal rat brain cells during neoplastic transformation in cell culture — *Åge Haugen, Ole Didrik Laerum*

1423 Concanavalin A-induced agglutinability of normal, preneoplastic, and neoplastic mouse mammary cells — *Bonnie B. Asch, Daniel Medina*

1431	Cytologic appearance of cells dissociated from rat colon and their separation by isokinetic and isopyknic sedimentation in gradients of Ficoll	*Theresa P. Pretlow, Anthony J. Stinson, Thomas G. Pretlow II, Gregory L. Glover*
1439	Developmental stage of the rat mammary gland as determinant of its susceptibility to 7,12-dimethylbenz[*a*]anthracene	*Irma H. Russo, Jose Russo*
1451	DNA labeling index and structure of the rat mammary gland as determinants of its susceptibility to carcinogenesis	*Jose Russo, Irma H. Russo*
1461	Morphologic and biochemical characterization of erythrophoromas in goldfish (*Carassius auratus*)	*Takatoshi Ishikawa, Prince Masahito, Jiro Matsumoto, Shozo Takayama*
1471	Pathology of esophageal neoplasms and associated proliferative lesions induced in rats by *N*-methyl-*N*-benzylnitrosamine	*Sherman F. Stinson, Robert A. Squire, Michael B. Sporn*
1477	Differences in nuclear glucocorticoid binding between corticoid-sensitive and corticoid-resistant lymphocytes of mouse lymphoma P1798 and stabilization of nuclear hormone receptor complexes with carbobenzoxy-L-phenylalanine	*John Stevens, Yee-Wan Stevens, Jonathan Rhodes, German Steiner*
1487	Feline leukemia virus envelope glycoprotein vaccine: Preparation and evaluation of immunizing potency in guinea pig and cat	*Ronald A. Salerno, E. Dale Lehman, Vivian M. Larson, Maurice R. Hilleman*
1495	Modulation of sensitivity to natural killer cell lysis after in vitro explantation of a mouse lymphoma	*Susanne Becker, Rolf Kiessling, Nora Lee, George Klein*
1499	Selection and biologic properties of malignant variants of a murine lymphosarcoma	*Kenneth W. Brunson, Garth L. Nicolson*
1505	Rat differences in mammary tumor induction with estrogen and neutron radiation	*Claire J. Shellabarger, John Patrick Stone, Seymour Holtzman*
1509	Characterization of a new virus from *Mus cervicolor* immunologically related to the mouse mammary tumor virus	*J. Schlom, P. H. Hand, Y. A. Teramoto, R. Callahan, G. Todaro, G. Schidlovsky*
1521	Resistance and cross-resistance of cultured leukemia P388 cells to vincristine, adriamycin, adriamycin analogs, and actinomycin D	*Lee J. Wilkoff, Elizabeth A. Dulmadge*
1525	*Propionibacterium acnes*-mediated humoral immune responses to tumor-specific antigens on rat liver cells transformed in vitro by chemical carcinogens	*T. Yokota, S. Katahira, K. Konno, K. Minami*
1531	Spontaneous hepatomas in mice inbred from Ha:ICR Swiss stock: Effects of sex, cedar shavings in bedding, and immunization with fetal liver or hepatoma cells	*Barbara B. Jacobs, Diane K. Dieter*

Special Reports

1535	International Symposium on Etiology and Control of Nasopharyngeal Carcinoma: Summary and recommendations	*D. V. Ablashi, G. de-Thé, Y. Ito*
1537	Can animal and in vitro studies give new, relevant answers to questions concerning mammographic screening for human breast cancer?	*Lyle A. Dethlefsen, J. Martin Brown, Anthony V. Carrano, Satyabrata Nandi*

Announcements

1547	Thirteenth Annual Symposium for Referring Physicians
1547	International Course on Malignant Lymphomas

1547 National Conference on Urologic Cancer

1547 Sixth Summer Program in Methods of Immunologic Research and Diagnosis

1547 Fourth Biennial Meeting of the Asian Federation of Organisations for Cancer Research and Control
